 J.F. Normant (*Paris, France*)  
 P.L. Pauson (*Glasgow, UK*)  
 M.D. Rausch (*Amherst, MA, USA*)  
 H. Sakurai (*Chiba, Japan*)  
 F.G.A. Stone (*Waco, TX, USA*)  
 M.G. Voronkov (*Irkutsk, Russian Federation*)  
 H. Werner (*Würzburg, Germany*)  
 G. Wilke (*Mülheim/Ruhr, Germany*)

**Editorial Board**

D.A. Atwood (*Lexington, KY, USA*)  
 J-E. Bäckvall (*Stockholm, Sweden*)  
 I.P. Beletskaya (*Moscow, Russian Federation*)

**Aims and Scope**

The *Journal of Organometallic Chemistry* has a long-standing tradition for publishing original papers dealing with theoretical aspects, structural chemistry, synthesis, physical and chemical properties including reaction mechanisms, and practical applications of organometallic compounds.

Because of the growing importance of organometallic complexes in bioorganometallic chemistry and material sciences, on one hand, and of heavier main group elements in organometallic chemistry, on the other hand, the scope of the Journal has been enlarged, and work covering these fields is also considered.

Besides original papers, the *Journal of Organometallic Chemistry* publishes review articles, communications and notes.

**Publication information:** *Journal of Organometallic Chemistry* (ISSN 0022-328X). For 2007, Volume 692 is scheduled for publication. Subscription prices are available upon request from the Publisher or from the Regional Sales Office nearest you or from this journal's website (<http://www.elsevier.com/jorganchem>). Further information is available on this journal and other Elsevier products through Elsevier's website: (<http://www.elsevier.com>). Subscriptions are accepted on a prepaid basis only and are entered on a calendar year basis. Issues are sent by standard mail (surface within Europe, air delivery outside Europe). Priority rates are available upon request. Claims for missing issues should be made within six months of the date of dispatch.

**Orders, Claims, and Journal Enquiries**

(no manuscript enquiries)

**US mailing notice:** *Journal of Organometallic Chemistry* (ISSN 0022-328X) is published biweekly by Elsevier B.V. (The Boulevard, Langford Lane, Kidlington, Oxford OX5 1GB, UK). Annual subscription price in the USA is US\$ 12,295 — (valid in North, Central and South America), including air speed delivery. Periodical postage rate paid at Rahway NJ and additional mailing offices.

**USA POSTMASTER:** Send change of address to *Journal of Organometallic Chemistry*, Elsevier, 6277 Sea Harbor Drive Orlando, FL 32887-4800. **AIRFREIGHT AND MAILING** in the USA by Mercury International Limited, 365 Blair Road, Avenel, NJ 07001.

For a full and complete Guide for Authors, you can visit the following website: <http://www.ees.elsevier.com/jorganchem>.

Authors are encouraged to submit their papers (including graphical abstract!) electronically directly to the appropriate Regional Editor by using online manuscript submission <http://www.ees.elsevier.com/jorganchem>. The system automatically converts source files to a single Adobe Acrobat PDF version of the article, which is used in the peer-review process. Please note that even though manuscript source files are converted to PDF at submission for the review process, these source files are needed for further processing after acceptance. For specific enquiries on the preparation of electronic artwork consult <http://www.elsevier.com/artworkinstructions>. All correspondence, including notification of the Editor's decision and requests for revision, takes place by e-mail and via the Author's homepage, removing the need for a hard-copy paper trail.

**Regional Editors**

Professor R.D. Adams, Department of Chemistry and Biochemistry, University of South Carolina, Columbia, SC 29208, USA.

Professor G. Bertrand, Université Paul Sabatier, Hétérochimie Fondamentale et Appliquée, 118, Route de Narbonne, F-31062 Toulouse Cedex 04, France.

Professor W.A. Herrmann, Institut für Anorganische Chemie, Technische Universität München, Lichtenbergstrasse 4, D-85747 Garching, Germany.

Professor I. Manners, Professor of Inorganic, Macromolecular and Materials Chemistry, School of Chemistry, University of Bristol, Bristol BS8 1TS, UK.

