VOLUME 48 • 1996

SUBJECT INDEX

- Abdominal constriction, Chinese medicines 327
Absorption, of diclofenac sodium using a multi-segment model 1260
LY-41 from the oral cavity 41
8-OH-DPAT from the oral cavity 41
organophosphates from the gastrointestinal tract 351
Absorption enhancers, of transdermal cyclosporin 1143
toxicity screening in intestine 1285
phenol red in intestine 1285
N-Acetyl 5-HT, microdialysis in blood 911
(*S*)-8-Acetyl-2-(di-*n*-propylamino) tetralin, absorption from the oral cavity in rat 41
Acetylation, effect on the dapsone disposition in human erythrocytes 401
Acetylcholine, sources of calcium for contraction of rat ileum 817
Acetylcholinesterase inhibition, protection by dizocilpine enantiomers 71
Activated charcoal, exsorption of organophosphorus compounds 351
Acyl coenzyme A, and in-vitro metabolism of YM17E 1049
Adenosine, effects on NANC bronchoconstriction in guinea-pigs 422
A_{2a} Adenosine receptor antagonist, in-vivo pharmacology 601
Adhesion forces, between biomolecules 2
 α -Adrenoceptors, in newborn piglet mesentery 1298
 α_1 -Adrenoceptor, circadian variation in human pressor response 526
locomotor hypoactivity in mice 615
 α_1 -Adrenoceptor antagonist, DC-015 pharmacology 90
govadine 629
tetrahydroprotoberberine alkaloids 629
Adjuvant arthritis, suppression by oral collagen and interferon 702
Adrenergic stimulus, in vas deferens from hypercholesterolaemic rabbits 433
Adrenomedullin, inactivated in neonatal piglet lungs 578
Adriamycin, pharmacokinetic–toxicodynamic relationships 1264
Adriamycin cardiotoxicity, protection by butylated hydroxyanisole 940
Aerosol propellant suspensions, surfactant effect on aggregates 337
surfactant effect on drug aggregates 342
Aerosolized morphine, sublingual dose pharmacokinetics 1256
Aerosols, HFA-134A safety study 596
neural network simulation 581
Age-dependent alteration, of serum-unbound nifedipine 1327
Alanine aminotransferase, C-S lyase activity 150
Albumin mRNA, effects of ginsenoside-Rb₂ 763
Aldolase, and fructose intolerance 214
Aldolase isozymes, molecular modelling 214
Aldosterone, effect of FK-506 infusion in pigs 1174
Alfaxalone, cyclodextrin inhibition of ataxia 529
1-Alkyl-3-benzoyl-4-hydroxy-4-phenylpiperidines, stereospecific synthesis 444
N-Allenic analogues of tryptamine, as monoamine oxidase inhibitors 718
AM 92016, anti-arrhythmic effects 417
Ambenonium, toxicodynamic analysis 935
Amino acids, effect on the stability properties of nitrofurantoin suspensions 450
influence of pH on skin permeation 675
4-Aminoquinolines, structure–activity relationships 841
Amitriptyline, oxidation by CYP2D 925
Analgesia, methadone withdrawal in rats 281
ibuprofen- β -cyclodextrin derivatives 1153
Angiotensin-converting enzyme inhibitors, cough potentiation in guinea-pigs 1027
enzyme-linked immunosorbent assay of captopril in blood 914
Angiotensin II, effect of FK-506 infusion in pigs 1174
Angiotensin II receptor antagonists, cardiovascular effects of losartan and ZD 7155 829
EXP3312 492
Anion antiporter, in intestinal BBMV 1073
Antacids, dissolution with sulphonylurea preparations 899
Anthelmintic, fenbendazole with piperonyl butoxide 753
Anthracycline cardiotoxicity, prediction of butylated hydroxyanisole-mediated reduction 1264
Anti-arrhythmic, cardiovascular effects of AM 92016 417
Anti-arthritis therapy, immunological detection of type II collagen degradation 694
Anti-helicobacter properties, of MX₁ 297
Anti-inflammatory activity, *N*-arylanthranilic acids 883
ibuprofen- β -cyclodextrin derivatives 1153

- partition phenomena 233
polyphosphazene-based naproxen 468
silymarin on leukocyte migration 968
xanthone derivatives 532
- Anti-ulcerogenic, cytoprotective mechanism of D-002 858
- Antibacterial activity, honey after gamma-irradiation 1206
norfloracin in ophthalmology 801
xanthenes 861
- Antibiotics, effect on epithelial ion transport in rabbit colon 651
- Anticancer, niosomal plumbagin 1128
vinorelbine effects on endothelial cell permeability 951
xanthone derivatives 539
- Anticoagulant therapy, effects of fatty acids in plasma 870
- Anticonvulsant activity, of tetrahydropyrrolo [2,1-*b*] thiazoles 834
- Antidiarrhoeal activity, of new thiazolidinones 760
- Antigen, monophasic release from microcapsules 32
- Antigen-containing microcapsules, monophasic release 32
- Antihypertensive drugs, on noradrenaline-induced hypertrophy of myocardial cells 323
