- 10.30 A. M. General Session.

Do you approve of tentative program above submitted? This will be regarded as Motion No. 18. (*Approval of Tentative Program for 62d Annual Meeting.*)

In support of the program, as above outlined, Local Secretary Leonard A. Seltzer submits the following remarks:

"Enclosed herewith you will find tentative program which the local committee desires to submit to the Council for its approval. Later on we expect to make a few minor additions, such as entertainment for ladies, etc., but this will have no bearing on the program as presented.

The Michigan State Association has decided to hold its meeting in Detroit at the same time the meeting of the A. Ph. A. takes place. The local committee has encouraged this idea, believing that it will bring many men from the state to attend the meeting, who will thus become acquainted with our organization and its work, and we hope join with us. To help in accomplishing this purpose, the committee has therefore provided for two joint sessions with the Sections of our Association, and also a joint reception of the presidents of the two organizations. We sincerely hope that we have not taken unwarranted liberty in

this matter, and that our action will meet with your approval.

The program as presented has several features which are radical departures from former programs, and we desire to call your attention to them and give the reasons for recommending them.

First. We recommend that the Council, after the first day, hold its sessions in the evening.

Second. We have provided for two sessions for each Section except the Historical, and when simultaneous sessions are held, they have been selected with reference to their subjects so as to be least in conflict with each other.

Third. As a result of this arrangement, the evenings are all left open for Council meetings, adjourned sessions or pleasure.

The custom most strongly entrenched, and to change which requires good reasons for so doing, is the morning Council meetings. It is very evident that each year we have become more and more crowded for time, and this is not all due to the amount of business done, but almost entirely to the uneconomical use of time. One of the greatest obstacles to the economical use of our time is the meeting of the Council in the morning. The fact is, that even if its sessions were called on time, (which will never be) the Council could not possibly finish its business until well along in the forenoon. The fact, moreover, that the Council includes in its membership all the chairmen of the Sections, as well as the more active members of the Association, renders it impracticable to expect any session to be called until after it has adjourned. If the Council do not meet in the morning, the sections can be called earlier, and by means of an increased length of the morning sessions they will be able to complete their business in the two sessions allotted them.

We sincerely hope that the Council will see fit to give this proposal a trial for one year at least, and see whether it will not obviate difficulties under which we labor at present and which must find some solution in the near future."

General Secretary Beal, and Chairman Snow of the House of Delegates both approve of the change of the hour for Council meetings from the morning to the evening, except on the first day of the Convention, and of holding the first session of the House

of Delegates at the time hitherto devoted to the first General Session, the latter being dropped to the hour of 7.30 p. m.

This change would be made with the expectation that the greetings from other associations which send delegates will be delivered to the House of Delegates instead of, as heretofore, to the General Session, thus leaving much more time for the really necessary business that must come before the latter.

Secretary of the Council.

COUNCIL LETTER No. 9.

PHILADELPHIA, PA., Dec. 31, 1913.

To the Members of the Council:

Motions No. 14 (Appropriation of \$25 for National Drug Trade Conference), No. 15 (Election of Members; applications Nos. 18 to 24, inclusive), No. 16 (Approval of Budget of Appropriations for 1914), and No. 17 (Appropriation of \$250 for Badges and Pin Buttons), have each received a majority of affirmative votes.

With reference to *Motion No. 18 (Approval of Tentative Program for the 62d Annual Meeting)*, Caswell A. Mayo votes affirmatively on the motion and writes, "I move that the 'Tentative Program for the 62d Annual Meeting' be published and criticism and comments be invited before final adoption." The motion is seconded by J. W. England. It will be regarded as *Motion No. 19 (Publication of Tentative Program for the 62d Annual Meeting)*.

Comments and criticisms on the Program should be sent to the Secretary of the Council, J. W. England, 415 N. 33d St., Philadelphia, Pa., and will be referred by him to the committee having the matter in charge—the General Secretary, Secretary of the Council and the Local Secretary.