Professor K. Tatsumi, Research Center for Materials Science, Nagoya University, Furo-cho, Chikusa-ku, Nagoya 464-8602, Japan.

**Subject Reviews Editor**

Professor G. van Koten, Department of Organic (Metal-Mediated) Synthesis, Utrecht University, Transitorium 3, Padualaan 8, NL-3584 CH Utrecht, The Netherlands.

Contributions are accepted on the understanding that authors have obtained the necessary authority for publication. Submission of an article must be accompanied by a statement that the article is original and unpublished and is not being considered for publication elsewhere. Upon acceptance of an article, authors will be asked to sign a "Journal Publishing Agreement" (for more information on this and copyright see <http://www.elsevier.com/copyright>). Acceptance of the agreement will ensure the widest possible dissemination of information. An e-mail (or letter) will be sent to the corresponding author confirming receipt of the manuscript together with a "Journal Publishing Agreement" form or a link to the online version of this agreement.

**Manuscript preparation**

**Language.** Papers will be published in English only.

**Language Polishing.** Authors who require information about language editing and copyediting services pre- and post-submission may visit <http://www.elsevier.com/wps/find/authorshome.authors/languagepolishing> or contact [authorsupport@elsevier.com](mailto:authorsupport@elsevier.com) for more information. Please note Elsevier neither endorses nor takes responsibility for any products, goods or services offered by outside vendors through our services or in any advertising. For more information please refer to our Terms & Conditions [http://www.elsevier.com/wps/find/termsconditions.cws\\_home/termsconditions](http://www.elsevier.com/wps/find/termsconditions.cws_home/termsconditions).

Some flexibility of presentation will be allowed, but authors are urged to arrange the subject matter clearly under such headings as *Introduction*, *Experimental*, *Results*, *Discussion*, etc. All contributions should include a concise, informative *Abstract*, and a maximum of six *Keywords*. References should be numbered consecutively throughout the text and should be collected together in a reference list (headed *References*) at the end of the paper.

All *equations*, *tables* and *legends* should be numbered consecutively and separately throughout the paper. *Illustrations.* Line drawings should be in a form suitable for reproduction. Illustrations can be printed free of charge in colour when they are judged by the Editor to be essential to the presentation. Further information concerning colour illustrations and the costs to the author can be obtained from the publisher.

*Graphical Abstract.* The contents list of the Journal of Organometallic Chemistry contains Graphical Abstracts: **pictograms and synopses**. The authors are therefore asked to provide a drawing or reaction scheme (pictogram) illustrating their work and a synopsis of maximum 50 words. The pictogram should measure 55 × 50 mm for direct reproduction. If reduction is needed, please make sure that the illustration is still informative upon reduction.

**Proofs**  
 One set of page proofs in PDF format will be sent by e-mail to the corresponding Author. Elsevier now sends PDF proofs which can be annotated; instructions on how to annotate PDF files will accompany the proofs. Alternatively, you may list the corrections (including replies to the Query Form), quoting line numbers, and return them to Elsevier in an e-mail. The author is not expected to make changes or corrections that constitute departures from the article in its accepted form. *A Note added in proof* must be dated and the author must have requested and received the Editor's approval. Proofs should be returned within 3 days. All articles must indicate the name and full postal address (including **E-mail, telephone and fax numbers**) of the author to whom proofs should be sent.

**Offprints**

The corresponding author, at no cost, will be provided with a PDF file of the article via e-mail or, alternatively, 25 free paper offprints. The PDF file is a watermarked version of the published article and includes a cover sheet with the journal cover image and a disclaimer outlining the terms and conditions of use. **There are no page charges.**

**Author enquiries**

For enquiries relating to the submission of articles (including electronic submission where available) please visit this journal's homepage at <http://www.elsevier.com/locate/jorganchem>. From here you can also track accepted articles (<http://www.elsevier.com/trackarticle>) and set up e-mail alerts to inform you of when an article's status has changed, as well as detailed artwork guidelines, copyright information, frequently asked questions and more.

Contact details for questions arising after acceptance of an article, especially those relating to proofs, are provided after registration of an article for publication.