- Antimalarials, endoperoxide artesunate reaction with ferriprotoporphyrin IX 183
structure-activity relationships of 4- aminoquinolines 841
- Antimicrobial activity, of methyl parahydroxybenzoate 1201
silver ions 60
- Antinociceptive activity, of hydroalcoholic extract of *Phyllanthus carolinensis* 1231
- Antioxidant, sesquiterpenoid from *Heterothecha inuloides* 441
- Antistaphylococcal activity, of nisin 988
- Antithrombotic activity, of a 2-kDa heparin fragment 407
xanthone derivatives 887
- Antithyroid activity, of (+)-tetrahydropalmatine 959
- Antitumour activity, of mitoxantrone-loaded chitosan microspheres 685
niosomal plumbagin in BALB/C mice 1128
- Antitussive activity, of moguistine enantiomers 112
- Antiviral activity, α -glucosidase I inhibitors in HIV-1 172
sulphonamidobenzophenone oximes 1215
- Aorta, DC-015 on pressor responses 90
spasmolytic action of warifteine 332
- Apoptosis, in cultured human lymphocytes with tricyclic antidepressants 115
- Arginine vasopressin, analogues with L-2-naphthylalanine 316
- Arrhythmias, effects of a class III antiarrhythmic AM 92016 417
- Atrial natriuretic peptide, effect of FK-506 infusion in pigs 1174
- Artesunate, chemical stability 22
intravenous infusion 22
pharmacokinetic modelling 22
reaction with ferriprotoporphyrin IX 183
- N*-Aryl-azetidin-2-ones, as inhibitors of human leucocyte elastase 1218
- N*-Arylanthranilic acids, a quantitative structure-activity relationship study 883
- Aspartate aminotransferase, C-S lyase activity 150
- Aspirin, and salicylate disposition in the perfused rat liver 738
- Asthma, effect of YM934 1034
- Atomic force microscopy 2
- Atopic dermatitis, antistaphylococcal effect of nisin 988
- ATP analogues, QSAR study of P_{2T} purinoceptor antagonists 206
- ATP-induced twitch contraction, σ -receptor stimulation in vas deferens 96
- ATP-sensitive potassium channels, trachea relaxation with *Phyllanthus urinaria* 1158
- Atrium, effect of *Rauwolfia ligustrina* 1210
- Atropine, exsorption of organophosphorus compounds 351
- Azosemide, pharmacokinetics in alloxan-induced diabetes mellitus 1093
- Bacterial hydrolysis, of glycyrrhizin in intestine 902
- Bakuchiol, and inflammatory responses 975
- BDF 9148, effects on rat portal vein contractile force 820
- Bead products, of propranolol prepared using aqueous polymeric dispersions 1276
- Behaviour, effects of dexamethasone in mice 615
learning and memory in rats 1290
- Benzoic acid, peritoneal transport in rats 347
- 1,2,3-Benzotriazin-4-ones, MS-MS determination of the fragmentation pathways 223
- N*-Benzylamines, microsomal metabolism 1320
- Bile acid-induced-haemolysis, effect of 2-hydroxypropyl- β -cyclodextrin 641
- Biliary excretion, of diclofenac in rat liver perfusion system 734
- Binding equations, for prediction of unbound serum valproic acid concentration 1068
- Bioadhesive, buccal patches effects of backing materials 255
- Bioavailability, of glycyrrhetic acid in rats 902
indomethacin by ocular drug carriers 1147
oral peptidergic molecules 119
L-pyroglutamic and L-glutamic acid esters of paracetamol 479
sulpiride in rabbits 371
- Biodegradable implants, of diclofenac sodium 669
- Bioequivalence, a pharmacy view 9
an industrial view 11
- Biological activity, of collagen peptides during lyophilization and storage 896
- Biological fluids, decomposition kinetics of cisplatin 918
- Biphenyl acetic acid, with β -cyclodextrin as colon-targeting prodrugs 27
- Biphenyl acetic acid- β -cyclodextrin conjugates, drug release behaviour in-vitro 27
- Bisbenzylisoquinoline alkaloid, isolated from the leaves of *Cissampelos sympodialis* Eichl. 332
- Blastospores, from *Candida albicans* adhered to mucosal epithelial cells 1315
- Blood dyscrasia, caused by dapsone metabolite in mouse 228
- Blood levels, with oral dosage forms 390
- Blood pressure, effect of ZM 241385 601
doxazosin in cholesterol-fed rabbits 607
Scoparia dulcis L. 624
- Blood-brain barrier, targeting peptides and drugs to the CNS 136
- transport of lipid microspheres containing clinprost 1016
- Bothrops jararaca* venom, pharmacological profile of rat pleurisy 106

- Bradykinin, involvement in cough potentiation in guinea-pigs 1027
- Brain, distribution of intravenous magnolol in rat 57
HPLC determinations of epiroprim 1090
pharmacokinetic study of zonisamide in surgery 1270
platinum levels after cisplatin treatment 505
- α -(Bromoisovaleryl)urea, microsomal debromination 930
