

Subject Index of Volume 92

- Absorption**
structural effects on the reactivity for decarboxylation and absorption of aroyloxy radicals generated by laser photolysis of diaryl peroxides, 53
- Absorption spectra**
studies on absorption spectra of mixed zinc–cadmium sulphide microparticles stabilized in AOT–heptane–water and CTAB–chloroform–water inverse micellar systems, 189
- Acetonitrile**
characterization of $[\text{Fe}(\text{o-phen})_3][\text{Ni}(\text{CS}_3)_2]$ as a photosensitizer for wide-band gap semiconductor (ZnO) electrodes in acetonitrile media, 207
- Acridine orange**
kinetics of one-electron reduction of acridine orange and characterization of its semireduced species in aqueous solutions by pulse radiolysis, 181
- Aggregation**
spectroscopic studies of supramolecule formation through cation-induced aggregation of phthalocyanine with four crown ether voids, 35
- Alkali metal cation**
the effect of ion-exchanged alkali metal cations on the excited states of xanthone and the photolysis of 2-pentanone included within zeolite cavities, 85
- Aluminium film**
polymer light-sensitive layers for photochemical etching of Al films, 223
- Ambident organic anions**
photophysics of ambident organic anions I, 155
- Amines**
kinetic studies of the photochemical reaction of C_{60} with amine in solution, 69
- Amino acids**
the photolysis ($\lambda = 254 \text{ nm}$) of tyrosine in aqueous solutions in the absence and presence of oxygen. The reaction of tyrosine with singlet oxygen, 147
- Aminocoumarins**
fast dynamic excited state proton transfer (ESPT) reaction of weak oxoaromatic bases. Aminocoumarins with fixed amino group, 163
- Amphiphiles**
stilbene-containing amphiphiles in supramolecular assemblies, 117
- Anthracene bichromophoric compounds**
intramolecular charge transfer and exciplex formation in anthracene bichromophoric compounds, 29
- Aroyloxy radicals**
structural effects on the reactivity for decarboxylation and absorption of aroyloxy radicals generated by laser photolysis of diaryl peroxides, 53
- Autocatalytic amplification**
polymer light-sensitive layers for photochemical etching of Al films, 223
- Azobenzene derivative**
polarized photoelectrochemical reaction of an azobenzene derivative in Langmuir–Blodgett films, 111
- Carbazole derivatives**
photophysical processes of some carbazole derivatives, 25
- Charged radical**
translational diffusion process of charged radicals: N,N,N',N' -tetramethyl-*p*-phenylenediamine and its cation radical, 7
- Charge transfer**
control of photophysical properties of “wheel-and-axle-type” phosphorus(V) porphyrin dimers by electronic symmetry breaking, 39
charge transfer from donor to photoexcited $\text{Ru}(\text{bpy})_3^{2+}$ in solution and polymer matrix, 47
- Chelation**
novel chelation of photochromic spironaphthoxazines to divalent metal ions, 193
- Conducting polymer devices**
approaches to conducting polymer devices with nanostructures: photoelectrochemical function of one-dimensional and two-dimensional porphyrin polymers with oligothiophenyl molecular wire, 121
- Coordination chemistry**
laser ablation-molecular beam (LAMB) method: coordination (solvation) chemistry of monovalent metal ions in the gas phase, 17
- Crown ether**
spectroscopic studies of supramolecule formation through cation-induced aggregation of phthalocyanine with four crown ether voids, 35
- Decarboxylation**
structural effects on the reactivity for decarboxylation and absorption of aroyloxy radicals generated by laser photolysis of diaryl peroxides, 53
- Decatungstate anion**
photoinduced reduction of $\text{W}_{10}\text{O}_{32}^{4-}$ by organic compounds in aqueous solution, 173
- Diamond deposition**
pulsed UV laser irradiation of polymer surfaces, 129
- Diaryl peroxides**
structural effects on the reactivity for decarboxylation and absorption of aroyloxy radicals generated by laser photolysis of diaryl peroxides, 53
- Dibenzoylmethane**
recovery mechanism of the reaction intermediate produced by photoinduced cleavage of the intramolecular hydrogen bond of dibenzoylmethane, 61
- Dimers**
control of photophysical properties of “wheel-and-axle-type” phosphorus(V) porphyrin dimers by electronic symmetry breaking, 39

- 1,3-Dipolar addition
 1,3-dipolar addition of nitrile ylide to olefins using the laser flash photolysis of 3-(biphenyl-4-yl)-2H-azirine, 73
- Dry photochemical etching
 polymer light-sensitive layers for photochemical etching of Al films, 223
- Equilibrium constant
