reported that the Carnegie Foundation has promised to give early attention to the question of the investigation and classification of pharmacy schools, in a manner

similar to the investigation made of medical schools a few years ago.

The report of the Executive Committee also dealt with the question of military instruction for students in colleges of pharmacy and this subject was discussed at length. It appears possible that students will be allowed to enlist in a reserve army for military instruction, and it is to be the policy of the Government that they be not called for service, except in great emergency, until their college courses are completed, provided that their college work is of satisfactory quality.

The report of the Pharmaceutical Syllabus Committee was presented by W. C. Anderson of New York. This committee reported that the preparation of the third edition of the Syllabus is well under way, and the Conference voted to continue its annual contribution of twenty-five dollars towards the expenses of this

Committee.

Memoirs of the services to pharmaceutical education of men who have passed away during the past year were presented as follows: J. P. Remington, by W. B. Day; Charles Caspari, Jr., by E. F. Kelly; A. B. Huested, by William Mansfield; and J. H. Long, by M. A. Miner.

Reports were received from the nine standing committees and from one special committee, including matter of much value, which will appear in the

annual volume of the proceedings of the Conference.

The Conference voted to instruct its Secretary to communicate to the Surgeon General of the United States Army its belief in the erroneousness of a statement widely published and attributed to an officer in the Surgeon General's office, that there are but eight reputable and worthy schools of pharmacy in the United States.

The officers of the Conference elected and installed for the ensuing year are: President, Charles B. Jordan, Purdue University School of Pharmacy, LaFayette, Indiana; Vice-President, William Mansfield, Albany College of Pharmacy, Albany, New York; Secretary-Treasurer, Theodore J. Bradley, Massachusetts College of Pharmacy, Boston; Chairman of the Executive Committee, Julius A. Koch, Pittsburgh College of Pharmacy, Pittsburgh, Pa.

MAILING AMERICAN PHARMACEUTICAL ASSOCIATION JOURNALS TO MEN IN THE ARMY AND NAVY.

In reply to your letter of the 20th ultimo, with regard to the The Journal of the American Pharmaceutical Association, I have to say that the arrangement under which unwrapped and unaddressed magazines intended for soldiers and sailors may be mailed by the public at the postage of one cent each is applicable only to such publications as constitute magazines within the ordinary meaning of that term, that is, magazines devoted to literature or containing articles of general interest, and not to newspapers or other publications devoted in the main to matter of purely local or restricted interest.

In this connection, I have to say, however, that the readers of The Journal of the American Pharmaceutical Association, desiring to send copies thereof to soldiers and sailors stationed in the cantonments or with the American Expeditionary Forces abroad, may mail them at the transient second-class rate—one cent for each four ounces or fraction thereof—provided they are properly wrapped and addressed,—the name of the particular individual, together with the designation of the unit or organization to which he belongs, and the words "American Expeditionary Forces" being placed upon wrapper of each copy or package.

Respectfully,

THIRD ASSISTANT POSTMASTER GENERAL.
