#### PHILIPPINE GOVERNMENT MEASURE.

##### *Ruling on Stocks of Patent Medicines.*

The Secretary of the Interior has approved a ruling in the regulations governing the new patent medicine act providing that goods ordered from foreign countries from June 1, 1914, shall not be entitled to the exemption heretofore declared in favor of medicines now in stock or on board ships bound for Manila before July 1. This ruling is said to be to counteract the placing of large orders by certain local houses in order to have big stocks covered by the exemption. Exempted stocks must be disposed of by 1917.

The following is a list of the members of the Council for 1914-15. Please notify the Secretary of the Council of any errors or omissions.

## COUNCIL LETTER No. 2.

Philadelphia, October 2, 1914.

To the Members of the Council:—

*Motion No. 1 (Election of Council Committees for 1914-15), and No. 2 (Election of Members; Applications Nos. 1 and 2) have each received a majority of affirmative votes.*

At the Detroit (1914) meeting, a resolution was passed that a committee be appointed to consider the question of the American Pharmaceutical Association having an exhibit at the Panama Pacific Exposition in 1915; and Albert Schneider, Chairman, F. J. Wulling and E. Fullerton Cook were named as the committee.

The following letter has been received:—

Philadelphia, September 23, 1914.

Mr. Joseph W. England, Philadelphia, Pa.:—

Dear Mr. England:—Your letter of the 19th was received, and I am compelled to ask that some other name be placed on the Committee for the exhibit at the Panama Exposition. I will not be able to be at San Francisco and will not have the time during the coming year to satisfactorily do my part on this Committee. Please submit to the Council this letter and ask that I be relieved from the appointment. Yours very truly,

E. FULLERTON COOK.

Albert Schneider, Chairman of Committee on proposed A. Ph. A. Exhibit at the Panama-Pacific Exposition, writes to the Secretary of the Council that he has secured tentative space reservation for the proposed A. Ph. A. Exhibit to be held until October 15, "by which time we must decide whether or not we want it." He writes as follows:—

To the Members of the Council.—

Gentlemen:—The following is submitted:—Preliminary Suggestions on a Working Exhibit for the American Pharmaceutical Association to be Placed in the Liberal Arts Building of the Panama-Pacific International Exposition at San Francisco, California, 1915.

After giving the matter a brief but careful consideration I feel satisfied that the most interesting exhibit and the one which would attract the most attention and do the most good is a working exhibit illustrating the methods for testing and standardizing the drugs of the U. S. P. I have secured tentative space reservation in the Liberal Arts Building, 30 by 21 feet floor space. This space will be held for the A. Ph. A. until October 15th. In my opinion this space is entirely adequate for a working exhibit, and also a still exhibit for which the wall space would serve very nicely. I take the liberty of submitting the following suggestions on a combined still and working exhibit.

## STILL EXHIBIT.

1. Samples of U. S. P. drugs and preparations.
2. Striking examples of drug adulteration.
3. Complete set of U. S. Pharmacopœias, etc., etc.

## WORKING EXHIBIT.

1. Equipment for making chemical tests and assays of U. S. P. drugs and preparations.
2. Equipment for making microscopical analyses of drugs and pharmaceutical preparations.
3. Equipment for bacteriological work. Sterilization, etc.
4. Equipment for making physiological assays of drugs and pharmaceutical preparations.

I am of opinion that the apparatus can be secured at comparatively small cost, perhaps as loans from the equipments of Colleges of Pharmacy and from manufacturing houses that hold membership in the A. Ph. A. The cost of installing will be comparatively slight. The big item of expense will be the cost of operation during the time that the Exposition is open, from February 14, 1915, to December, 1915. I believe that the entire cost of installation and operation will not exceed five thousand (\$5,000.00) dollars for the time of the Exposition year. I have no doubt that much of this sum could be secured through private subscription, should the A. Ph. A. not be able to subscribe the entire amount.

A copy of this preliminary report is submitted to my associates on the committee, Dr. F. J. Wulling of the University of Minnesota, and Prof. E. Fullerton Cook of Philadelphia. In the meantime I am waiting to hear from my associates. In order that no time may be lost I would suggest that this report be submitted to the Council for consideration. Very truly yours,

ALBERT SCHNEIDER,

Chairman of A. Ph. A. Exposition Exhibit Committee.

