
Ternary and Higher Order Iron Phase Diagram Updates

Ternary and quaternary iron phase diagrams have been critically evaluated and published as a series of monographs by the cooperating societies: ASM International, Indian Institute of Metals, and Institute of Materials (UK). Updates on multicomponent iron phase diagrams are published regularly in this journal.

This issue carries the second part of the updates on Fe-S-X and Fe-S-X₁-X₂ systems. The updated systems are: Co-Fe-S, Cr-Fe-S, Fe-Mn-S, Fe-Ni-S, Fe-S-Zn, Fe-Ga-S-Zn, and Fe-Ni-Pd-S.

This work was supported by the Indian Institute of Metals, Calcutta.
