

Bi-Cl (Bismuth-Chlorine)

H. Okamoto

The Bi-Cl phase diagram shown in Fig. 1 has been redrawn from [Massalski2] by including an additional new phase, $\text{Bi}_7\text{Cl}_{10}$, discovered by [2005Ham]. The peritectoid formation temperature of $\text{Bi}_7\text{Cl}_{10}$ is $190 \pm 5^\circ\text{C}$.

Bi-Cl crystal structure data are given in Table 1.