- Bronchoconstriction, effect of adenosine on capsaicin responses 422
- Bronchorelaxation, of nitric oxide donors GEA 3268 and GEA 5145 1309
- Bronchospasmolytic, HOE 234 619
- Brush-border membrane vesicles, cephalosporin sugar interactions 645
uptake of α -methyl dopa prodrugs 270
uptake of trientine 517
- Buccal patches, effects of backing materials 255
- Bunion, podiatric treatment with *Tagetes patula* 768
- Bunitrolol enantiomers, in rabbit liver microsomes 1185
- Bupivacaine kinetics, effect of nicorandil treatment 749
- Butylated hydroxyanisole, protection against adriamycin-induced cardiotoxicity 940
- C-S lyase activity, alanine aminotransferase 150
aspartate aminotransferase 150
- Ca²⁺ metabolism, in rabbit aorta modified with warifteine 332
- Caco-2 cells, uptake of chloroquine 277
- Caffeine, in scalp hair and hepatic metabolic capacity 660
- Calcium channel blockers, age-dependent changes in serum-unbound nifedipine 1327
manidipine-induced catalepsy 429
synthesis of FTX-3.3 and sFTX-3.3 179
- Calcium movement, in tetrazepam-induced uterine relaxation 1169
- Calcium polycarboxophil, physicochemical properties 665
- Calcium, in muscarinic-induced contraction of rat ileum 817
- Candida albicans*, effect of ebselen in infected mice 64
effect of silver ions 60
frequency distribution of blastospheres adhered to mucosal epithelial cells 1315
- Capsaicin, NANC bronchoconstriction in guinea-pigs 422
responses in rat vas deferens 285
- Capsule filling machine, powder plug formation 249
- Captopril, measurement in blood using an enzyme-linked immunosorbent assay 914
- Carageenan-induced granuloma, effect of policosanol 306
- Carbopol-940, interaction with the antimicrobial activity of methyl parahydroxybenzoate 1201
- Carboxyfluorescein, for osteotropic drug delivery 798
- Carboxymethylcellulose-sodium, for improved transdermal drug delivery 367
- 3-Carboxy-4-methyl-5-propyl-2-furanpropanoic acid, physicochemical properties 635
- Cardiac effects, of cholinesterase inhibitors 935
- Cardiac muscle, *Rauwolfia ligustrina* in rat atrium 1210
- Cardiotoxicity, adriamycin induced 940
adriamycin 1264
- Cardiovascular effects, of AM 92016 417
losartan 829
ZD 7155 829
- Carotid artery thrombosis, antithrombotic activity of a 2-kDa heparin fragment 407
- Catalepsy, induced by manidipine in mice 429
- Catecholamines, in *Scoparia dulcis* L. extracts 624
- Cathepsin-D, in paracetamol overdose 437
- CCK receptors, binding by dipeptoid analogues of CCK-4 188
- Cefaclor, effect on intestinal absorption of D-galactose 645
- Cell permeability, effects of vinorelbine 951
- Cephadrine, effect on intestinal absorption of D-galactose 645
- Cerebral phospholipid affinity, of thioperamide 712
- Cerebrospinal fluid, HPLC of piracetam 514
- Cetirizine, high-performance thin-layer chromatography 510
pharmacokinetics 510
- Chemical extraction, of *Phyllanthus carolinensis* 1231
- Chitosan, microspheres containing mitoxantrone 685
- p*-Chlorobiphenyl, effect on platelet aggregation 395
- Chloroquine uptake, into Caco-2 cells 277
- Chlorpromazine, and release of oxygen from haemoglobin and myoglobin 965
- Cholecystokinin, preparation of dipeptoid mimetics 188
- Cholesterol, contractility of the vas deferens in hypercholesterolaemic rabbits 433
- Cholesterol-fed rabbits, effect of doxazosin on coronary arteries 607
- Cholinesterase inhibitors, toxicodynamic analysis 935
inhibition by opioids 1164
- Chymotrypsin, degradation of peptide hormones with carbopol polymers 17
- Cinnamoyl derivatives, of β -naltrexamine as irreversible opioid antagonists 192
- Circadian variation, of human response to phenylephrine 526
- Cisapride, ulcer-protecting effects 37
- Cisplatin, decomposition kinetics in biological fluids 918
effects on platinum in mouse brain after short-term hypoxia 505
oral sustained-release capsules 474
- Cissampelos sympodialis* Eichl., spasmolytic action of isolated alkaloid in rabbit aorta 332
- Citalopram, induced apoptosis in human lymphocytes 115
- Clinprost, transport across the blood-brain barrier in lipid microspheres 1016
- Clomipramine, induced apoptosis in human lymphocytes 115
- Clonidine, and dexamethasone effects on hypoactivity in mice 615
- CNS, principles for targeting peptides 136
- Collagen degradation, immunological detection 694
- Collagen peptides, biological activity 896
- Collagen type II, and interferon for suppression of arthritis 702
