

Correction to Copper-Catalyzed Asymmetric Oxidation of Sulfides

Graham E. O'Mahony, Alan Ford, and Anita R. Maguire*

J. Org. Chem. **2012**, *77*, 3288–3296. DOI: 10.1021/jo2026178.

Page 3289. In Table 2, footnote c should read as follows: "Determined by HPLC analysis on chiral column (Daicel Chiracel OD-H). Absolute configuration determined by comparison of specific rotation values for **6a**, **6b**, **6d**, **6f**, and **6g** to known literature values; for **6c**, **6e**, **6h**, and **6i**, proposed configuration based on HPLC elution order and direction of specific rotations."

Page 3292. In the Experimental Section, the twelfth sentence should read as follows: "Absolute configurations were assigned by comparison of the specific rotations with the literature data for **6a**, **6b**, **6d**, **6f**, and **6g**."

Pages 3289 and 3291. In Table 2, entry 1, and Table S, entries 1, 2, 9, 10, and 12–17, CH₂C₆H₄ should read CH₂C₆H₅.
