

Subject Index of Volume 92

Absorption

- structural effects on the reactivity for decarboxylation and absorption of aroyloxyl radicals generated by laser photolysis of diaryl peroxides, 53

Aggregation

- spectroscopic studies of supramolecule formation through cation-induced aggregation of phthalocyanine with four crown ether voids, 35

Alkali metal cation

- the effect of ion-exchanged alkali metal cations on the excited states of xanthone and the photolysis of 2-pentanone included within zeolite cavities, 85

Amines

- kinetic studies of the photochemical reaction of C₆₀ with amine in solution, 69

Amphiphiles

- stilbene-containing amphiphiles in supramolecular assemblies, 117

Anthracene bichromophoric compounds

- intramolecular charge transfer and exciplex formation in anthracene bichromophoric compounds, 29

Aroyloxyl radicals

- structural effects on the reactivity for decarboxylation and absorption of aroyloxyl radicals generated by laser photolysis of diaryl peroxides, 53

Azobenzene derivative

- polarized photoelectrochemical reaction of an azobenzene derivative in Langmuir–Blodgett films, 111

Carbazole derivatives

- photophysical processes of some carbazole derivatives, 25

Charged radical

- translational diffusion process of charged radicals: *N,N,N',N'*-tetramethyl-*p*-phenylenediamine and its cation radical, 7

Charge transfer

- control of photophysical properties of “wheel-and-axle-type” phosphorus(V) porphyrin dimers by electronic symmetry breaking, 39

- charge transfer from donor to photoexcited Ru(bpy)₃²⁺ in solution and polymer matrix, 47

Conducting polymer devices

- approaches to conducting polymer devices with nanostructures: photoelectrochemical function of one-dimensional and two-dimensional porphyrin polymers with oligothieryl molecular wire, 121

Coordination chemistry

- laser ablation-molecular beam (LAMB) method: coordination (solvation) chemistry of monovalent metal ions in the gas phase, 17

Crown ether

- spectroscopic studies of supramolecule formation through cation-induced aggregation of phthalocyanine with four crown ether voids, 35

Decarboxylation

- structural effects on the reactivity for decarboxylation and absorption of aroyloxyl radicals generated by laser photolysis of diaryl peroxides, 53

Diamond deposition

- pulsed UV laser irradiation of polymer surfaces, 129

Diaryl peroxides

- structural effects on the reactivity for decarboxylation and absorption of aroyloxyl radicals generated by laser photolysis of diaryl peroxides, 53

Dibenzoylmethane

- recovery mechanism of the reaction intermediate produced by photoinduced cleavage of the intramolecular hydrogen bond of dibenzoylmethane, 61

Dimers

- control of photophysical properties of “wheel-and-axle-type” phosphorus(V) porphyrin dimers by electronic symmetry breaking, 39

1,3-Dipolar addition

- 1,3-dipolar addition of nitrile ylide to olefins using the laser flash photolysis of 3-(biphenyl-4-yl)-2H-azirine, 73

Equilibrium constant

- the effect of intermolecular hydrogen bonding on the photo-induced electron transfer reaction of a naphthalene–triethylamine–alcohol system: estimation of the equilibrium constant for hydrogen bond formation from fluorescence quenching and reaction pathways, 79

Exciplex formation

- intramolecular charge transfer and exciplex formation in anthracene bichromophoric compounds, 29

Excitation spectra

- laser-induced fluorescence of jet-cooled chlorotoluene molecules, 1

Excited states

- the effect of ion-exchanged alkali metal cations on the excited states of xanthone and the photolysis of 2-pentanone included within zeolite cavities, 85

Fluorescence quenching

- the effect of intermolecular hydrogen bonding on the photo-induced electron transfer reaction of a naphthalene–triethylamine–alcohol system: estimation of the equilibrium constant for hydrogen bond formation from fluorescence quenching and reaction pathways, 79

Fullerenes

- kinetic studies of the photochemical reaction of C₆₀ with amine in solution, 69

