National Clinical Assessment Service

NHS National Patient Safety Agency

The National Clinical Assessment Service offers a specialist service to the NHS to help resolve concerns about the performance of doctors and dentists

Assessors in Dentistry

£350 per day plus expenses

including orthodontists, maxillo-facial surgeons, and restorative dentists

We are seeking to recruit 6 Consultants to be part of the NCAS assessor panel. Assessors are required to be available for up to 15 days a year to ensure we provide a service to England, Wales and Northern Ireland.

You will work as part of a small assessment team to conduct clinical assessments. The purpose of an NCAS assessment is to clarify the concerns about the performance of a practitioner, to identify the causes of poor performance, and to make recommendations on how they may be addressed.

It is essential that you are in good standing with the GMC/GDC and with your specialty and have a minimum of five years' experience as a Consultant. You will be familiar with the principles of assessment, audit and review with at least two years' experience as an assessor as well as having proven report writing skills. You will currently be employed by an NHS organisation and you must also have been in active clinical practice within the last two years.

For an application pack and further information please visit www.ncas.npsa.nhs.uk.

Closing date: noon, Friday 12 January 2007.

If you have any queries, please contact Harpreet Diocee, Programme Coordinator (Assessor Training & Development) on 020 7084 3963 or ncas.education@ncas.npsa.nhs.uk.

Actively striving to address equality and diversity issues, we will recruit, train and promote staff irrespective of age, ethnicity, gender, marital status, disability and sexual orientation.

Our advert is open to all practitioners with the relevant experience and is not affiliated with the advertising provider/service.
