

## CHANGES OF ADDRESS

All changes of address of members should be sent to the General Secretary promptly.

The Association will not be responsible for non-delivery of the Annual Volume or Year Book, or of the JOURNAL unless notice of change of address is received before shipment or mailing.

Both the old and the new address should be given thus:

HENRY MILTON,  
From 2342 Albion Place, St. Louis, Mo.  
To 278 Dartmouth St., Boston, Mass.

Titles or degrees to be used in publications or in the official records should be given, and names should be *plainly* written, or typewritten.

## BOOK NOTICES

*The Pharmacopœia of the United States of America. Ninth Decennial Revision.* By authority of the United States Pharmacopœial Convention held at Washington, D. C., May 10, 1916. Prepared by the Committee of Revision and published by the Board of Trustees. Official from September 1, 1916. 8vo., 728 pages, Philadelphia, Agents, P. Blakiston's Son & Co.

Elsewhere a review and editorial mention will be found of the United States Pharmacopœia, Ninth Revision, so it is not necessary

here to go into a review of this authority. Aside from the improvements which have been made in the text and the new chapters which have been added, the excellent mechanical work is deserving of commendation. The printing was done by J. B. Lippincott Company, of Philadelphia.

Copies of the Pharmacopœia will be obtainable by the time this JOURNAL reaches the readers.

The prices fixed for the Pharmacopœia are: Bound in cloth, \$3; buckram, \$3.25; sheep,

\$3.50, and flexible leather, interleaved, \$4.50. Pharmacists will likely make their purchase through wholesale druggists.

*The National Formulary. Fourth Edition.* By authority of the American Pharmaceutical Association. Prepared by the Committee on National Formulary of the A. Ph. A. Official from September 1, 1916. 8vo., 394 pages. Published by the American Pharmaceutical Association.

The remarks made relative to extended reference in these columns of the U.S.P. IX applies also to the National Formulary, Fourth Edition.

The improvements made in this revision are so decided that they will attract the favorable attention of all who make use of this valuable Formulary, which now is far more than that, as it lays down standards and provides the pharmacist with tests and much useful information.

The mechanical part of the work has been done with great care, the typography is particularly clear and readable. J. B. Lippincott Company are the printers and binders; the Midland Publishing Company, Columbus, Ohio, has been appointed general sales agent with the following sub-agents: The Baker-Taylor Company, New York City; The

Chicago Medical Book Company, Chicago; L. S. Mathews Company, St. Louis, Mo.; The Pacific Drug Review, San Francisco and Portland. Wholesale druggists will supply the book.

The prices of the National Formulary in the various bindings are as follows: Muslin, plain, \$2.50; Buckram, plain, \$2.75; Buckram, interleaved, \$4.00. They are now on sale.

*Poisons and Habit-Forming Drugs.* A digest of laws and regulations relating to the possession, use, sale, and manufacture of poisons and habit-forming drugs, enacted during 1914 and 1915, now in force in the United States. By Martin I. Wilbert, Technical Assistant, Hygienic Laboratory, United States Public Health Service.

The number of this reprint is 330, and may be obtained from the Government Printing Office for 20 cents. This publication is a valuable and convenient reference book of all narcotic and poison laws and therefore of particular interest to all branches of the drug trade.

Besides the laws and regulations there is much instructive commentary matter, and a very complete index to subjects is included.

### AMERICAN TRAINING FOR FRENCH COMMERCIAL STUDENTS.\*

It is generally recognized in both France and the United States that one of the greatest needs, in the development of foreign trade, is that of providing commercial education which not only shall be sound pedagogically, but in which emphasis shall be placed upon practical usefulness. With a view to discussing, in a preliminary way, the possibility of devising a practicable scheme for the interchange of students of commerce between France and the United States, I last week called a meeting of persons (both Frenchmen and Americans) interested in the subject of commercial education. Among those present were the Paris representatives of some of the largest exporting and importing firms of the United States and the representatives of several French organizations of manufacturers and merchants and of the University of Paris and other educational institutions.

It was suggested at the conference that, while the two countries now exchange professors, possibly greater benefits would accrue from an exchange of students who intend to make foreign trade their career. A committee representing both countries was appointed to draw up a tentative plan; and this committee desires most earnestly to be placed in touch with American manufacturers or dealers actively interested in this question, and especially with trade organizations likely to give serious attention to the general subject of training young men along practical lines in connection with the promotion of foreign trade. For the present the chairman of the committee is the Commercial Attaché of the United States (address: 36 Avenue de l'Opera) at Paris.

\* Commercial Attaché C. W. A. Veditz, Paris, France, July 14, in *Commerce Reports*.
