

Subject Index of Volume 101

- Acidity constants
excited state tautomerization of camptothecin in aqueous solution, 21
- Acridine
excimer fluorescence from acridine and diaza-heterocyclic hydrocarbons in non-polar media at low temperatures, 137
- Alkene
photochemical intramolecular γ -hydrogen abstraction in a ketone and an alkene and the role of tunneling of hydrogen, 189
- Amides
the photochemistry of amides and amide derivatives. 3: The photolysis of methyl-2-phenoxybenzohydroxamate, 197
- 2-(2'-Aminophenyl)benzimidazole
spectral characteristics of 2-(2'-aminophenyl)benzimidazole in β -cyclodextrin, 221
- Azobenzene
photochemistry of azobenzenophanes with three-membered bridges, 205
- Bengal Rose
photodegradation of lignin: the role of singlet oxygen, 69
- Benzo[a]phenothiazines
a solvatochromic study of new benzo[a]phenothiazines for the determination of dipole moments and specific solute-solvent interactions in the first excited singlet state, 127
- Camptothecin
excited state tautomerization of camptothecin in aqueous solution, 21
- $\text{CH}_3\text{COCOCH}_3$
photochemistry of adsorbed biacetyl: desorption and photofragmentation, 229
- Chemical adsorption
photoluminescence studies on the interaction of near-surface GaAs/ $\text{Al}_x\text{Ga}_{1-x}\text{As}$ quantum wells with chemical adsorbates, 113
- Chlorine dioxide
mechanism of chlorine dioxide photodissociation in condensed media, 105
- Chlorophyll emission
peroxidase-catalysed chlorophyll destruction accompanied by the formation of electronically excited states: chlorophyll emission not due to energy transfer from excited substrate metabolites, 49
- Cholesterol effect
determination of the partition coefficient of 1-naphthol, an excited state acid, in DMPC membrane, 215
- CIDEP
photoreduction of flavone: identification of the photoproducts and reaction mechanism, 201
- Circular dichroism
excited state tautomerization of camptothecin in aqueous solution, 21
- Conformational isomers
ground and excited singlet states of 2-vinylnaphthalene, ethyl-2-naphthylacrylate and *N,N*-dimethyl-2-naphthylacrylamide in solution, 151
- Elsevier Science S.A.
- Critical micellar concentration
fluorescence polarization anisotropy as a novel tool for the determination of critical micellar concentrations, 241
- β -Cyclodextrin
spectral characteristics of 2-(2'-aminophenyl)benzimidazole in β -cyclodextrin, 221
- Cytochrome c_3
kinetic studies of electron transfer on photoinduced hydrogen evolution with hydrogenase, 45
- Deformation
fluorescence study of some deformed zinc(II) porphyrins, 7
- Diastereoisomer
photoreduction of flavone: identification of the photoproducts and reaction mechanism, 201
- Dipole moments
a solvatochromic study of new benzo[a]phenothiazines for the determination of dipole moments and specific solute-solvent interactions in the first excited singlet state, 127
- DMPC liposomes
determination of the partition coefficient of 1-naphthol, an excited state acid, in DMPC membrane, 215
- Dosimetry
the use of Riso B3 film gamma dosimeter for monitoring ultraviolet radiation, 63
- Electronic spectra
deactivation processes of the excited states of 3-hetarylmethylene-1(3H)-isobenzofuranones in solution: possibility of the formation of intermolecular hydrogen bonds, 145
- Electron paramagnetic resonance
counterion and position-dependent methylation effects on the excited states of zinc(II) complexes with 1,10-phenanthroline, 257
- Electron spin resonance
mechanism of chlorine dioxide photodissociation in condensed media, 105
- Electron transfer
kinetic studies of electron transfer on photoinduced hydrogen evolution with hydrogenase, 45
quenching of the excited singlet state of the *N*-(9-methylpurin-6-yl)pyridinium cation by sulphur-containing amino acids and carboxylic acids in aqueous solution, 163