 the effect of intermolecular hydrogen bonding on the photo-induced electron transfer reaction of a naphthalene-triethylamine-alcohol system: estimation of the equilibrium constant for hydrogen bond formation from fluorescence quenching and reaction pathways, 79
- Exciplex formation
 intramolecular charge transfer and exciplex formation in anthracene bichromophoric compounds, 29
- Excitation spectra
 laser-induced fluorescence of jet-cooled chlorotoluene molecules, 1
- Excited state proton transfer
 fast dynamic excited state proton transfer (ESPT) reaction of weak oxoaromatic bases. Aminocoumarins with fixed amino group, 163
- Excited states
 the effect of ion-exchanged alkali metal cations on the excited states of xanthone and the photolysis of 2-pentanone included within zeolite cavities, 85
- Fluorescence
 1,3-di-2,2'-naphthylpropane as a fluorescent probe for silica surfaces, 201
- Fluorescence quenching
 the effect of intermolecular hydrogen bonding on the photo-induced electron transfer reaction of a naphthalene-triethylamine-alcohol system: estimation of the equilibrium constant for hydrogen bond formation from fluorescence quenching and reaction pathways, 79
- Fluorescent probe
 1,3-di-2,2'-naphthylpropane as a fluorescent probe for silica surfaces, 201
- Fullerenes
 kinetic studies of the photochemical reaction of C₆₀ with amine in solution, 69
- Gas phase
 laser ablation-molecular beam (LAMB) method: coordination (solvation) chemistry of monovalent metal ions in the gas phase, 17
- Ground state
 fast dynamic excited state proton transfer (ESPT) reaction of weak oxoaromatic bases. Aminocoumarins with fixed amino group, 163
- Hydroquinone
 characterization of [Fe(o-phen)₃][Ni(CS₃)₂] as a photosensitizer for wide-band gap semiconductor (ZnO) electrodes in acetonitrile media, 207
- Intermolecular hydrogen bonding
 the effect of intermolecular hydrogen bonding on the photo-induced electron transfer reaction of a naphthalene-triethylamine-alcohol system: estimation of the equilibrium constant for hydrogen bond formation from fluorescence quenching and reaction pathways, 79
- Intramolecular charge transfer
 intramolecular charge transfer and exciplex formation in anthracene bichromophoric compounds, 29
- Intramolecular hydrogen bond
 recovery mechanism of the reaction intermediate produced by photoinduced cleavage of the intramolecular hydrogen bond of dibenzoylmethane, 61
- Intramolecular processes
 1,3-di-2,2'-naphthylpropane as a fluorescent probe for silica surfaces, 201
- Inverse micellar systems
 studies on absorption spectra of mixed zinc-cadmium sulphide microparticles stabilized in AOT-heptane-water and CTAB-chloroform-water inverse micellar systems, 189
- Inverse photochromism
 inverse photochromism of substituted triphenylmethane dyes in poly(vinyl alcohol) films, 105
- Jet-cooled chlorotoluene
 laser-induced fluorescence of jet-cooled chlorotoluene molecules, 1
- Kinetics
 kinetics of one-electron reduction of acridine orange and characterization of its semireduced species in aqueous solutions by pulse radiolysis, 181
- Kinetic studies
 kinetic studies of the photochemical reaction of C₆₀ with amine in solution, 69
- Langmuir-Blodgett films
 polarized photoelectrochemical reaction of an azobenzene derivative in Langmuir-Blodgett films, 111
- Laser-ablation
 formation of molecular cluster anions by laser ablation of a metal target near a supersonic jet, 13
- Laser ablation molecular beam method
 laser ablation-molecular beam (LAMB) method: coordination (solvation) chemistry of monovalent metal ions in the gas phase, 17
- Laser flash photolysis
 1,3-dipolar addition of nitrile ylide to olefins using the laser flash photolysis of 3-(biphenyl-4-yl)-2H-azirine, 73
- Laser-induced fluorescence
 laser-induced fluorescence of jet-cooled chlorotoluene molecules, 1
- Laser photolysis
 structural effects on the reactivity for decarboxylation and absorption of aryloxy radicals generated by laser photolysis of diaryl peroxides, 53
- Laser radical generation
 photochemistry of the photoinitiator 4-[2'-N,N-(diethylamino)ethoxy]- benzophenone. Spectroscopy, radical generation and quenching, 213
- Laser spectroscopy
 photochemistry of the photoinitiator 4-[2'-N,N-(diethylamino)ethoxy]- benzophenone. Spectroscopy, radical generation and quenching, 213
- Lewis acid/base equilibrium
 correlations between solvatochromism, Lewis acid-base equilibrium and photochromism of an indoline spiroopyran, 99
- Light-sensitive charge transfer complex
 polymer light-sensitive layers for photochemical etching of Al films, 223
