## PARASYMPATHOMIMETICS AND ANTICHOLINESTERASES

BY F. BERGEL, D.Sc., F.R.I.C.

*This Journal*, July, 1951

### Corrections:

Page 387, line 14, for "stability, or drugs . . .", read "stability of drugs . . .";

page 391, in formula 20 the P should carry, in addition to the other groups, a  $\longrightarrow$  O (double bonded oxygen); in formula 21a & b the NO<sub>2</sub> group should be in the *para* position to the phosphate group;

page 396, second line from bottom, for "kinetics<sup>39</sup>" read "kinetics<sup>38</sup>";

page 397, first line of second paragraph, for "cholinesterases<sup>31</sup>" read "cholinesterases<sup>38</sup>".