the photochemistry of amides and amide derivatives. 3: The photolysis of methyl-2-phenoxybenzohydroxamate, 197
- Electron transfer rate
the interplay between steric hindrance and exergonicity in the rates of excited state quenching, 183
- Emission spectrum
counterion and position-dependent methylation effects on the excited states of zinc(II) complexes with 1,10-phenanthroline, 257

- Energy transfer
peroxidase-catalysed chlorophyll destruction accompanied by the formation of electronically excited states: chlorophyll emission not due to energy transfer from excited substrate metabolites, 49
- Excimer
excimer fluorescence from acridine and diaza-heterocyclic hydrocarbons in non-polar media at low temperatures, 137
- Excited state proton transfer
determination of the partition coefficient of 1-naphthol, an excited state acid, in DMPC membrane, 215
- Excited state prototropic equilibrium
determination of the partition coefficient of 1-naphthol, an excited state acid, in DMPC membrane, 215
- E-Z* Photoisomerization
photochemistry of *N*-benzylideneanilinium cations in concentrated sulphuric acid solutions, 185
- First excited singlet state
a solvatochromic study of new benzo[a]phenothiazines for the determination of dipole moments and specific solute–solvent interactions in the first excited singlet state, 127
- Flash photolysis
an investigation of the triplet state properties of 1,8-naphthalimide: a laser flash photolysis study, 29
photochemical and photophysical processes in fac-Re(CO)₃-(4-phenylpyridine)₃(CF₃SO₃). Steady state and flash photolysis study, 119
- Flavone
photoreduction of flavone: identification of the photoproducts and reaction mechanism, 201
- Flavonoid photophysics
influence of methoxy substitution on flavonoid photophysics: a steady state and laser flash photolysis study, 11
- Fluidity probe
bis-MSB, a laser dye as a polarization probe for microheterogeneous media, 245
- Fluorescence
fluorescence study of some deformed zinc(II) porphyrins, 7
excited state tautomerization of camptothecin in aqueous solution, 21
photochemistry in porous materials. IV. Oxygen quenching of the fluorescence of fluoranthenes adsorbed on silica gel differing in pore size, 75
excimer fluorescence from acridine and diaza-heterocyclic hydrocarbons in non-polar media at low temperatures, 137
spectroscopic and morphological studies of 3-(2-benzothiazolyl)-7-hexadecyloxycoumarin assembled in Langmuir–Blodgett films, 233
- Fluorescence lifetime
counterion and position-dependent methylation effects on the excited states of zinc(II) complexes with 1,10-phenanthroline, 257
- Fluorescence microscopy
spectroscopic and morphological studies of 3-(2-benzothiazolyl)-7-hexadecyloxycoumarin assembled in Langmuir–Blodgett films, 233
- Fluorescence polarization
bis-MSB, a laser dye as a polarization probe for microheterogeneous media, 245
- Fluorescence polarization anisotropy
fluorescence polarization anisotropy as a novel tool for the determination of critical micellar concentrations, 241
- Fluorescence quenching
quenching of the excited singlet state of the *N*-(9-methylpurin-6-yl)pyridinium cation by sulphur-containing amino acids and carboxylic acids in aqueous solution, 163
- Fluoroanthenes
photochemistry in porous materials. IV. Oxygen quenching of the fluorescence of fluoranthenes adsorbed on silica gel differing in pore size, 75
- Fluorescence
ground and excited singlet states of 2-vinylnaphthalene, ethyl-2-naphthylacrylate and *N,N*-dimethyl-2-naphthylacrylamide in solution, 151
- 3-Hetarylmethylene-1(3H)-isobenzofuranones
deactivation processes of the excited states of 3-hetarylmethylene-1(3H)-isobenzofuranones in solution: possibility of the formation of intermolecular hydrogen bonds, 145
- Heteroaromatics