- Colloidal bismuth subcitrate, combined with H₂-receptor antagonists to give MX₁ 297
- Colon, effects of antibiotics on epithelial ion transport 651

- Colonic drug delivery, validation of a pig model 689
- Colonic mucosal cells, presence of insulin-degrading enzyme 1180
- Compaction properties, of
hydroxypropylmethylcellulose 1116
- Compressibility, of a modified starch 456
- Compression pressure, powder plug formation 249
- Computer, neural network simulation of medical aerosols 581
- Contraction of mouse vas deferens, σ -receptors 96
- Controlled-release, prediction of in-vivo blood levels 390
polyphosphazene-based naproxen 468
- Copoly(lactide-glycolide) microspheres, preparation using membrane emulsification 891
- Coronary arteries, effects of doxazosin 607
- Coronary dilator derivatives, palmitoyl carnitine 245
- Corticosterone, in serum relates to 5-HT uptake in rat hypothalamus 68
- Cough, potentiation by ACE inhibitors in guinea-pigs 1027
- Coumarin, influence of fatty acids on binding to human serum albumin 870
- CR 2249, a new putative memory enhancer 1290
- Cyclic α -melanocyte-stimulating hormone, analogues produced by disulphide bridging 197
- Cyclodextrins, inhibition of alfaxolone-induced ataxia 529
time-dependent densification 790
- β -Cyclodextrins, in-vitro evaluation of drug conjugates as colon-targeting prodrugs 27
anti-inflammatory properties of ibuproxam derivatives 1153
- β -Cyclodextrin derivatives, complexation with pilocarpine prodrug 263
- Cyclophosphamide, effect on triiodothyronine clearance 386
- Cyclosporin, in-vivo distribution and binding to erythrocytes 553
microdialysis for transdermal absorption 1143
- CYP2D, oxidative metabolism of amitriptyline and nortriptyline 925
- L-Cysteine conjugates, C-S lysis 150
- Cytochrome P450, dapsone metabolism 945
effect of nifedipine during an inflammatory reaction 906
metabolism of YM17E 1049
microsomal debromination of (α -bromisovaleryl) urea 930
- Cytochrome P450 3A, screening studies with nifedipine and midazolam 933
- Cytokines, effect on the synthesis of erythropoietin by HepG2 cells 971
- Cytoprotective mechanism, of D-002 858
- D-002, anti-ulcerogenic effects 858
- D-Galactose, interaction with cephalosporins on intestinal absorption 645
- Dapsone, disposition in human erythrocytes 401
- Dapsone analogues, toxicity evaluation 945
- Dapsone metabolite, methaemoglobinaemia in the mouse 228
- DC-015, antagonist of α_1 -adrenoceptor pressor responses 90
- O-Dealkylation, of 7-ethoxy-3,4-dimethylcoumarin 729
- Decomposition kinetics, of cisplatin in biological fluids 918
- Deleted hepatocyte growth factor, in liver failure in rats 876
- Densification, of cyclodextrins 790
- Dexamethasone, inhibition of erythropoietin synthesis 971
effect on clonidine-induced hypoactivity 615
- Diabetes mellitus, pharmacokinetics of azosemide 1093
- Dialysate, to study peritoneal transport of benzoic acid in rats 347
- Diazepam, dissolution in interactive mixtures 1249
- Diclofenac, effect of pentobarbital on biliary excretion 734
influence of pentobarbitone on disposition in rat liver 866
- Diclofenac sodium, biodegradable implants 669
pharmacokinetic analysis using a multi-segment model 1260
- Dipeptoid mimetics, for the tetrapeptide cholecystokinin 188
- Dissolution, of cyclosporin in renal transplant patients 553
diazepam in interactive mixtures 1249
sulphonylurea preparations 899
- Diuretic, urinary excretion profile in dogs 375
- Dizocilpine enantiomers, protection of acetylcholinesterase inhibition 71
- DNA, relaxation by fluoroquinolones in *Escherichia coli* 985
- DNAase II, in paracetamol overdose 437
- Dopamine, neostriatal release by 5-hydroxy-L-tryptophan 825
neostriatal release by fluoxetine 825
- Dopamine receptors, manidipine-induced catalepsy 429
- Dopamine D₂ receptors, sensitization to methamphetamine in mice 292
- Doxazosin, effects on rabbit arteries 607
- Drug aggregates, in model aerosol propellant suspensions 342
- Drug carriers, for ocular bioavailability of indomethacin 1147
- Drug delivery, carboxyfluorescein 798
norfloxacin-loaded liposomes 801
sulphasalazine using a new pig model 689
poly (lactic-co-glycolic) acid copolymers 669
- Drug targetting, to the CNS 136
- Drug-efflux pump, saturable function of P-glycoprotein 522
- Ebselen, effect on microbicidal activity of human neutrophils 64
- Edrophonium, toxicodynamic analysis 935
- Ehrlich ascites carcinoma, antitumour effect of mitoxantrone-loaded microspheres 685
