

BIBLIOGRAPHY OF PHARMACEUTICAL RESEARCH

Compiled by A. G. DuMez, Reporter on the Progress of Pharmacy.

All articles recorded in these lists will be presented in abstract form in the bound volumes of the YEAR BOOK, which is issued annually. Those desiring abstracts immediately can obtain them for a fee of one dollar each by communicating with A. G. DuMez, Hygienic Laboratory, U. S. P. H. S., 25th & E Sts., N. W., Washington, D. C.

APPARATUS AND MANIPULATIONS.

Bollis, M.

Bleaching with bicarbonates

L'Avenir Textile (June 1923); through *Pharm. J.*, 111 (1923), 635

Dolid, Jacob

Simple device for sodium flame

Ind. & Eng. Chem., 16 (1924), 53

Dott, D. B.

Note on the determination of solubility

Pharm. J., 111 (1923), 661

Ford, Chester L.

Apparatus for supplying a continuous stream of hot distilled water

Ind. & Eng. Chem., 16 (1924), 40

Guthbier, A., and Sauer, E.

Filtration of viscous liquids

Ztschr. anorg. Chem., 128 (1923), 15; through *J. Soc. Chem. Ind.*, 42 (1923), 1250A

Stott, V.

Notes on burettes

J. Soc. Glass Tech., 7 (1923), 169; through *J. Soc. Chem. Ind.*, 42 (1923), 1203A

Tottenham, W. E., Schulz, E. R., and Lepkovsky, S.

Extraction of nitrogen constituents from plant cells

J. Am. Chem. Soc., 46 (1923), 203

PHARMACOPÉIAS AND FORMULARIES.

Anon.

Notes on the British Pharmacopœia

Chem. & Drug., 100 (1923), 25

Leger, E.

Remarks relative to the revision of the French Pharmacopœia

Bull. Sci. Pharmacol., 30 (1923), 669

Netherlands Pharmacopœia Commission

Report of some changes adopted for the Netherlands Pharmacopœia

Pharm. Weekbl., 61 (1924), 3

PHARMACEUTICAL PREPARATIONS.

Bonis

Identification of orange flower water

Ann. falsif., 16 (1923), 260; through *Chem. & Drug.*, 99 (1923), 900

138

Chittick, Martin B.

Precipitate of sodium citrate in Elixir of Iron, Quinine and Strychnine, N. F. IV

Pharm. Era, 57 (Dec. 29, 1923), 635

Fuller, Henry C.

Solvent and preservative properties of isopropanol

J. AM. PHARM. ASSOC., 12 (1923), 1081

Lein, Rose

Fluidextracts

Pract. Drug., 42 (Jan. 15, 1924), 26

Lundin, P. E.

Preparation of Pregl's iodine solution

Svensk Farm., 27 (1923), 536

Wöhlik, Alfred

Volumetric determination of aluminum in aluminum salts and solution of aluminum acetate

Ber. deutsch. pharm. Ges., 33 (1923), 195

Xrayser II

Emplastrum Oxycroceum

Chem. & Drug., 99 (1923), 863

PHARMACOLOGY AND THERAPEUTICS.

Anon.

Standardization of parathyroid preparations

Brit. M. J., 2 (1923), 559; through *Chem. & Drug.*, 99 (1923), 896

Adler, S.

Carbon tetrachloride in filariasis

Ann. Trop. Med. & Parasit. (Oct. 13, 1923); through *Chem. & Drug.*, 99 (1923), 901

Buschmann

Treatment of angina Plaut-Vincenti with trypafavin

Deutsch. med. Wochenschr., No. 19 (1923); through *Pharm. Zentralh.*, 64 (1923), 507

Cojal, M., and Spicer, H.

Value of bismuth therapy in hereditary syphilis

Presse méd., No. 31 (1923), 354; through *Bull. sci. pharmacol.*, 30 (1923), 638

Corbitt, H. B., and Myers, C. N.

Recent investigations of antiluetic drugs

J. AM. PHARM. ASSOC., 12 (1923), 1068

Dietel

Bismuth in syphilis therapy

Münch. med. Wochenschr., No. 40 (1923); through *Pharm. Zentralh.*, 64 (1923), 508

- Gottlieb, R.
Action of cocaine
Arch. exper. Path. u. Pharmacol., 92 (1923), 113; through *Chem. & Drug.*, 99 (1923), 903

SHOULD COURSES IN BUSINESS ADMINISTRATION BE INCLUDED IN
THE CURRICULA OF PHARMACY COLLEGES, AND IF SO,
TO WHAT EXTENT?

A SYMPOSIUM.*

BY EDWARD SPEASE.¹

This is a subject involving a question, and a question that cannot be given a direct answer. It is a question that time and experiment alone can answer. Still many views and opinions may be given expression and thus aid in solving this problem.

First of all, pharmacy, like medicine itself, has undergone many radical changes during the past decade and will undergo many more in the immediate future.

We are meeting with new ideas, some born of clinical experience and some based upon conjecture and, perhaps, a few founded either upon ignorance or cupidity. These ideas have to do with the use of new drugs and new methods, the use or disuse of old drugs and appliances, and even with the partial use or entire disuse of drugs and appliances.

A business or profession such as pharmacy is greatly affected by all these ideas and must be extremely alert to keep abreast of the times. It never seems valuable to meet changing conditions with carping criticism, but better to attempt to meet conditions as presented and improve upon them if possible.

We seem now to have established a foundation for our educational program; that is, graduation from high school and a certain brief fundamental course in pharmacy. If this foundation is a good one we can build upon it. Let us meet modern conditions and assume that it is.

It would seem that if a school is to meet modern needs, it should require the two fundamentals above mentioned of all students, and then offer a choice of work toward the higher degrees. For the student of scientific turn of mind, let the way be open to proceed as far as he may desire; and let the same field be open to him of the mercantile or merchandising ability.

For this latter student, give him the same opportunities offered to students who expect to enter other mercantile fields. Let him enter the same courses of preparation that the son of any other business man wishes to enter.
