

# Errata

The following are corrections to the *Journal of Pharmacy and Pharmacology* 1998, Volume 50

K. Sakai et al, Differential effects of nicorandil on the vasodepressor responses to vasoactive polypeptides administered intravenously to rats. 50 (2): 211–214

Dose of glibenclamide should be  $20 \text{ mg kg}^{-1}$  in abstract. Dose of substance P should be  $0.1 \text{ } \mu\text{g kg}^{-1}$  in results.

Table 1. \* $P < 0.05$  refers to value for effect of nicorandil treatment on the peak reduction of mean systemic blood pressure caused by calcitonin gene-related peptide;  $27.9 \pm 2.5$ .
