NORWAY BARS PERFUME CONTAINING ALCOHOL.

Perfumery containing alcohol will not be admitted in the parcel-post mails to Norway, the Post Office Department has just announced. Norway has a national prohibition law. The full text of the Department's announcement follows:

The following changes should be made in the lists of prohibited articles in the mails to Norway:

Regular mails: Delete the first sentence reading: "Hair wash containing alcohol; perfumes, essences of, containing alcohol."

Add the following: "Hair washes containing alcohol, unless it is plain, from the outside of the article, from its invoice or in some other way, that the article is denatured in compliance with the domestic regulations in force."

Parcel-post mails: Add the following: "Perfumery containing alcohol."