Gas phase

- laser ablation-molecular beam (LAMB) method: coordination (solvation) chemistry of monovalent metal ions in the gas phase, 17

- Intermolecular hydrogen bonding
the effect of intermolecular hydrogen bonding on the photo-induced electron transfer reaction of a naphthalene-triethylamine-alcohol system: estimation of the equilibrium constant for hydrogen bond formation from fluorescence quenching and reaction pathways, 79
- Intramolecular charge transfer
intramolecular charge transfer and exciplex formation in anthracene bichromophoric compounds, 29
- Intramolecular hydrogen bond
recovery mechanism of the reaction intermediate produced by photoinduced cleavage of the intramolecular hydrogen bond of dibenzoylmethane, 61
- Inverse photochromism
inverse photochromism of substituted triphenylmethane dyes in poly(vinyl alcohol) films, 105
- Jet-cooled chlorotoluene
laser-induced fluorescence of jet-cooled chlorotoluene molecules, 1
- Kinetic studies
kinetic studies of the photochemical reaction of C₆₀ with amine in solution, 69
- Langmuir-Blodgett films
polarized photoelectrochemical reaction of an azobenzene derivative in Langmuir-Blodgett films, 111
- Laser-ablation
formation of molecular cluster anions by laser ablation of a metal target near a supersonic jet, 13
- Laser ablation molecular beam method
laser ablation-molecular beam (LAMB) method: coordination (solvation) chemistry of monopositive metal ions in the gas phase, 17
- Laser flash photolysis
1,3-dipolar addition of nitrile ylide to olefins using the laser flash photolysis of 3-(biphenyl-4-yl)-2H-azirine, 73
- Laser-induced fluorescence
laser-induced fluorescence of jet-cooled chlorotoluene molecules, 1
- Laser photolysis
structural effects on the reactivity for decarboxylation and absorption of aryloxy radicals generated by laser photolysis of diaryl peroxides, 53
- Lewis acid/base equilibrium
correlations between solvatochromism, Lewis acid-base equilibrium and photochromism of an indoline spiropyran, 99
- Merocyanine
photoelectrochromic properties of a spirobenzopyran derivative, 91
- Molecular cluster anions
formation of molecular cluster anions by laser ablation of a metal target near a supersonic jet, 13
- Monopositive metal ions
laser ablation-molecular beam (LAMB) method: coordination (solvation) chemistry of monopositive metal ions in the gas phase, 17
- Nanostructure
approaches to conducting polymer devices with nanostructures: photoelectrochemical function of one-dimensional and two-dimensional porphyrin polymers with oligothiényl molecular wire, 121
- Nano-structure fabrications
pulsed UV laser irradiation of polymer surfaces, 129
- Naphthalene-triethylamine-alcohol system
the effect of intermolecular hydrogen bonding on the photo-induced electron transfer reaction of a naphthalene-triethylamine-alcohol system: estimation of the equilibrium constant for hydrogen bond formation from fluorescence quenching and reaction pathways, 79
- Nitrile ylide
1,3-dipolar addition of nitrile ylide to olefins using the laser flash photolysis of 3-(biphenyl-4-yl)-2H-azirine, 73
- Oligothiényl molecular wire
approaches to conducting polymer devices with nanostructures: photoelectrochemical function of one-dimensional and two-dimensional porphyrin polymers with oligothiényl molecular wire, 121
- 2-Pentanone
the effect of ion-exchanged alkali metal cations on the excited states of xanthone and the photolysis of 2-pentanone included within zeolite cavities, 85
- Phosphorus(V) Porphyrin
control of photophysical properties of "wheel-and-axle-type" phosphorus(V) porphyrin dimers by electronic symmetry breaking, 39
- Photochromism
correlations between solvatochromism, Lewis acid-base equilibrium and photochromism of an indoline spiropyran, 99
- Photoelectrochemical function
approaches to conducting polymer devices with nanostructures: photoelectrochemical function of one-dimensional and two-dimensional porphyrin polymers with oligothiényl molecular wire, 121
- Photoelectrochemistry
polarized photoelectrochemical reaction of an azobenzene derivative in Langmuir-Blodgett films, 111
- Photoelectrochromism
photoelectrochromic properties of a spirobenzopyran derivative, 91
- Photoexcited Ru(bpy)₃²⁺
charge transfer from donor to photoexcited Ru(bpy)₃²⁺ in solution and polymer matrix, 47
- Photoinduced cleavage
recovery mechanism of the reaction intermediate produced by photoinduced cleavage of the intramolecular hydrogen bond of dibenzoylmethane, 61
- Photolysis
the effect of ion-exchanged alkali metal cations on the excited states of xanthone and the photolysis of 2-pentanone included within zeolite cavities, 85
- Phthalocyanine
spectroscopic studies of supramolecule formation through cation-induced aggregation of phthalocyanine with four crown ether voids, 35
- Polarized reaction
polarized photoelectrochemical reaction of an azobenzene derivative in Langmuir-Blodgett films, 111
- Polymer matrix
charge transfer from donor to photoexcited Ru(bpy)₃²⁺ in solution and polymer matrix, 47
- Polymer surfaces
pulsed UV laser irradiation of polymer surfaces, 129
- Poly(vinyl alcohol) films
inverse photochromism of substituted triphenylmethane dyes in poly(vinyl alcohol) films, 105