- Elastase, inhibition by *N*-aryl azetidins-2-ones in human leucocytes 1218
- Elcatonin, and plasma vasoactive intestinal peptide 657
- Electrogenic ion secretion, involvement of neural mechanisms 411
- Enantiomers, of cetiedil 851
bunitrolol in liver microsomes 1185
dizocilpine 71
moguistine on antitussive activity in rats and guinea-pigs 112
- Encapsulation, of drugs in unilamellar liposomes 1112

- Endothelial cell permeability, effect of vinorelbine 951
- Endothelin, bronchoconstriction in guinea-pig 100
- Endothelin 1, and sodium/potassium ATPase in rabbit ear and femoral arteries 1057
- Endothelin B receptor antagonist, on contractile responses in guinea-pig trachea 100
- Endotoxaemia, renal uptake kinetics of enprofylline 744
- Energy analysis, of hydroxypropylmethylcellulose 1122
- Enprofylline, renal uptake kinetics in endotoxaemia 744

inflammatory properties 1153
- Ileum, calcium sources in muscarinic-induced
contraction 817
insulin-degrading enzyme 1180
- Immune response, to monophasic antigen release from
microcapsules 32
prolonged by microcapsule injection 32
- Immunological detection, of type II collagen 694
- Immunopharmacological activity, of purified insoluble
zymocel in mice 1243
- Immunosuppressive activity, from α -glucosidase
inhibitors 172
- Implants, poly (lactic-co-glycolic) acid copolymers
669
- Indomethacin, ocular bioavailability 1147
shed snake skin permeability 680
- Inflammation, effect of bakuchiol 975
effect of silymarin on leukocyte migration 968
in lungs from smoker rats 1063
- Insulin, intestinal absorption 1078
luminal absorption with carbopol polymers 17
- Insulin-degrading enzyme, in human ileal and colonic
mucosae 1180
- Interferon, and collagen for suppression of arthritis
702
- Interleukins, effect on erythropoietin synthesis 971
production regulated by 5-lipoxygenase inhibitors
in human synovial tissue 46
- Interleukin 6, pulmonary catabolism in smoker rats
1063
- Interleukin-1-synthesis inhibitors, comparison with 5-
lipoxygenase inhibitors in synovial tissues 46
- Interspecies scaling, and pharmacokinetics of
lamifiban 573
- Intestinal absorption, of α -methyl dopa prodrugs 270
cephalosporin sugar interactions 645
insulin 1078
- Intestinal permeability, of chemically-modified oral
peptides 119
- Intestinal smooth muscle, effect of United Arab
Emirate plants 545
- Intestine, secretion of drugs by P-glycoprotein 1083
transport of nicotinic acid 1073
- Irreversible opioid antagonists, cinnamoyl derivatives
of β -naltrexamine 192
- Isopropyl myristate, permeation enhancer for naproxen
812
- Kinetics, accumulation and excretion of 2-
methylbenzoylglycine 560
bupivacaine after nicorandil treatment 749
- Lactose suspensions, effect of Span 80 on aggregates
337
study of drug aggregates 342
- Lamifiban, pharmacokinetics and interspecies scaling
573
- Leucocytes, inhibition of elastase by *N*-aryl azetidin-
2-ones 1218
effects of bakuchiol 975
effects of silymarin on migration 968
- Linsidomine, inhibition of human polymorphonuclear
function 706
- Lipid microspheres, for blood-brain-barrier transport
of clinprost 1016
- Lipid peroxidation, inhibition by sesquiterpenoid in
Heterotheca inuloides 441
- Lipofundin, foam-cell formation with policosanol in
rats 306
- Liposomes, for preoperative lymph node staining 699
norfloxacin-loaded for ocular drug delivery 801
separation of non-encapsulated drugs from
unilamellar liposomes 1112
- 5-Lipoxygenase inhibitors, regulation of interleukin
production by human synovial tissues 46
- Liver, disposition of morphine 498
effect of perfusate flow on aspirin and salicylate
disposition 738
influence of pentobarbitone on diclofenac
disposition 866
mefloquine effect on disposition of halofantrine
723
metabolism of YM17E 1049
- Liver failure, effects of hepatic growth factor 876

- Liver function indicator, caffeine concentration in scalp hair 660
- Local tolerance, of subcutaneous injections 1012
- Loperamide, antiarrhoeal activity of thiazolidinones 760
- Losartan, cardiovascular effects 829
- Lung, adrenomedullin inactivation in neonate piglets 578
 endothelin B antagonist on bronchoconstriction in guinea-pigs 100
 pulmonary catabolism of interleukin 6 in smoker rats 1063
- LY-41, absorption from the oral cavity in rat 41
- Lymph node, preoperative staining with liposomes containing patent blue violet 699
- Lymphocytes, tricyclic antidepressant-induced apoptosis 115
