

Ming Gao, De-Xian Wang, Qi-Yu Zheng, Zhi-Tang Huang, and Mei-Xiang Wang*. Remarkable Electronic and Steric Effects in the Nitrile Biotransformations for the Preparation of Enantiopure Functionalized Carboxylic Acids and Amides: Implication for an Unsaturated Carbon–Carbon Bond Binding Domain of the Amidase.

Page 6064. The absolute configurations of products **12–15** in Scheme 2 were drawn incorrectly. The correct structures are shown below.

SCHEME 2. Synthesis of Enantiopure γ -Lactams
