Correction to Getting More Out of a Job Plot: Determination of Reactant to Product Stoichiometry in Cases of Displacement Reactions and *n:n* Complex Formation

Eric J. Olson and Philippe Bühlmann*

Page 8407:

We would like to correct eq 9 of our manuscript as follows:

$$c_{AB} = \frac{1 + c_{SUM}^0 K - \sqrt{1 + 2c_{SUM}^0 K + [c_{SUM}^0 K(1 - 2f)]^2}}{2K}$$

The denominator was accidentally omitted in the original publication. This omission does not affect the method we have established, as the normalization process eliminates the denominator of eq 9.

We thank Professor David B. Collum, Department of Chemistry and Chemical Biology, Cornell University, Ithaca NY, for bringing this error to our attention.