- Lyophilization, for storage of collagen peptides 896
- Lysosomal enzymes, in paracetamol-induced hepatotoxicity 437
- Magnetizable solid-phase support beads, purification of nucleic acids 147
- Magnolol, pharmacokinetics after intravenous injection in rat 57
- Mammalian C-S lyase activity, novel sources 150
- Manidipine, induction of catalepsy in mice 429
- Mass Spectrometry, to study the fragmentation pathway of substituted 1,2,3-benzotriazin-4-ones 223
- Mast cells, anti-inflammatory effects of xanthenes 532
- Medicinal plants, as antispasmodic agents 545
- Mefloquine, effect on disposition of halofantrine in perfused rat liver 723
- Melanocortin receptor binding, by cyclic melanocyte-stimulating hormone analogues 197
- α -Melanocyte stimulating hormone, cyclic analogues produced by disulphide bridging 197
 molecular modelling of derivatives 218
- Melanoma cells, biological activity of cyclic melanocortins 197
- Membrane-bound phosphodiesterases, in rat myocardium 962
- Memory enhancer, CR 2249 1290
- Mesenteric blood flow, in neonate piglets 1298
- Mesentery, α -adrenoceptors in neonate piglets 1298
- Metabolic interaction, of bunitrolol enantiomers 1185
- Metabolism, of thymocartin 1190
 YM17E by liver microsomes in man 1049
- Metabolite, of dapsone causes blood dyscrasia in mice 228
- Methadone withdrawal, α_1 -acid glycoprotein levels 281
 plasma-protein binding of methadone 281
- Methaemoglobinaemia, caused by dapsone metabolite in mice 228
- Methamphetamine, sensitization in mice 292
- 8-Methoxypsoralen, permeation through human skin 357
- 2-Methylbenzoylglycine, renal accumulation in isolated perfused rat kidney 560
- α -Methyldopa prodrugs, intestinal absorption 270
- Methyl parahydroxybenzoate, effect of interaction with carbopol 940 on antimicrobial activity 1201
- Methyllycaconitine, synthesis of AE-bicyclic analogues as nicotinic receptor antagonists 210
- Microbicidal activity, of selenium 64
- Microcapsule injection, release of antigen 32
- Microdialysis, for transdermal absorption of cyclosporin 1143
 5-HT in blood 911
- Microsomal debromination, of α -(bromoisovaleryl)urea 930
- Microsomal metabolism, of *N*-benzylamines 1320
- Microsomes, CYP2D subfamily in oxidative metabolism of amitriptyline and nortriptyline 925
 interaction of bunitrolol enantiomers 1185
 metabolism of YM17E in human liver 1049
- Microspheres, poly (lactic-co-glycolic) acid copolymers 669
 incorporating fluorescein for intrapulmonary investigation 258
 mitoxantrone-loaded 685
 preparation using membrane emulsification 891
- Midazolam, screening cytochrome P450 3A 933
- Mitoxantrone-loaded microspheres, antitumour activity 685
- MK-801 enantiomers, protect against acetylcholinesterase inhibition 71
- Mogustine, antitussive activity of enantiomers 112
- Molecular characterization, of purinoceptors 993
- Molecular dynamics in α -melanocyte stimulating hormone, β turns 218
- Molecular modelling, aldolase enzymes 214
 α -melanocyte stimulating hormone 218
- Molecular topology, of hypolipaeic drugs 240
- Monoamine oxidase inhibitors, kinetic studies of *N*-allenic analogues of tryptamine 718
- Morphine, disposition in perfused rat liver 498
 glibenclamide interaction on gall bladder emptying 320
 pharmacokinetics of sublingual aerosol dose 1256
- Morphine-3-glucuronide, disposition in perfused rat liver 498
- Mucosa, nasal transport of thymocartin 1190
- Multi-segment absorption model, of diclofenac sodium 1260
- Muscarinic-induced contraction, calcium sources 817
- MX₁, anti-helicobacter properties 297
- Myocardial cells, noradrenaline-induced hypertrophy 323
- Myocardium, membrane-bound phosphodiesterases 962
- Myoelectric activity, of the sheep forestomach 1302
- Myoglobin, oxygen release with trifluoperazine 965
- β -Naltrexamine, cinnamoyl derivatives as irreversible opioid antagonists 192
- Naftazone, inhibition of platelet aggregation 566
- NANC bronchoconstriction, effects of adenosine 422
- β -Naphthoflavone, cytochrome P450 and 7-ethoxy-3,4-dimethylcoumarin 729
- L-2-Naphthylalanine, substitution in arginine vasopressin 316
- Naproxen, enhanced permeation through skin with isopropyl myristate 812
 polyphosphazene-based slow-release system 468
- Nasal spray preparations, preservative efficacy tests 1237
- Nasal transport, of thymocartin 1190
- Nemonapride, effect on sensitization to methamphetamine in mice 292
- Neonate piglet lungs, inactivated adrenomedullin 578
