

Yoshinori Yamamoto.* From σ - to π -Electrophilic Lewis Acids. Application to Selective Organic Transformations.

Pages 7818 and 7819. All of the values for ΔH given in Table 1 and Figure 1 are for exothermic reactions and should be negative. In the caption of Figure 1, “absolute and relative” should read “absolute values and relative”. In footnote a of Table 1, “The heats of formation were” should read “The heats of formation ($-\Delta H$) were”.

Page 7820, left column, line 24 from the bottom. The values for ΔH_3 and ΔH_4 should be positive. Line 22 from the bottom. The values +0.5 Kcal and +3.3 Kcal should be -0.5 kcal and -3.3 kcal.
