

## Subject Index of Volume 95, No. 1

- Acetonitrile**  
mechanism of photoinitiated degradation of poly(ethylene oxide) by copper complexes in acetonitrile, 61
- Amines**  
laser photolysis studies of electron transfer between triplet naphthoquinones and amines, 27
- Aryl(thio)ethers**  
the mechanism of photochemical C–O or C–S bond cleavage in aryl(thio)ethers, 41
- Carbon tetrachloride**  
photoinduced electron transfer double fragmentation: an oxygen-mediated radical chain process in the co-fragmentation of substituted pinacol donors with carbon tetrachloride, 21
- 4-Carboxybenzophenone**  
sensitized photo-oxidation of sulfur-containing amino acids and peptides in aqueous solution, 81
- C–O bond cleavage**  
the mechanism of photochemical C–O or C–S bond cleavage in aryl(thio)ethers, 41
- Co-fragmentation**  
photoinduced electron transfer double fragmentation: an oxygen-mediated radical chain process in the co-fragmentation of substituted pinacol donors with carbon tetrachloride, 21
- Copper complexes**  
mechanism of photoinitiated degradation of poly(ethylene oxide) by copper complexes in acetonitrile, 61
- C–S bond cleavage**  
the mechanism of photochemical C–O or C–S bond cleavage in aryl(thio)ethers, 41
- Electron transfer**  
laser photolysis studies of electron transfer between triplet naphthoquinones and amines, 27  
energy and electron transfer processes in flavoprotein-mediated DNA repair, 89
- Electron transfer reactions**  
solvent effects on the electron transfer reactions in supramolecular systems, 51
- Energy transfer**  
energy and electron transfer processes in flavoprotein-mediated DNA repair, 89
- Flavoprotein-mediated DNA repair**  
energy and electron transfer processes in flavoprotein-mediated DNA repair, 89
- Hydroxyfluorones**  
photochemistry and photophysics of hydroxyfluorones and xanthenes, 33
- Isolated bichromophoric systems**  
photoinduced electron transfer in isolated bichromophoric and solvated trichromophoric systems, 3
- Laser photolysis**  
laser photolysis studies of electron transfer between triplet naphthoquinones and amines, 27
- Luminescence**  
recent achievements in photochemistry of some components and analogues of nucleic acids, 73
- Methanol**  
vacuum UV photolysis of aqueous solutions of nitrate. Effect of organic matter. II. Methanol, 67
- Methionine-containing peptides**  
sensitized photo-oxidation of sulfur-containing amino acids and peptides in aqueous solution, 81
- Nitrate**  
vacuum UV photolysis of aqueous solutions of nitrate. Effect of organic matter. II. Methanol, 67
- Nonradiative TICT states**  
nonradiative twisted intramolecular charge transfer state in polar stilbenes: photophysical study of 4-perfluorooctylsulfonyl-4'-N,N-dimethylamino stilbene and two bridged derivatives, 7
- Nucleic acids**  
recent achievements in photochemistry of some components and analogues of nucleic acids, 73
- Photochemically induced <sup>1</sup>H nuclear polarization spectroscopy**  
the mechanism of photochemical C–O or C–S bond cleavage in aryl(thio)ethers, 41
- Photoinduced electron transfer**  
photoinduced electron transfer in isolated bichromophoric and solvated trichromophoric systems, 3  
photoinduced electron transfer double fragmentation: an oxygen-mediated radical chain process in the co-fragmentation of substituted pinacol donors with carbon tetrachloride, 21
- Photoinitiated degradation**  
mechanism of photoinitiated degradation of poly(ethylene oxide) by copper complexes in acetonitrile, 61
- Pinacol**  
photoinduced electron transfer double fragmentation: an oxygen-mediated radical chain process in the co-fragmentation of substituted pinacol donors with carbon tetrachloride, 21
- Polar stilbenes**  
nonradiative twisted intramolecular charge transfer state in polar stilbenes: photophysical study of 4-perfluorooctylsulfonyl-4'-N,N-dimethylamino stilbene and two bridged derivatives, 7
- Poly(ethylene oxide)**  
mechanism of photoinitiated degradation of poly(ethylene oxide) by copper complexes in acetonitrile, 61

**Purine derivatives**

recent achievements in photochemistry of some components and analogues of nucleic acids, 73

**Pyrimidine derivatives**

recent achievements in photochemistry of some components and analogues of nucleic acids, 73

**Radical chain process**

photoinduced electron transfer double fragmentation: an oxygen-mediated radical chain process in the co-fragmentation of substituted pinacol donors with carbon tetrachloride, 21

**Sensitized photo-oxidation**

sensitized photo-oxidation of sulfur-containing amino acids and peptides in aqueous solution, 81

**Solvated trichromophoric systems**

photoinduced electron transfer in isolated bichromophoric and solvated trichromophoric systems, 3

**Solvent effects**

solvent effects on the electron transfer reactions in supramolecular systems, 51

**Stilbene**

nonradiative twisted intramolecular charge transfer state in polar stilbenes: photophysical study of 4-perfluorooctylsulfonyl-4'-N,N-dimethylamino stilbene and two bridged derivatives, 7

**Sulfur-containing amino acids**

sensitized photo-oxidation of sulfur-containing amino acids and peptides in aqueous solution, 81

**Supramolecular systems**

solvent effects on the electron transfer reactions in supramolecular systems, 51

**Triplet naphthoquinones**

laser photolysis studies of electron transfer between triplet naphthoquinones and amines, 27

**Vacuum UV photolysis**

vacuum UV photolysis of aqueous solutions of nitrate. Effect of organic matter. II. Methanol, 67

**Xanthenes**

photochemistry and photophysics of hydroxyfluorones and xanthenes, 33
