Announcement

Femtochemistry: The Lausanne Conference, 4–8 September 1995, University of Lausanne, Switzerland

Chairman: Prof. M. Chergui, University of Lausanne

The central subject of the meeting concerns the chemical and physical processes taking place on the femtosecond timescale in different molecular media.

Topics covered include: gas phase reactions; complex molecular systems; biological systems; control and spectroscopy.

About 50 invited speakers are expected from the USA, Europe, Japan and Israel. They include: A.H. Zewail (Pasadena) and J. Jortner (Tel Aviv); R.S. Berry (Chicago); A.W. Castleman, Jr. (Pennsylvania); D. Chandler (Berkeley); D.C. Clary (Cambridge); K.B. Eisenthal (New York); W.H. Gadzuk (Gaithersburg); G. Gerber (Würzburg); R.B. Gerber (Jerusalem); J.R. Huber (Zürich), V.S. Letokhov (Troitzk); W.C. Lineberger (Boulder); J. Manz (Berlin); J. Troe (Gottingen); D.A. Wiersma (Groningen); C. Wittig (Los Angeles); K. Yoshihara (Okazaki).
