IMPORTS OF POTASH SALTS IN FEBRUARY.

Public interest in the statistics regarding imported potash salts is keen, both by reason of their wide application in the manufacturing and other industries and the fact that the United States is still dependent upon foreign countries for practically the entire supply thereof. The following table shows the imports of potash salts during the month of February, 1915, compared with February of last year. The figures are so grouped as to show those potash salts used chiefly as fertilizers, which are entered by the long ton, and those which are used in the arts and chemical industries, of which the unit of quantity is the pound.

Articles Exported	February, 1914		February, 1915	
	Quantities	Values	Quantities	Values
Fertilizer salts:—				
Kanit tons	72,008	\$321,723	1,852	\$18,445
Manure salts.....do	12,451	124,422	900	14,748
Sulphate of potash.....do	5,098	210,327	1,378	59,804
Muriate of potash.....do	13,172	431,320	22,818	836,368
Other potash salts:—				
Carbonate of potash.....pounds	1,674,685	49,110	1,317,849	46,015
Caustic potash.....do	520,166	19,607	308,805	17,508
Nitrate of potash.....do	22,699	928
Cyanide of potash.....do	5,641	890	266,654	39,327
Other potash salts.....do	638,112	52,119	456,011	42,429
