

Correction to “An Investigation of (Diacetoxyiodo)arenes as Precursors for Preparing No-Carrier-Added [¹⁸F]Fluoroarenes from Cyclotron-Produced [¹⁸F]Fluoride Ion”

Mohammad B. Haskali, Sanjay Telu, Yong-Sok Lee, Cheryl L. Morse, Shuiyu Lu, and Victor W. Pike*

J. Org. Chem. 2016, 81 (1), 297–302. DOI: 10.1021/acs.joc.5b02332

The wrong values for Hammett σ_p and yield for the *p*-CN substituent were used to construct Figure 5. The correct

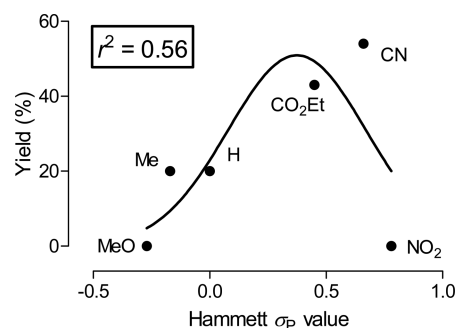

Figure 5. Radiochemical yields of [¹⁸F]*p*-fluoroarenes show a bell-shaped relationship to Hammett σ_p values. The line represents a Gaussian fit of the data and r the correlation coefficient.

values are 0.66 for the σ_p value and 54% for yield. When the correct values are used, the Gaussian fit of the data shows a substantially lower correlation ($r^2 = 0.56$) relative to the published erroneous value ($r^2 = 0.87$). Figure 5 should appear as shown.
