

Announcement

The XVI INTERNATIONAL CONFERENCE ON ORGANOMETALLIC CHEMISTRY

This conference will take place 10–15 July, 1994, at the University of Sussex in Brighton (UK). Recent meetings in this series took place in Warsaw (1992), Detroit (1990), and Turin (1988).

Scientific Program

The meeting will comprise 3 plenary and 21 section invited lectures, as well as oral and poster presentations. There will be three parallel sessions dealing broadly with:

- (i) transition metal and 4f-metal organometallic compounds;
- (ii) main group element analogues; and
- (iii) the use of metal compounds in organic synthesis and catalysis.

Plenary Lecturers:

M.L.H. Green (*Oxford, UK*)
H. Sakurai (*Sendai, Japan*)
B.M. Trost (*Stanford, USA*)

Invited Lecturers:

W. Ando (<i>Tsukuba, Japan</i>)	T. Hayashi (<i>Sapporo, Japan</i>)
S. Aime (<i>Turin, Italy</i>)	R.F. Jordan (<i>Iowa City, USA</i>)
A. Alexakis (<i>Paris, France</i>)	P. Jutzi (<i>Bielefeld, Germany</i>)
W. Beck (<i>Munich, Germany</i>)	T.B. Marder (<i>Waterloo, Canada</i>)
F. Bickelhaupt (<i>Amsterdam, The Netherlands</i>)	I.I. Moiseev (<i>Moscow, Russia</i>)
F.G.N. Cloke (<i>Brighton, UK</i>)	W. Oppolzer (<i>Geneva, Switzerland</i>)
W.J. Evans (<i>Irvine, USA</i>)	M. Pereyre (<i>Bordeaux, France</i>)
I. Fleming (<i>Cambridge, UK</i>)	C.L. Raston (<i>Brisbane, Australia</i>)
V.C. Gibson (<i>Durham, UK</i>)	V. Riera (<i>Oviedo, Spain</i>)
G.S. Girolami (<i>Urbana, USA</i>)	O.J. Scherer (<i>Kaiserslautern, Germany</i>)
	R.R. Schrock (<i>Cambridge, USA</i>)

Others are being invited, and full details will be available at a later stage.

Contributed Papers

There will be an opportunity for a number of contributed oral presentations within the programme. In addition, posters will form an important part of the meeting and two separate poster sessions are planned.

Request for an Application Form and the Second Circular should be sent to:

Dr. John F. Gibson
Secretary (Scientific)
The Royal Society of Chemistry