Regarding the subject of Badges, L. E. Sayre writes as follows: "I would like to suggest that in the future all local badges should be abandoned except for the purpose of identifying the name of the individual who attends the meeting. Some arrangement should be made by which the individual name can be inserted in the local badge to promote acquaintanceship and the social features of our meetings. We come together partly to get acquainted with new men and to renew acquaintance of the old members. The

new Association badge should be considered as of the greatest importance and should be worn on occasions of our annual meeting."

The following communication has been received from Henry B. Floyd, Secretary of the Washington Branch of the American Pharmaceutical Association:

"To the President, and Members, the Council, American Pharmaceutical Association:

The following is a copy of a resolution made, and carried, at the meeting of the City of Washington Branch, American Pharmaceutical Association, held December 17, at Washington, D. C. I am directed to bring such resolutions to your attention by the vote of said Branch.

WHEREAS, It has been proposed to provide a permanent home and headquarters for the American Pharmaceutical Association, and

WHEREAS, Efforts have been made, and are now being made to secure the location of this permanent home or headquarters in several widely separated cities, and

WHEREAS, The American Pharmaceutical Association is an incorporated body under the laws of the District of Columbia, and is now operating under the general provisions of this incorporation; now,

Therefore, We, the members of the City of Washington Branch of the American Pharmaceutical Association would respectfully remind the officers and Council of the parent organization that there are many and weighty reasons for locating said permanent home or headquarters of the American Pharmaceutical Association in the City of Washington, in the District of Columbia.

It is proper to state that during the discussion of the resolution that the following reasons were strongly brought out: Washington is the political national center, but free from local politics: It is the true home of the parent organization: The Association officers would be in closer touch with national affairs: It is the most visited city in the Western Hemisphere: Its libraries are unequalled in the United States: Its museums are not to be found in other cities: It is the home of the Bureau of Chemistry of the Department of Agriculture, and all other government departments which exert controlling interests over pharmacy, and the pharmacist: Its publishing facilities are good, and Baltimore, one of the cheapest printing centers in the United States, is exceedingly convenient: It is the National Capital, and therefore, the local home for any national organization.

As an example of a national organization which has its publishing done in the City of Washington where its permanent home is located the National Geographic Society was

cited. There are other such organizations, but not of such national prominence.

Respectfully submitted,

HENRY B. FLOYD,
Secretary and Member of Council."

COUNCIL LETTER No. 10.

PHILADELPHIA, PA., January 21, 1914.

To the Members of the Council:

The Committee on Publication submit the following report:

At the Nashville (1913) meeting the following resolution was adopted by the Council and approved by the Association: "On motion of J. W. England, seconded by W. B. Day, the Committee on Publication was authorized to employ an advertising solicitor and assistant to the Editor of the JOURNAL, at a salary to be fixed by the Committee on Publication, subject to the approval of the Committee on Finance and the Council."

Since the annual meeting the Committee on Publication has given careful and

thorough consideration to the selection of the official authorized by the above resolution. Seven applications have been received. Several personal conferences of members of the committee have been held and the choice has finally crystallized.

The committee feels that while the assistant employed should assist the Editor in getting out the JOURNAL, and do such clerical work as might be referred to him by the General Secretary, his principal duty should be to secure advertising for the JOURNAL, and his title should be "Advertising Manager," instead of the cumbersome title "Advertising Solicitor and Assistant to the Editor of the JOURNAL," and the committee so recommends. The work of the Advertising Manager should be, of course, under the direction of the Editor and General Secretary, as it would be inexpedient to have more than one head for the management of the JOURNAL or the duties of the Secretary.

The consensus of opinion of the committee is that the Advertising Manager, working under the direction of the Editor and General Secretary, should be developed into a useful assistant and relieve that official of much of the executive details with which he is overburdened, so that he would have more time to devote to the larger work of the Association.

Acting under the authority of the Nashvill resolution, the Committee on Publication has elected Ernest C. Marshall as Advertising Manager to take effect as soon as arrangements can be made for him to move to Columbus, Ohio, and assume the duties of the office, at a compensation for services as given below; and asks your approval of its action.

