

Erratum

Words derived from the noun *peptide*

JOHN H. JONES

I am grateful to David Craik, coiner of the useful neologism cyclotide, for pointing out that some of the reference numbers and citations in the above Editorial (*J. Peptide Sci.* 2006; **12**: 79–81) have been garbled.

It is enough to make one dyspeptic.

On page 81, line 4; citation [3] becomes [4].

On the same page, in the list of references, renumber them so that 4 becomes 5, 5 becomes 6, 6 becomes 7, and 7 becomes 4.