- Porphyrin polymers**
approaches to conducting polymer devices with nanostructures:
photoelectrochemical function of one-dimensional and two-dimensional porphyrin polymers with oligothieryl molecular wire, 121
- Pulsed UV-laser irradiation**
pulsed UV laser irradiation of polymer surfaces, 129
- Reaction intermediates**
recovery mechanism of the reaction intermediate produced by photoinduced cleavage of the intramolecular hydrogen bond of dibenzoylmethane, 61
- Reactive intermediate**
1,3-dipolar addition of nitrile ylide to olefins using the laser flash photolysis of 3-(biphenyl-4-yl)-2H-azirine, 73
- Recovery mechanisms**
recovery mechanism of the reaction intermediate produced by photoinduced cleavage of the intramolecular hydrogen bond of dibenzoylmethane, 61
- Solvatochromism**
correlations between solvatochromism, Lewis acid–base equilibrium and photochromism of an indoline spiropyran, 99
- Solvent effect**
1,3-dipolar addition of nitrile ylide to olefins using the laser flash photolysis of 3-(biphenyl-4-yl)-2H-azirine, 73
- Spirobenzopyran**
photoelectrochromic properties of a spirobenzopyran derivative, 91
- Spiropyran**
correlations between solvatochromism, Lewis acid–base equilibrium and photochromism of an indoline spiropyran, 99
- Stern–Volmer equation**
photophysical processes of some carbazole derivatives, 25
- Stilbene**
stilbene-containing amphiphiles in supramolecular assemblies, 117
- Substituted triphenylmethane dyes**
inverse photochromism of substituted triphenylmethane dyes in poly(vinyl alcohol) films, 105
- Supersonic jet**
formation of molecular cluster anions by laser ablation of a metal target near a supersonic jet, 13
- Supramolecular assemblies**
stilbene-containing amphiphiles in supramolecular assemblies, 117
- Supramolecular formation**
spectroscopic studies of supramolecule formation through cation-induced aggregation of phthalocyanine with four crown ether voids, 35
- Transient grating method**
translational diffusion process of charged radicals: *N,N,N',N'*-tetramethyl-*p*-phenylenediamine and its cation radical, 7
- Translational diffusion process**
translational diffusion process of charged radicals: *N,N,N',N'*-tetramethyl-*p*-phenylenediamine and its cation radical, 7
- Twisted intramolecular charge transfer**
photophysical processes of some carbazole derivatives, 25
- Xanthone**
the effect of ion-exchanged alkali metal cations on the excited states of xanthone and the photolysis of 2-pentanone included within zeolite cavities, 85
- Zeolite cavity**
the effect of ion-exchanged alkali metal cations on the excited states of xanthone and the photolysis of 2-pentanone included within zeolite cavities, 85