It will be recalled, also, that at the Detroit (1914) meeting the Committee on President's Address reported concerning the suggestion that the Committee on Publication be given enlarged powers, etc., as follows:—

12. "The Committee on Publication, in view of the Publication of the Journal and other duties, require some addition to their clerical force and the recommendation of the President is approved that the appropriation of the Committee be paid in quarterly sums in advance. It is further recommended that the Council takes steps to give the Committee on Publication more extended power."

At the General Session held on Saturday, August 29th, this recommendation was referred to the Council.

In this connection, the following letter has been received by the Chairman of the Com-

mittee on Publication from Ex-President Beringer and is referred to the Council for action:—

Camden, N. J., September 25, 1914.

Mr. Joseph W. England, Chairman of Committee on Publication, Philadelphia, Pa.:—

My Dear Mr. England:—I realize that as Chairman of the Committee on Publication, you are desirous of fully understanding the recommendations relating to the Committee on Publication and its increased powers contained in the President's address, and your wish to comply with same and have these changes put in operation as soon as they meet with the approval of the Council and the Committee on Finance have acted thereon.

My sole purpose is to have the work of the Committee on Publication carried on in the most efficient, business-like way. The Editor and the Chairman of the Committee should be in close touch and frequent communication so that the work of the office can be promptly expedited, and, at the same time, no question as to the authority of the Editor, such as the selecting and paying clerical assistance, etc., could arise. I know that during the past year, the Acting Secretary and Editor and likewise prior the Editor had advanced the pay for the office force and had carried these accounts for six or eight weeks or even more before being reimbursed. The same thing has occurred regarding other expenses, such as postage and expressage.

With the increased business of this Committee through its publication of the National Formulary and other activities, which we hope will be successful, the work of the Committee is going to materially increase and its financial management should be simplified. We certainly should not expect the Secretary or any other member of the Association to carry the finances and responsibilities of the Committee. My recommendation was that the Committee should be given broader powers, namely, the right to organize a proper clerical and editorial staff so as to efficiently conduct the business of the Committee. That to avoid the delay incident to our present method of paying bills of the Association, that the Committee's appropriation be paid to them quarterly and that they elect a treasurer who should honor drafts made by the Editor and counter-signed by the Chairman and keep correct accounts of all receipts and expenditures on behalf of the Committee subject to the approval of the Council and the Auditing Committee thereof. My understanding of the action of the meeting on Saturday was the approval of the recommendation in the president's address, which had likewise received the approval of the Committee on President's Address, and that the reference to the Council was to have same put into force by the body charged with the business of the Association.

If an additional motion is considered necessary for the Council to carry out the intent of the recommendation approved by the meeting, then I will move that the Council author-

ize the Committee on Publication to effect a re-organization and to systematize its work, as recommended.

Yours very truly,

GEORGE M. BERINGER.

The motion is seconded by Dr. F. E. Stewart.

*Motion No. 3 (Authorization of Committee on Publication to Effect a Reorganization and to Systematize its Work).* Do you approve of the motion as above presented?

*Motion No. 4 (Election of Members).* You are requested to vote on the following applications for membership:—

### Proceedings of the Local Branches

"All papers presented to the Association and its branches shall become the property of the Association, with the understanding that they are not to be published in any other publication than those of the Association, except by consent of the Committee on Publication."—By-Laws, Chapter X, Art. III.

Reports of the meetings of the Local Branches should be mailed to the Acting Editor on the day following the meeting, if possible. Minutes should be *plainly* written, or typewritten, with wide spaces between the lines. Care should be taken to give proper names correctly, and manuscript should be signed by the reporter.

#### COLUMBUS.

The September meeting of this Branch was held on Friday evening, September 25, at the Y. M. C. A. Building, with Pres. Geo. B. Topping in the chair. The records of the last meeting were read by Secretary Spease and were approved.

The Committee on Constitution and By-Laws submitted a report, and on motion the report was accepted and the Constitution and By-Laws adopted for the government of the
