Folding in Solution of the C - Catalytic Protein Fragment of Angiotensin Converting Enzyme

Sotirios-Spyridon M. Vamvakas, Leondios Leondiadis, George Pairas, Evy Manessi-Zoupa, Georgios A. Spyroulias and Paul Cordopatis

Volume 15 (2009) Pages 504–510

DOI 10.1002/psc.1151

On page 507 a wrong SDS-PAGE figure was reported. The correct Figure 4 is shown below.

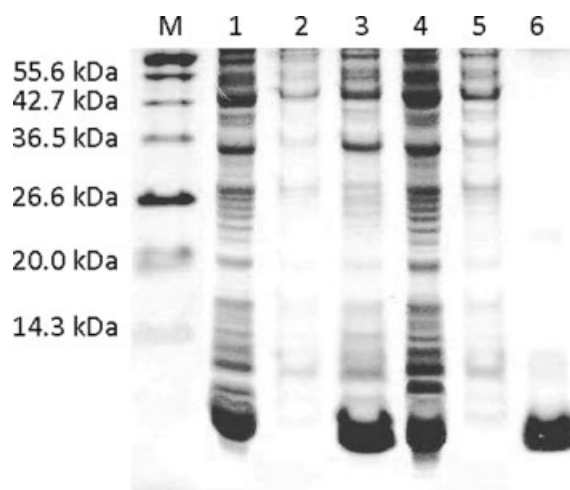

Figure 4. SDS-PAGE of the: (M) Marker, (1) induced cells, (2) supernatant of the centrifugation of the whole cell extract, (3) pellet of the centrifugation of the whole cell extract, (4) supernatant of the centrifugation of solubilized with 8 M urea inclusion bodies, (5) pellet of the centrifugation of solubilized with 8 M urea inclusion bodies, (6) purified ACE-C.