excimer fluorescence from acridine and diaza-heterocyclic hydrocarbons in non-polar media at low temperatures, 137
- Heterocycles
deactivation processes of the excited states of 3-hetarylmethylene-1(3H)-isobenzofuranones in solution: possibility of the formation of intermolecular hydrogen bonds, 145
- β -Homo-tyrosine
the photophysics of β -homo-tyrosine and its simple derivatives, 171
- γ -Hydrogen abstraction
photochemical intramolecular γ -hydrogen abstraction in a ketone and an alkene and the role of tunneling of hydrogen, 189
photoreduction of flavone: identification of the photoproducts and reaction mechanism, 201
- Hydrogenase
kinetic studies of electron transfer on photoinduced hydrogen evolution with hydrogenase, 45
- Hydrogen tunnelling
photochemical intramolecular γ -hydrogen abstraction in a ketone and an alkene and the role of tunneling of hydrogen, 189
- Hydroxamate
the photochemistry of amides and amide derivatives. 3: The photolysis of methyl-2-phenoxybenzohydroxamate, 197
- 7-Hydroxyflavone
fluorescence polarization anisotropy as a novel tool for the determination of critical micellar concentrations, 241
- Intermolecular hydrogen bonds
deactivation processes of the excited states of 3-hetarylmethylene-1(3H)-isobenzofuranones in solution: possibility of the formation of intermolecular hydrogen bonds, 145
- J aggregates
spectroscopic and morphological studies of 3-(2-benzothiazolyl)-7-hexadecyloxycoumarin assembled in Langmuir–Blodgett films, 233
- Ketocyanine dyes
solution photophysics of ketocyanine dyes in neat and mixed binary solvents, 57
- Ketone
photochemical intramolecular γ -hydrogen abstraction in a ketone and an alkene and the role of tunneling of hydrogen, 189
- Kinetics
mechanism of chlorine dioxide photodissociation in condensed media, 105
- Langmuir–Blodgett films
spectroscopic and morphological studies of 3-(2-benzothiazolyl)-7-hexadecyloxycoumarin assembled in Langmuir–Blodgett films, 233
- Laser dye
bis-MSB, a laser dye as a polarization probe for microheterogeneous media, 245

- Laser flash photolysis
influence of methoxy substitution on flavonoid photophysics: a steady state and laser flash photolysis study, 11
- Laser-induced desorption
photochemistry of adsorbed biacetyl: desorption and photo-fragmentation, 229
- Laser photolysis
ArF laser dissociation of trisilane, 1
- Lignin
photodegradation of lignin: the role of singlet oxygen, 69
- Liposomes
bis-MSB, a laser dye as a polarization probe for microheterogeneous media, 245
- Mauser diagrams
photochemistry of azobenzenophanes with three-membered bridges, 205
- Methanol
photolysis of 3-phenyl-4-phenylethynylcyclobut-3-en-*trans*-1,2-dicarboxylic acid dimethyl ester in methanol, 39
- Methoxy substitution
influence of methoxy substitution on flavonoid photophysics: a steady state and laser flash photolysis study, 11
- Methyl-1,10-phenanthroline
counterion and position-dependent methylation effects on the excited states of zinc(II) complexes with 1,10-phenanthroline, 257
- Multiquantum well
photoluminescence studies on the interaction of near-surface GaAs/ $\text{Al}_x\text{Ga}_{1-x}\text{As}$ quantum wells with chemical adsorbates, 113
- 1,8-Naphthalimide
an investigation of the triplet state properties of 1,8-naphthalimide: a laser flash photolysis study, 29
- N*-benzylideneanilinium cations
photochemistry of *N*-benzylideneanilinium cations in concentrated sulphuric acid solutions, 185
- Neat and mixed binary solvents
solution photophysics of ketocyanine dyes in neat and mixed binary solvents, 57
- Nitrate ion
the photochemistry of aqueous nitrate ion revisited, 89
- Nitric oxide peroxy radical
the photochemistry of aqueous nitrate ion revisited, 89
- Oxygen quenching
