## AD INTERIM BUSINESS OF THE BOARD OF DIRECTORS.

Office of the Secretary, 192 Roseville Ave., Newark, N. J.

LETTER NO. 18.

June 17, 1924.

To the Members of the Board of Directors:

97. *Division of Headquarters Fund for Building and Endowment:* Chairman Beal rules that the vote on Motion No. 24 (see item 82, page 484, Letter No. 16, and item 89, page 569, Letter No. 17) is in the negative and the motion is lost, since it did not receive a majority vote of the Board. This means that the Board has taken no step to divide the headquarters fund for building and endowment purposes.

98. *Additional Appropriation for Headquarters Committee:* Motion No. 26 (see item 92, page 570, Letter No. 17) has been carried.

99. *Approval of Appointment:* Motion No. 27 (see item 94, page 571, Letter No. 17) has been carried. This approves the appointment of H. C. Fuller as delegate to the Fourth Congress of Industrial Chemistry at Bordeaux, France.

100. *National Formulary Committee in Research Conference:* Motion No. 28 (see item 95, page 571, Letter No. 17) has been carried. This gives approval of the membership of the N. F. Revision Committee in the National Conference on Pharmaceutical Research and provides for payment of annual membership fee of \$20.

101. *Election of Members:* Motion No. 29 electing applicants numbered 372 to 405, inclusive, has been carried. The Secretary of the Board of Directors has notified the applicants of their election.

102. *Approval of Meeting Program:* No necessary suggestions, changes or additions to the tentative program for the seventy-second meeting of the A. Ph. A. as outlined in item 85, pages 485-486, Letter No. 16, have been received. It is therefore in order to adopt the tentative program as submitted.

(*Motion No. 30.*) It is moved by Fischelis that the tentative program for the Buffalo meeting published in Letter No. 16 be adopted as the official program.

103. *Appropriation for Drug Trade Bureau of Public Information:* Dean LaWall, Chairman of the Finance Committee sends the following communication:

"Please enter a motion as coming from me for the appropriation of \$200 for 1923 dues in the Drug Trade Bureau of Public Information. The amount was not called for in that year and the appropriation lapsed. The bill is now before us for payment of dues both for 1923 and 1924 and the only appropriation available is for dues for 1924. Hence the necessity for the motion.

Very truly yours,

CHARLES H. LAWALL."

(*Motion No. 31.*) It is moved by LaWall that \$200 be appropriated for annual dues of A. Ph. A. to Drug Trade Bureau of Public Information for 1923.

104. *Bank for Headquarters Fund:* The following communication has been received from Treasurer E. F. Kelly:

"The National Exchange Bank of Baltimore and the Dime Savings Bank of Boston are now approved depositories for the funds of the A. Ph. A. Hynson, Westcott & Dunning have asked that the Drovers & Mechanics National Bank of Baltimore be also approved in order that collections from the Headquarters Building Fund may be deposited in this bank. This happens to be the bank of deposit of the firm, and it would, of course, be much more convenient for them to use it as a depository for the Headquarters Building Fund. This bank has agreed to allow 4% interest on this fund as a savings account, and I shall be glad if you will place before the Board of Directors a motion to approve the Drovers & Mechanics National Bank for the purpose mentioned.

Very truly yours,

E. F. KELLY, Treasurer."

(*Motion No. 32.*) It is moved by Kelly that the Drovers & Mechanics National Bank be approved by the Board of Directors as a depository for the Headquarters Building Fund.

105. *Applicants for Membership:* No. 406, Reginald E. Spicer, 920 E. Broadway, Glendale, Calif.; No. 407, Daniel Haywood Smith, 445-4th St., N. E., Washington, D. C.; No. 408, Benjamin Nathan Goldstein, 2135 Wylie Ave., Pittsburgh, Pa.; No. 409, John Hodgson, 535

Should more attention be given to the teaching of commercial subjects in colleges of pharmacy? If so, why? If not, why not?

Is pharmacy, as it is practiced in your community, principally professional or commercial? Is there a trend away from, or toward, more professional practices?

Do you believe that a retail pharmacist is ever justified in recommending a remedy for a simple ailment? If not, why not? If so, in what instances?

Do you think a pharmacist should give first aid without compensation? Why, or why not?

Which do you consider the best and most effective sales stimulator, cut prices or service? Explain.

What, in your opinion, constitutes ideal service in the retail drug store?

What type of *recent graduate* do you find makes the best clerk, the one with long, practical drug store experience and little technical knowledge or the one who has had much technical training and little practical experience?

Are you in favor of discontinuing the practical experience requirement in our state pharmacy laws? If so, why? If not, why not?

Are you supplying physicians in your neighborhood with all the biological products used in their office practice? If not, are you equipped to do so? Who is supplying them if you are not?

Do you believe that drug stores should be classified? If so, how?

#### SECTION ON HISTORICAL PHARMACY.

The program of the Section on Historical Pharmacy will be devoted principally to a reading and discussion of finished chapters in the History of American Pharmacy which, for two years, has been in process of preparation by the Section. Preliminary drafts will be submitted by authors who have not

completed their chapters and the whole work will be discussed with the view to correlating the efforts of the several authors. The chapter titles and the names of their authors follow:

Introductory Chapter, Clyde L. Eddy.

Pharmaceutical Education, Wortley F. Rudd.

Pharmacy Laws in America, H. C. Christensen.

Pharmaceutical Associations, J. G. Beard.  
The Practice of Pharmacy in Retail Stores, Robert S. Lehman.

Commercial Pharmacy, Harry S. Noel.

Federal Laws Affecting Pharmacy, Jacob Diner.

The United States Pharmacopœia, E. Fullerton Cook.

The National Formulary, Wilbur L. Scoville.  
Biographical Sketches, Caswell A. Mayo.

Manufacturing Pharmacy, A. R. L. Dohme.

Wholesale Distribution, C. H. Waterbury.

Pharmaceutical Journalism, Francis B. Hays.

Pharmacists in Government Service, Walter M. Chase.

All members of the Association are invited to take part in the discussion of any and all chapters and to make suggestions concerning the work.

Reports on other sections will be given in August number of the JOURNAL and all of the above including those not printed in this issue will be completed and printed in the official program.

## COMMITTEE REPORTS

### THE PHARMACOPŒIA OF THE UNITED STATES OF AMERICA. NINTH DECENNIAL REVISION.

#### CHINESE EDITION.\*

It will interest many to know that the Pharmacopœia of the United States, Ninth (Chinese edition), has been available both in China and in the United States for approximately nine months. The book is bound in light blue cloth, with the page approximately 7 $\frac{1}{2}$  x 5 inches, but reading from what would seem to the American reader to be the back of the book. It is well bound and on paper of fair quality.

A few words with reference to the publication of the book may be of interest:

Mr. Carl Crow, the publisher of the *Chinese Chemist and Druggist* and other journals, at 34 Nanking Road, Shanghai, China, conceived the idea, immediately following the war, that the publication of the United States Pharmacopœia in the Chinese language would be of real service to the physicians, druggists and the hospital attendants in China, who were frequently called upon to dispense or prescribe medicines of the Western World. In recent years, many American pharmaceutical products had appeared upon the Chinese market. Mr. Crow secured the assistance of Chinese scholars from the university, and was able to complete the translation in the course of several years. The Board of Trustees of the Pharmacopœia granted him permission to