- Me₃SiH
 Hg-sensitized photolysis of Me₃SiH. II. The role of the sensitizer, 141

- Mercury-sensitized photolysis
 Hg-sensitized photolysis of Me_3SiH . II. The role of the sensitizer, 141
- Merocyanine
 photoelectrochromic properties of a spirobenzopyran derivative, 91
- Molecular cluster anions
 formation of molecular cluster anions by laser ablation of a metal target near a supersonic jet, 13
- Monopositive metal ions
 laser ablation-molecular beam (LAMB) method: coordination (solvation) chemistry of monopositive metal ions in the gas phase, 17
- Nanostructure
 approaches to conducting polymer devices with nanostructures: photoelectrochemical function of one-dimensional and two-dimensional porphyrin polymers with oligothieryl molecular wire, 121
- Nano-structure fabrications
 pulsed UV laser irradiation of polymer surfaces, 129
- Naphthalene-triethylamine-alcohol system
 the effect of intermolecular hydrogen bonding on the photo-induced electron transfer reaction of a naphthalene-triethylamine-alcohol system: estimation of the equilibrium constant for hydrogen bond formation from fluorescence quenching and reaction pathways, 79
- 1,3-di-2,2'-Naphthylpropane
 1,3-di-2,2'-naphthylpropane as a fluorescent probe for silica surfaces, 201
- Nitrile ylide
 1,3-dipolar addition of nitrile ylide to olefins using the laser flash photolysis of 3-(biphenyl-4-yl)-2H-azirine, 73
- Oligothieryl molecular wire
 approaches to conducting polymer devices with nanostructures: photoelectrochemical function of one-dimensional and two-dimensional porphyrin polymers with oligothieryl molecular wire, 121
- One-electron reduction
 kinetics of one-electron reduction of acridine orange and characterization of its semireduced species in aqueous solutions by pulse radiolysis, 181
- Organic compounds
 photoinduced reduction of $\text{W}_{10}\text{O}_{32}^{4-}$ by organic compounds in aqueous solution, 173
- 2-Pentanone
 the effect of ion-exchanged alkali metal cations on the excited states of xanthone and the photolysis of 2-pentanone included within zeolite cavities, 85
- Phosphorus(V) Porphyrin
 control of photophysical properties of "wheel-and-axle-type" phosphorus(V) porphyrin dimers by electronic symmetry breaking, 39
- Photochromism
 correlations between solvatochromism, Lewis acid-base equilibrium and photochromism of an indoline spiroopyran, 99
 novel chelation of photochromic spironaphthoxazines to divalent metal ions, 193
- Photoelectrochemical function
 approaches to conducting polymer devices with nanostructures: photoelectrochemical function of one-dimensional and two-dimensional porphyrin polymers with oligothieryl molecular wire, 121
- Photoelectrochemistry
 polarized photoelectrochemical reaction of an azobenzene derivative in Langmuir-Blodgett films, 111
- Photoelectrochromism
 photoelectrochromic properties of a spirobenzopyran derivative, 91
- Photoexcited $\text{Ru}(\text{bpy})_3^{2+}$
 charge transfer from donor to photoexcited $\text{Ru}(\text{bpy})_3^{2+}$ in solution and polymer matrix, 47
- Photoinduced cleavage
 recovery mechanism of the reaction intermediate produced by photoinduced cleavage of the intramolecular hydrogen bond of dibenzoylmethane, 61
- Photoinitiators
 photochemistry of the photoinitiator 4-[2'-*N,N*-(diethylamino)ethoxy]-benzophenone. Spectroscopy, radical generation and quenching, 213
- Photolysis
 the effect of ion-exchanged alkali metal cations on the excited states of xanthone and the photolysis of 2-pentanone included within zeolite cavities, 85
 Hg-sensitized photolysis of Me_3SiH . II. The role of the sensitizer, 141
 the photolysis ($\lambda = 254 \text{ nm}$) of tyrosine in aqueous solutions in the absence and presence of oxygen. The reaction of tyrosine with singlet oxygen, 147
- Photoreduction
 photoinduced reduction of $\text{W}_{10}\text{O}_{32}^{4-}$ by organic compounds in aqueous solution, 173
- Photosensitizer
 characterization of $[\text{Fe}(\text{o-phen})_3][\text{Ni}(\text{CS}_3)_2]$ as a photosensitizer for wide-band gap semiconductor (ZnO) electrodes in acetonitrile media, 207
- Phthalimide photophysics
 photophysics of ambident organic anions I, 155
- Phthalocyanine
 spectroscopic studies of supramolecule formation through cation-induced aggregation of phthalocyanine with four crown ether voids, 35
- Polarized reaction
 polarized photoelectrochemical reaction of an azobenzene derivative in Langmuir-Blodgett films, 111
- Polymer layer
