

# Letters to the Editor

Dear Sir,

## **Can You Beat That?**

I am reliably informed by my receptionist (who knows about these things) that in the week following the half-term holiday, my practice received no fewer than 79 new patient referrals.

Is this some kind of record or can any of your readers beat this total? Would anybody want to?

Perhaps we ought to have some sort of regular feature of the magazine entitled 'Beat This' in which practitioners could submit various outstandingly heroic facts about their practices!
