

Announcement

1st ANAIC International Chemical Conference on Silicon and Tin, 1989

The dates of the above ANAIC (Asian Network for Analytical and Inorganic Chemistry) conference have been fixed as 23–26 October 1989. Topics are: New insights into chemical synthesis, reactivity, and structure; Applications in catalysis and solid state chemistry; Polymers and material science applications; Biological effects; and Advances in analytical detection.

Details from: Professor V.G. Kumar Das,
1st ANAIC International Conference Organizing Committee,
c/o The Institute of Advanced Studies,
University of Malaya,
59100 Kuala Lumpur (Malaysia)