 polymer light-sensitive layers for photochemical etching of Al films, 223
- Polymer matrix
 charge transfer from donor to photoexcited $\text{Ru}(\text{bpy})_3^{2+}$ in solution and polymer matrix, 47
- Polymer surfaces
 pulsed UV laser irradiation of polymer surfaces, 129
- Polyoxotungstate
 photoinduced reduction of $\text{W}_{10}\text{O}_{32}^{4-}$ by organic compounds in aqueous solution, 173
- Poly(vinyl) alcohol films
 inverse photochromism of substituted triphenylmethane dyes in poly(vinyl alcohol) films, 105
- Porphyrin polymers
 approaches to conducting polymer devices with nanostructures: photoelectrochemical function of one-dimensional and two-dimensional porphyrin polymers with oligothieryl molecular wire, 121
- Pulsed UV-laser irradiation
 pulsed UV laser irradiation of polymer surfaces, 129

- Pulse radiolysis
kinetics of one-electron reduction of acridine orange and characterization of its semireduced species in aqueous solutions by pulse radiolysis, 181
- Radical attack
Hg-sensitized photolysis of Me₃SiH. II. The role of the sensitizer, 141
- Reaction intermediates
recovery mechanism of the reaction intermediate produced by photoinduced cleavage of the intramolecular hydrogen bond of dibenzoylmethane, 61
- Reactive intermediate
1,3-dipolar addition of nitrile ylide to olefins using the laser flash photolysis of 3-(biphenyl-4-yl)-2H-azirine, 73
- Recovery mechanisms
recovery mechanism of the reaction intermediate produced by photoinduced cleavage of the intramolecular hydrogen bond of dibenzoylmethane, 61
- Saccharin photophysics
photophysics of ambident organic anions I, 155
- Singlet excimer
1,3-di-2,2'-naphthylpropane as a fluorescent probe for silica surfaces, 201
- Singlet oxygen
the photolysis ($\lambda = 254$ nm) of tyrosine in aqueous solutions in the absence and presence of oxygen. The reaction of tyrosine with singlet oxygen, 147
- Solvatochromism
correlations between solvatochromism, Lewis acid–base equilibrium and photochromism of an indoline spiropyran, 99
- Solvent effect
1,3-dipolar addition of nitrile ylide to olefins using the laser flash photolysis of 3-(biphenyl-4-yl)-2H-azirine, 73
- Solvent effects
photophysics of ambident organic anions I, 155
- Spirobenzopyran
photoelectrochromic properties of a spirobenzopyran derivative, 91
- Spiroanthoxazine
novel chelation of photochromic spiroanthoxazines to divalent metal ions, 193
- Spiropyran
correlations between solvatochromism, Lewis acid–base equilibrium and photochromism of an indoline spiropyran, 99
- Stern–Volmer equation
photophysical processes of some carbazole derivatives, 25
- Stilbene
stilbene-containing amphiphiles in supramolecular assemblies, 117
- Substituted triphenylmethane dyes
inverse photochromism of substituted triphenylmethane dyes in poly(vinyl alcohol) films, 105
- Supersonic jet
formation of molecular cluster anions by laser ablation of a metal target near a supersonic jet, 13
- Supramolecular assemblies
stilbene-containing amphiphiles in supramolecular assemblies, 117
- Supramolecular formation
spectroscopic studies of supramolecule formation through cation-induced aggregation of phthalocyanine with four crown ether voids, 35
- Surface catalysed reaction
Hg-sensitized photolysis of Me₃SiH. II. The role of the sensitizer, 141
- Transient grating method
translational diffusion process of charged radicals: *N,N,N',N'*-tetramethyl-*p*-phenylenediamine and its cation radical, 7
- Translational diffusion process
translational diffusion process of charged radicals: *N,N,N',N'*-tetramethyl-*p*-phenylenediamine and its cation radical, 7
- Twisted intramolecular charge transfer
photophysical processes of some carbazole derivatives, 25
- Tyrosine
the photolysis ($\lambda = 254$ nm) of tyrosine in aqueous solutions in the absence and presence of oxygen. The reaction of tyrosine with singlet oxygen, 147
- Xanthone
the effect of ion-exchanged alkali metal cations on the excited states of xanthone and the photolysis of 2-pentanone included within zeolite cavities, 85
- Zeolite cavity
the effect of ion-exchanged alkali metal cations on the excited states of xanthone and the photolysis of 2-pentanone included within zeolite cavities, 85
- Zinc–cadmium sulphide microparticles
studies on absorption spectra of mixed zinc–cadmium sulphide microparticles stabilized in AOT–heptane–water and CTAB–chloroform–water inverse micellar systems, 189
- ZnO electrode
characterization of [Fe(o-phen)₃][Ni(CS₃)₂] as a photosensitizer for wide-band gap semiconductor (ZnO) electrodes in acetonitrile media, 207
