

## Erratum

Bianco A, Da Ros T, Prato M, Toniolo C. Fullerene-based Amino Acids and Peptides. *Journal of Peptide Science* 2001; **7**: 208–219.

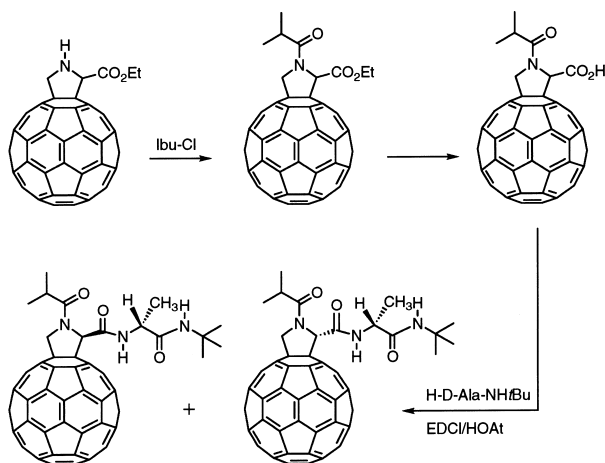

In the above paper the following schemes should have appeared with the captions as below. Apologies to Professor Toniolo, Dr Bianco, Dr Da Ros and Professor Prato for this error.

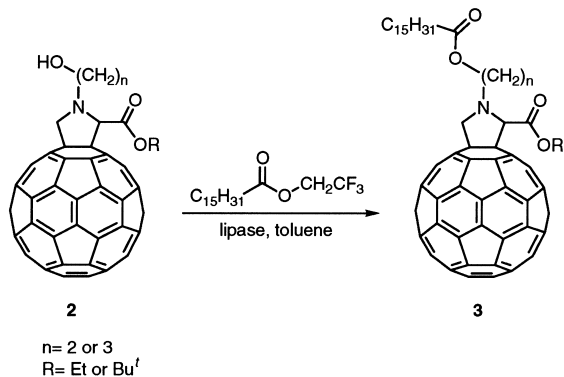

Scheme 1 Synthesis of Fpr derivatives.

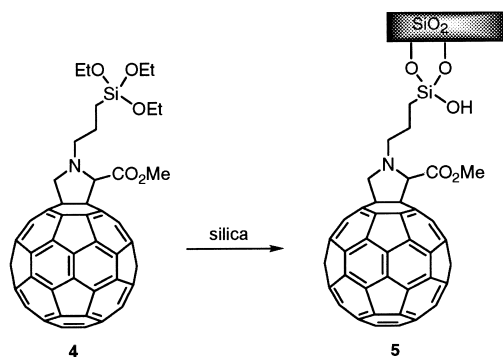

Scheme 2 *Cis-trans* equilibrium about the tertiary amide bond of Ac-Fpr-OtBu.

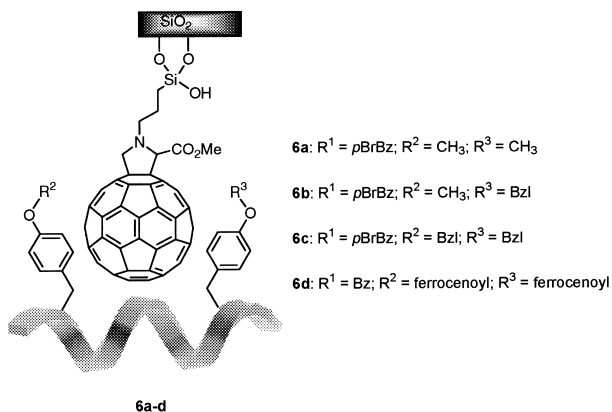

Scheme 3 Synthesis of diastereomeric (Ibu)-L,D-Fpr-D-Ala-NHtBu dipeptides.

Scheme 4 Enzymatic transesterification of Fpr derivatives.

Scheme 5 Functionalization of silica gel using a trialkoxysilane Fpr derivative.

Scheme 6 Supramolecular complex between a silica grafted Fpr and a series of Aib-rich nonapeptides.