- Neostigmine, toxicodynamic analysis 935
- Neural network simulation, of medical aerosols 581

- Neuropeptide Y antagonist, α -trinositol in vasculature 77
 blood pressure control 77
 Neurosedative effects, of *Sickingia williamsii* 592
 Nicardipine, age-dependent alteration of the serum-unbound fraction 1327
 Nicorandil, effect on bupivacaine kinetics 749
 Nicotinic acid, intestinal transport 1073
 Nicotinic receptor antagonists, AE-bicyclic analogues of methyllycaconitine 210
 Nifedipine, effect on theophylline kinetics 906
 screening cytochrome P450 3A 933
 Niosomes, containing plumbagin for enhanced anticancer activity 1128
 Nisin, antistaphylococcal effect 988
 Nitric oxide donors, GEA 3268 and GEA 5145
 bronchorelaxation 1309
 3-Nitropropionic acid, GABA release in rat striatal slices 85
 Nitrofurantoin, effect of amino acids on stability properties of suspensions 450
 NMDA receptor blocker, acetylcholinesterase inhibition 71
 Non-steroidal anti-inflammatory drugs, structure-activity relationships 233
 Nonionic surfactant solutions, containing silver ions as microbiocides 60
 Noradrenaline-induced hypertrophy, antihypertensive drugs 323
 Norfloxacin-loaded liposomes, for ocular drug delivery 801
 Nortriptyline, oxidation by CYP2D 925
 Nuclear magnetic resonance, phenylpiperidines 444
 Nucleic acid purification, by magnetizable solid-phase support beads 147
- Ocular bioavailability, of indomethacin 1147
 Ocular drug delivery, of pilocarpine prodrug in rabbits 263
 bioavailability of indomethacin 1147
 Oestradiol, percutaneous delivery with sucrose laurate gels 463
 Oestrogen receptor, subcellular distribution in rat uterus with oestradiol 302
 subcellular distribution in rat uterus with tamoxifen 302
 subcellular distribution in rat uterus with ZD 182,780 302
 8-OH-DPAT, absorption from the oral cavity in rat 41
 Ondansetron, clinical pharmacokinetics 774
 Opiates, methadone withdrawal in rats 281
 inhibition of cholinesterases 1164
 Opioid antagonists, cinnamoyl derivatives of β -naltrexamine 192
 κ -Opioid antagonist, response in vas deferens of hypercholesterolaemic rabbits 433
 Oral bioavailability, of peptidergic molecules 119
 Oral, absorption of LY-41 and 8-OH-DPAT in rat 41
 Oren-gedoku-to, abdominal constriction 327
 rat paw oedema 327
 Organ culture, of human synovial tissues producing interleukins 46
 Organophosphates, effect of activated charcoal on absorption from the gastrointestinal tract 351
 Osteotropic drug delivery, of carboxyfluorescein 798
 Oxygen, release from haemoglobin and myoglobin 965
- Pseudomonas aeruginosa*, effect of ebselen in infected mice 64
Pseudomonas cepacia, resistance profiles with sulphonamides and trimethoprim 981
 P450 aromatase, inhibition by 3-(prop-2-enyl)pyrrolidine-2,5-dione derivatives 154
 inhibition by 3-(prop-2-ynyl)pyrrolidine-2,5-dione derivatives 154
 P450-dependent pathway, active metabolite of dapsone 228
 Palmitoyl carnitine derivatives, structure-activity relationships 245
 Paracetamol overdose, hepatotoxicity and nephrotoxicity 437
 Paracetamol, bioavailability of L-pyroglutamic and L-glutamic acid esters 479
 Parkinsonism, induced by manidipine 429
 Particle-size distribution, densification behaviour of cyclodextrins 790
 Partition coefficients, controlling structure-activity relationships 233
 Patent-blue violet liposomes, for staining lymph nodes 699
 Pentobarbital, inhibition of diclofenac biliary excretion 734
 Pentobarbitone, influence on diclofenac disposition in rat liver 866
 Peptide drugs, chemical approaches to improved oral bioavailability 119
 degradation with carbopol polymers 17
 Peptide mimetic, α -methyl dopa prodrugs 270
 Peptides, brain uptake 136
 Percutaneous delivery, of oestradiol with sucrose laurate gels 463
 Peritoneal transport, of benzoic acid in rats 347
 Permeability coefficient, of amino acids in skin 675
 Permeation, of indomethacin through rat skin 1133
 indomethacin and fatty alcohols through shed snake skin 680
 8-methoxypsoralen through human skin 357
 naproxen through shed snake skin 812
 pH, effects on dissolution of sulphonylurea preparations 899
 Pharmacokinetics, and interspecies scaling of lamifiban 573
 FK070 380
 azosemide in alloxan-induced diabetes mellitus 1093
 cetirizine 510
 diclofenac sodium from microspheres 669
 diclofenac sodium using a multi-segment model 1260
 EXP3312 492
 fenbendazole and piperonyl butoxide 753
