

In the article titled "Characteristics of a Highly Purified Pyrogenic Lipopolysaccharide" (1), the following corrections should be made:

On page 1579, Fig. 1, the designation "(Log Scale)" along the x-axis should be deleted.

On page 1580, column 1, line 18, the phrase "with the intercept at 0.55<sup>00</sup>" should be deleted.

In the article titled "Molecular Interactions and Solubility of Polar Nonelectrolytes in Nonpolar Solvents" (1), the following corrections should be made:

On page 1785, the last two column headings in Table VI should read:

$$\left\{ \begin{array}{l} \log \left( \frac{x_c}{x_s} \right)_{\text{obs.}} - \log \left( \frac{x_c}{x_s} \right)^{\text{ath.}} \\ \text{Phthalic Anhydride} \quad \quad \quad \text{Salicylic Acid} \end{array} \right\}$$

In the article titled "Methotrimeprazine and Its Sulfoxide and Desmethyl Metabolites in Urine of Psychiatric Patients" (1), the following correction should be made:

On page 915, column 2, Eq. 2 should read:

$$\bar{k} = \sum_{i=1}^{i=n} k_i/n$$

(1) A. De Leenheer and A. Heyndrickx, *J. Pharm. Sci.*, **61**, 914(1972).

In the article titled "Elimination of Choline Interference in Microbiological Assay of Inositol in Pharmaceutical Products" (1), the following correction should be made:

On page 1857, column 1, the 26th line should read "diluted to 500 ml." instead of "diluted 1:500."

(1) L. Walenrod and R. Levinton, *J. Pharm. Sci.*, **60**, 1856(1971).

In the article titled "Substituted 3,4,5-Trimethoxybenzamides: Correlation between Inhibition of Pyruvic Acid Oxidation and Anticonvulsant Activity" (1), the following correction should be made:

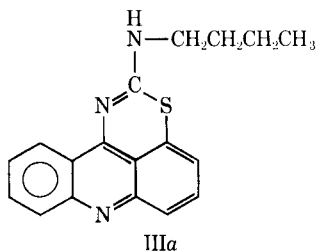

On page 1159, Table II, footnote *b* should be added in regard to Compound XVI as follows:

<sup>b</sup> Previously synthesized and reported by H. Luts, *J. Pharm. Sci.*, **60**, 1409(1971).

(1) A. K. Chaturvedi, A. Chaudhari, and S. S. Parmar, *J. Pharm. Sci.*, **61**, 1157(1972).

In the article titled "Photochemical Cyclization of *N*-Butyl-*N'*-(9-acridinyl)thiourea" (1), the following corrections should be made:

On page 274, Structures IIIa and IVa should not have hydrogens on the nitrogens at the 9-acridine positions. The structures should appear as shown here:

In the article titled "Peyote and Related Alkaloids XIV: Mescaloxyllic Acid and Mescaloruvic Acid, the Novel Amino Acid Analogs of Mescaline" (1), the following corrections should be made:

On page 1172, column 1, lines 19 and 20 should read: "such C-1 carboxytetrahydroisoquinolines could" instead of "the C-1 carboxytetrahydroisoquinolines V and VI could."

On page 1172, column 2, the 29th line should read "mono-*O*-demethyl" instead of "*O*-methyl."