photochemistry in porous materials. IV. Oxygen quenching of the fluorescence of fluoranthenes adsorbed on silica gel differing in pore size, 75
- Ozone
photocatalytic water treatment on immobilized TiO_2 combined with ozonation, 85
mechanism of chlorine dioxide photodissociation in condensed media, 105
- Peroxidase-catalysed chlorophyll destruction
peroxidase-catalysed chlorophyll destruction accompanied by the formation of electronically excited states: chlorophyll emission not due to energy transfer from excited substrate metabolites, 49
- Peroxy nitrite
the photochemistry of aqueous nitrate ion revisited, 89
- Phane
photochemistry of azobenzenophanes with three-membered bridges, 205
- Phase transitions
determination of the partition coefficient of 1-naphthol, an excited state acid, in DMPC membrane, 215
- bis-MSB, a laser dye as a polarization probe for microheterogeneous media, 245
- Phenol
photocatalytic water treatment on immobilized TiO_2 combined with ozonation, 85
- Phenosafranin
fluorescence polarization anisotropy as a novel tool for the determination of critical micellar concentrations, 241
- 3-Phenyl-4-phenylethynylcyclobut-3-en-*trans*-1,2-dicarboxylic acid dimethyl ester
photolysis of 3-phenyl-4-phenylethynylcyclobut-3-en-*trans*-1,2-dicarboxylic acid dimethyl ester in methanol, 39
- Phenyl migration
the photochemistry of amides and amide derivatives. 3: The photolysis of methyl-2-phenoxybenzohydroxamate, 197
- Photoaddition of amines
ground and excited singlet states of 2-vinylnaphthalene, ethyl-2-naphthylacrylate and *N,N*-dimethyl-2-naphthylacrylamide in solution, 151
- Photocatalysed decomposition
titanium dioxide-photocatalysed decomposition of some thiocarbamates in water, 251
- Photocatalyst
photocatalytic water treatment on immobilized TiO_2 combined with ozonation, 85
- Photochemistry
the photochemistry of aqueous nitrate ion revisited, 89
- Photochromism
the effects of 3,5-substitutions on the photochromism and photoisomerization of some 2,3,4,4,5,6-hexasubstituted 4H-thiopyrans, 33
- Photodegradation
photodegradation of lignin: the role of singlet oxygen, 69
- Photodissociation
mechanism of chlorine dioxide photodissociation in condensed media, 105
- Photo-electron transfer reaction
an investigation of the triplet state properties of 1,8-naphthalimide: a laser flash photolysis study, 29
- Photofragmentation
photochemistry of adsorbed biacetyl: desorption and photo-fragmentation, 229
- Photofragment fluorescence
ArF laser dissociation of trisilane, 1
- Photoinduced hydrogen evolution
kinetic studies of electron transfer on photoinduced hydrogen evolution with hydrogenase, 45
- Photoisomerization
the effects of 3,5-substitutions on the photochromism and photoisomerization of some 2,3,4,4,5,6-hexasubstituted 4H-thiopyrans, 33
ground and excited singlet states of 2-vinylnaphthalene, ethyl-2-naphthylacrylate and *N,N*-dimethyl-2-naphthylacrylamide in solution, 151
photochemistry of azobenzenophanes with three-membered bridges, 205
- Photoluminescence
photoluminescence studies on the interaction of near-surface GaAs/ $\text{Al}_x\text{Ga}_{1-x}\text{As}$ quantum wells with chemical adsorbates, 113
- Photolysis
photolysis of 3-phenyl-4-phenylethynylcyclobut-3-en-*trans*-1,2-dicarboxylic acid dimethyl ester in methanol, 39
- Photophysics
the photophysics of β -homo-tyrosine and its simple derivatives, 171
- Photoreduction
photoreduction of flavone: identification of the photoproducts and reaction mechanism, 201

- Plastic film
the use of Riso B3 film gamma dosimeter for monitoring ultraviolet radiation, 63
- Porous materials
photochemistry in porous materials. IV. Oxygen quenching of the fluorescence of fluoranthenes adsorbed on silica gel differing in pore size, 75
- 1-Pyrene carboxaldehyde
fluorescence polarization anisotropy as a novel tool for the determination of critical micellar concentrations, 241