The following plan of compensation has been agreed upon by the Committee on Publication:

"That the Advertising Manager be given an annual salary of fifteen hundred (\$1500) dollars, plus 20 percent for commissions on advertisements up to a maximum of one thousand dollars, and 10 percent on all advertisements he secures through outside solicitors working under his direction, to pay the latter. (The current advertisements in the JOURNAL or their renewals, do not, of course, enter into the calculations for commissions). In this way, the Advertising Manager could not receive more than \$2500 a year. On the other hand, the Association could receive,

i. secured, about \$5000 more in advertisements, which, added to our present advertising receipts for the year (\$3600) would make about \$8600 a year, less \$1000 paid for commission, or a net total of \$7600, instead of \$3600, as at present.

The Committee on Finance approves the above plan of compensation for the Advertising Manager.

Ernest C. Marshall is a graduate of the Massachusetts College of Pharmacy and has been a trustee and vice-president of this corporation. He has been a student of pharmacy and pharmaceutical affairs for many years. He is a member of the American Pharmaceutical Association. He has had considerable business experience outside of pharmacy, having been institutions commissioner and penal institutions commissioner of Boston for several years; also a councilman of that city. As to his literary ability, he has written occasionally for newspapers, and has been the Boston correspondent of the N. A. R. D., and has written the New England letter for the JOURNAL of the A. Ph. A. He has written a number of news articles for different pharmaceutical journals. Regarding his advertising experience, he has been a solicitor of advertising for more than ten years, and is at present the advertising representative of the Journal of the N. A. R. D. for New England. He is a member of the Publicity Club of Boston, an organization composed of New England advertising men.

Mr. Marshall would accept the terms and conditions of employment agreed upon by the Committee on Publication.

The election of Mr. Marshall as Advertising Manager would be acceptable to Editor and General Secretary Beal.

It will be recalled that when the Committee on Publication reported favorably upon the publication of the monthly JOURNAL of the A. Ph. A., it recommended the engagement of a business manager to look after the advertising, as well as an editor to perform the strictly editorial duties. The desire of the committee to economize while the JOURNAL was going through the period of establishment was so strong that such an aid to the Editor was not provided. Dr. Beal has been permitted to bear all the burdens and detail of the publication, and the success of the JOURNAL is mainly due to his untiring energy and devotion to the interests of the Associa-

tion. The success of the JOURNAL is now assured, and it will be unfair to delay any longer the selection of a suitable assistant to look after the advertising and business interests. Dr. Beal's health should be conserved, and he should be relieved, as promptly as possible, of much of the worrying over details and carrying on the dual duties of Editor and business-getter.

The Committee on Publication expresses the hope, also, that, with increased success of the JOURNAL and the expected prosperity, the financial condition will, in the future, permit the employment of such additional assistance to the Editor as may become necessary. The immediate problem, however, is the employment of an Advertising Manager.

Respectfully submitted,

J. W. ENGLAND,
Chairman.

Do you approve of the report of the Committee on Publication, with its recommendations, and authorize the committee to employ Ernest C. Marshall under the conditions stated? This will be regarded as Motion No. 21 (*Approval of Report of Committee on Publication.*)

J. W. ENGLAND,
Secretary of the Council.

MORAL ISSUES AND SELF INTEREST.

A strong tendency to moral arraignment blurs all intellectual issues in the minds of the very stupid. There are certain twisted minds * * * who always make a moral issue of their own interest. It sometimes seems as if they were really following their conscience through thick and thin, and as if their very goodness led them astray. If we look a little closer at their guide we shall see that it is not conscience at all. They have made long the phylacteries of self-interest and are indulging in a moral masquerade. How often do we hear the word "robber" flung about where questions of pure economic expediency are concerned, or a man called a traitor because his political ideal is not that of his opponents! A great deal of this injustice is the direct outcome of a tendency to push the moral issue to the front.—*London Spectator*.