 intravenous magnolol in rat 57
 ondansetron 774
 sublingual aerosolized morphine 1256
 triiodothyronine with cyclophosphamide 386
 zonisamide in brain surgery 1270
 Pharmacokinetic-toxicodynamic relationships, of adriamycin in rat 1264
 Pharmacology, of arginine vasopressin analogues 316
 cetiedil enantiomers 851
 hypolipaemic drugs 240
 rat pleurisy 106
 vanilloid receptor in vas deferens 285
 ZM 241385 adenosine receptor antagonist 601
 Phenobarbitone, cytochrome P450 and 7-ethoxy-3,4-dimethylcoumarin 729

- Phenylephrine, circadian variation of human response 526
- Phosphatidylcholine secretion, effect of pyridine derivatives in rat pneumocytes 53
- Phosphodiesterases, in rat myocardium 962
- Phosphoglycerate kinase inhibitors, in erythrocytes 201
- Phospholipid affinity, and thioperamide protein binding 712
- Phyllanthus carolinensis*, chemical and pharmacological studies in mice 1231
- Phyllanthus urinaria*, relaxant effect in guinea-pig trachea 1158
- Physicochemical properties, of 3-carboxy-4-methyl-5-propyl-2-furanpropanoic acid 635
- calcium polycarboxophil 665
- Pilocarpine prodrug, complexation with β -cyclodextrin 263
- Piperonyl butoxide, interaction with fenbendazole 753
- Piracetam, HPLC in plasma or cerebrospinal fluid 514
- Plant extracts, from *Scoparia dulcis* L. 624
- Plasma, vasoactive intestinal peptide levels with elcatonin 657
- Plasma-protein binding, of methadone 281
- Plasmid DNA, relaxation by fluoroquinolones 985
- Plasminogen activator, YM866 in femoral arterial thrombosis 1041
- Platelet activating factor, and the digestive tract 1103
- effect in isolated stomach 955
- Platelet aggregation, effects of xanthone derivatives 887
- inhibition by naftazone 566
- inhibition by *p*-chlorobiphenyl 395
- Platelet aggregation inhibitor, lamifiban for interspecies scaling 573
- Platinum, effect of cisplatin in mouse brain 505
- Pleurisy, induced by *Bothrops jararaca* venom in rats 106
- Plumbagin niosomes, antitumour activity in BALB/C mice 1128
- Pneumocytes, phosphatidylcholine secretion in rat 53
- Policosanol, effect on foam-cell formation in careegeenan-induced granulomas in rats 306
- Poly (lactic-co-glycolic) acid copolymers, implants for long-term drug delivery 669
- Poly(D,L-lactide) microspheres, preparation using membrane emulsification 891
- Poly(D,L-lactic acid) microspheres, incorporating fluorescein for intrapulmonary investigation 258
- Poly(ethylene-co-vinyl acetate), buccal patches 255
- Polyacrylic polymers, insulin absorption 17
- peptide drug degradation 17
- Polyamines, voltage-sensitive calcium channel blockers 179
- Polycarboxophil, physicochemical properties 665
- Polyethylene glycols, dispersion with triamterene or temazepam 782
- solidification studies 782
- Polymeric dispersions, for preparation of extended-release beads of propranolol 1276
- Polymorphonuclear function, inhibition by prostaglandin E₁ and linsidomine 706
- Polyphosphazene, slow-release system for naproxen 468
- Polyvinylpyrrolidone, buccal patches 255
- Portal vein, contraction with BDF 9148 820
- contraction with veratridine 820
- Potassium channel blockers, cetiedil 851
- Potassium channel openers, HOE 234 in guinea-pig airways 619
- YM934 in asthma 1034
- Powder plug formation, using a simulated capsule filling machine 249
- Preformulation studies, for terbutaline transdermal delivery 1138
- Preservative activity, in formulated nasal products 1237
- Propranolol, transdermal drug delivery 367
- Propranolol hydrochloride, extended-release bead products 1276
- Propylthiouracil, in-vivo evaluation of a hydrophilic matrix 1023
- 3-(Prop-2-enyl)pyrrolidine-2,5-dione derivatives, inhibition of placental P450 aromatase enzymes 154
- Prostaglandins, involvement in PAF induced contraction of isolated stomach 955
- Prostaglandin E₁, inhibition of human polymorphonuclear function 706
- Prostaglandin I₂ analogue, transport across the blood-brain barrier 1016
- Protein kinase C inhibitors, synthesis and biological assay 160
- Proton cotransporter, in intestinal BBMV 1073
- Psoralea glandulosa* L., effects of meroterpenoid extracts on inflammation in mice 975
- Pulmonary catabolism, of interleukin 6 in smoker rats 1063
- Pulmonary investigation, with fluorescein-labelled microspheres 258
- Purification, of nucleic acids by magnetizable solid-phase support beads 147
- Purinoceptors, from history to recent progress 993
- molecular characterization 993
