

CHANGES OF ADDRESS.

All changes of address of members should be sent to the General Secretary promptly.

The Association will not be responsible for non-delivery of the Annual Volume or Year Book, or of the JOURNAL unless notice of the change of address is received before shipment or mailing.

Both the old and the new address should be given thus:

HENRY MILTON,
From 2342 Albion Place, St. Louis, Mo.
To 278 Dartmouth St., Boston, Mass.

Titles or degrees to be used in publications or in the official records should be given, and names should be *plainly* written, or typewritten.

CHANGE OF ADDRESSES SINCE MARCH 18, 1917.

ALLARD, H. J.,
From 354 W. 18th St., New York, N. Y.
To Technology Chambers, Boston, Mass.

BINZ, E. G.,
From 811 W. 32nd St., Los Angeles, Cal.
To 732 Ceres Ave., Los Angeles, Cal.

PRIOR, T.,
From 282 San Jose Ave., San Francisco, Cal.
To 19th & Valencia St., San Francisco, Cal.

CHARLES, C. D.,
From 120 Logan St., Denver, Colo.
To 1701 Lawrence St., Denver, Colo.

DUNPHY, R. M.,
From U. S. S. Castine, N. Y., N. Y.
To U. S. S. Castine, Vera Cruz, Mexico.

PARIS, J. E.,
From 108 Pruett St., Paragould, Ark.
To 112 N. Pruett St., Paragould, Ark.

SECORD, GEO. L.,
From Central States Coll. of Pharm.,
Loyala Ave. & Sheridan St., Chicago, Ill.
To 74 E. 12th St., Chicago, Ill.

MORRIS, MAX,
From 656 Cherry St., Macon, Ga.
To 406 3rd St., Macon, Ga.

WOYENAKA, K.,
From 564 W. 173d St., N. Y., N. Y.
To 210 Harajuku, Sendagaya-Cho, Tokio,
Japan.

TYLER, EARL E.,

Joseph F. Myer, from Reno Remount Depot to Ft. Leavenworth.

John R. Gittings, from "Transport Dix" to Letterman General Hospital.

BOOK NOTICES AND REVIEWS.

The Principles of Pharmacy. By Henry V. Army, Ph.G., Ph.D., Professor of Chemistry in the College of Pharmacy, Columbia University; Member of the Committee of Revision of the U. S. Pharmacopoeia. Second Edition, Revised and Entirely Reset. Octavo of 1056 pages with 267 illustrations, Philadelphia and London: W. B. Saunders Company, 1917. Cloth, \$5.50 net. W. B. Saunders Company, Philadelphia, London.

The individuality of Professor Army has surely found expression in his latest contribution to the pharmaceutical world under the title of "Principles of Pharmacy." That pharmacy has profited much by its advent will be most gladly granted by those fortunate enough to have access to it. Professor Army's knowledge of theoretical and practical pharmacy has been and is to-day conceded by all in position to judge, and this same knowledge is passed on to others in most acceptable form in his book.

The text is necessarily divided in a general way into two sections, the first being devoted to the treatment of theoretical pharmacy and the second to a commentary on the U. S. P. and the N. F. To each subject under treat-

ment he gives his own individual touch in such a way as to serve to the reader, whether or not a student, as a stimulus toward further research. The means to this extended study is definitely pointed out by the bibliography that is so prominent a feature throughout the work. The art displayed in tersely placing the subject before the reader and deftly touching it with a few color spots shows a power that few pharmaceutical writers possess.

Another noticeable feature is its broadness and adaptability for use by pharmacists in all sections of the country. Furthermore there are shown possibilities of constructive work in doing for oneself what it has become a common habit to delegate to some outside source. An illustration in point is the treatment of one substance by another to form the salt of the substance. This is especially valuable, inasmuch as the working formulae are fast disappearing from our pharmacopoeias. Unless the reader has fortunately acquired a college education he may have very hazy ideas as to what method to adopt to produce what is in many cases a very simple substance.

The typographical arrangement of the book
