

**Correction to A Rapid, One-Pot, Microwave-Influenced Synthesis of Spiro-2,5-diketopiperazines via a Cascade Ugi/6-Exo-Trig Aza-Michael Reaction** [*The Journal of Organic Chemistry* J. Org. Chem. 2011, 76, 2261–2264. DOI: 10.1021/jo102305q]. Soumava Santra, and Peter R. Andreama\*

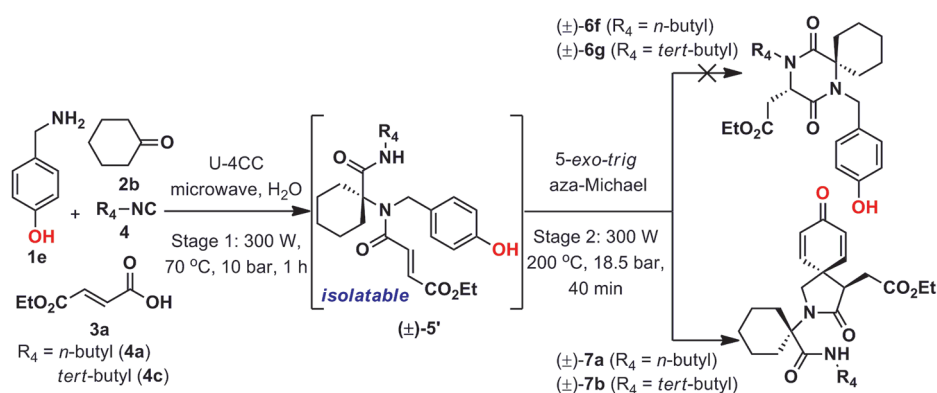

Page 2263. There is an error on line 3 of the continuing paragraph as it should read "...with microwave irradiation 5'' isomerizes to 5''' due to a low..." and not as it is currently written. Furthermore, in Scheme 1, compound 3a is missing a carbonyl.

**Scheme 1.**

Relative stereochemistry (dashed/solid wedges) has been added to compounds 5a, 6a, and 5' (Scheme 2) and compounds 6f,g and 7a,b.

**Scheme 2.**

Also in reference 23b there should be an A. after Loupy.
