### EXPENSIVE ADVERTISING.

The most costly advertising that you can use is advertising that misrepresents your goods. When you make a false statement in an advertisement you make it where the largest possible number of people will be examining it for flaws. The more readers there are of the ad that tells what is not true, the more there will be who will put you down as a fraud and hold you up as a fakir. Somebody said once, "It is better not to know so much than to know so much that is not so." Well, it is also better not to tell so much than to tell anything that is not true.—*The Spatula.*