- Pyridinium cation
quenching of the excited singlet state of the *N*-(9-methylpurin-6-yl)pyridinium cation by sulphur-containing amino acids and carboxylic acids in aqueous solution, 163
- Quantum yields
photochemistry of *N*-benzylideneanilinium cations in concentrated sulphuric acid solutions, 185
- Re complexes
photochemical and photophysical processes in fac-Re(CO)₃-(4-phenylpyridine)₃(CF₃SO₃). Steady state and flash photolysis study, 119
- Silica gel
photochemistry in porous materials. IV. Oxygen quenching of the fluorescence of fluoranthenes adsorbed on silica gel differing in pore size, 75
- Singlet oxygen
photodegradation of lignin: the role of singlet oxygen, 69
- Singlet states
quenching of the excited singlet state of the *N*-(9-methylpurin-6-yl)pyridinium cation by sulphur-containing amino acids and carboxylic acids in aqueous solution, 163
- Solute–solvent interactions
a solvatochromic study of new benzo[a]phenothiazines for the determination of dipole moments and specific solute–solvent interactions in the first excited singlet state, 127
- Solution photophysics
solution photophysics of ketocyanine dyes in neat and mixed binary solvents, 57
- Solvatochromic study
a solvatochromic study of new benzo[a]phenothiazines for the determination of dipole moments and specific solute–solvent interactions in the first excited singlet state, 127
- Spectral characteristics
spectral characteristics of 2-(2'-aminophenyl)benzimidazole in β-cyclodextrin, 221
- Spectral sensitivity
the use of Riso B3 film gamma dosimeter for monitoring ultraviolet radiation, 63
- Spectrophotometry
the use of Riso B3 film gamma dosimeter for monitoring ultraviolet radiation, 63
- Steady state photolysis
influence of methoxy substitution on flavonoid photophysics: a steady state and laser flash photolysis study, 11
photochemical and photophysical processes in fac-Re(CO)₃-(4-phenylpyridine)₃(CF₃SO₃). Steady state and flash photolysis study, 119
- Steric hindrance
the interplay between steric hindrance and exergonicity in the rates of excited state quenching, 183
- Sulphur-containing amino acids and carboxylic acids
quenching of the excited singlet state of the *N*-(9-methylpurin-6-yl)pyridinium cation by sulphur-containing amino acids and carboxylic acids in aqueous solution, 163
- Tautomerization
excited state tautomerization of camptothecin in aqueous solution, 21
- Tetrazetidine
photochemistry of azobenzenophanes with three-membered bridges, 205
- Thiocarbamates
titanium dioxide-photocatalysed decomposition of some thiocarbamates in water, 251
- 4H-Thiopyran derivatives
the effects of 3,5-substitutions on the photochromism and photoisomerization of some 2,3,4,4,5,6-hexasubstituted 4H-thiopyrans, 33
- Titanium dioxide
titanium dioxide-photocatalysed decomposition of some thiocarbamates in water, 251
- Triplet state
counterion and position-dependent methylation effects on the excited states of zinc(II) complexes with 1,10-phenanthroline, 257
- Triplet state parameters
an investigation of the triplet state properties of 1,8-naphthalimide: a laser flash photolysis study, 29
- Trisilane
ArF laser dissociation of trisilane, 1
- Ultraviolet radiation
the use of Riso B3 film gamma dosimeter for monitoring ultraviolet radiation, 63
- UV
photocatalytic water treatment on immobilized TiO₂ combined with ozonation, 85
- Visible light
photodegradation of lignin: the role of singlet oxygen, 69
- Water purification
titanium dioxide-photocatalysed decomposition of some thiocarbamates in water, 251
- Zinc(II) complex
counterion and position-dependent methylation effects on the excited states of zinc(II) complexes with 1,10-phenanthroline, 257
- Zinc(II) porphyrins
fluorescence study of some deformed zinc(II) porphyrins, 7
