Journal of
Photochemistry
and
Photobiology
A: Chemistry

Subject Index of Volume 125

- Adiabatic structural relaxation
The dependence of photoinduced adiabatic transformations and fluorescence in 2,4,6-triarylsubstituted pyridinium cations on environment, 21
- AM1 method
Photochemical switching through protonation in merocyanines, 57
- 9-Anthrol
Effect of transition metals on photoinduced proton transfer from anthrone to 9-anthrol in glasses prepared by the sol-gel method, 85
- Anomalous Stokes shift
The dependence of photoinduced adiabatic transformations and fluorescence in 2,4,6-triarylsubstituted pyridinium cations on environment, 21
- Anthracene derivatives
Photoionization of anthracene and anthracene derivatives, 47
- Anthrone
Effect of transition metals on photoinduced proton transfer from anthrone to 9-anthrol in glasses prepared by the sol-gel method, 85
- Aromatic
Photochemical cyanation of aromatic compounds, 63
- Azo dyes
The role of singlet molecular oxygen in the photodegradation of 1-arylo-2-naphthols in methanol and on cotton, 99
- Benzoquinone
Enhanced photodecomposition of 4-chlorophenol in aqueous solution by deposition of CdS on TiO₂, 119
- Cadmium sulfide
Control of the size and photochemical properties of Q-CdS particles attached to the inner and/or outer surface of the lecithin vesicle bilayer membrane by the nature of its precursors, 127
- Capillary
Nanojoules, nanoliters and nanosecond calorimetry, 13
- CdS
Enhanced photodecomposition of 4-chlorophenol in aqueous solution by deposition of CdS on TiO₂, 119
- 4-Chlorophenol
Enhanced photodecomposition of 4-chlorophenol in aqueous solution by deposition of CdS on TiO₂, 119
- Cotton linters
The role of singlet molecular oxygen in the photodegradation of 1-arylo-2-naphthols in methanol and on cotton, 99
- Cyanation
Photochemical cyanation of aromatic compounds, 63
- Diphenylamine diazonium salt
Photochemical and thermal decomposition of diphenylamine diazonium salts, 73
- Diphenylmethyl radical
Effect of concentrations of radical-ion intermediates in the photochemical redox reaction of the diphenylmethyl radical, 39
- Dye lasers
Gain studies of Rhodamine 6G dye doped polymer laser, 93
- Electron transfer
Effect of concentrations of radical-ion intermediates in the photochemical redox reaction of the diphenylmethyl radical, 39
- Fluorescence
The dependence of photoinduced adiabatic transformations and fluorescence in 2,4,6-triarylsubstituted pyridinium cations on environment, 21
- Fulgide
Solvent and ring substitution effect on the photochromic behavior of fluorescent 2-indolylfulgide derivatives, 79
- H₂ evolution
Photoelectrochemical studies of H₂ evolution in aqueous methanol solution photocatalysed by Q-ZnS particles, 135
- Hydrogen bonding
Fluorescence properties of 1-heptanoylpyrene: a probe for hydrogen bonding in microaggregates and biological membranes, 29
- Hydrogen photoproduction
In vitro hydrogen photoproduction using *Pyrococcus furiosus* sulfhydrogenase and TiO₂, 107
- Hydroquinone
Enhanced photodecomposition of 4-chlorophenol in aqueous solution by deposition of CdS on TiO₂, 119
- Intramolecular charge transfer
Photoionization of anthracene and anthracene derivatives, 47
- Lecithin vesicle
Control of the size and photochemical properties of Q-CdS particles attached to the inner and/or outer surface of the lecithin vesicle bilayer membrane by the nature of its precursors, 127
- Liposomes
Fluorescence properties of 1-heptanoylpyrene: a probe for hydrogen bonding in microaggregates and biological membranes, 29
- Mechanism
Photochemical cyanation of aromatic compounds, 63
- Merocyanine
Photochemical switching through protonation in merocyanines, 57
- Methylviologen
In vitro hydrogen photoproduction using *Pyrococcus furiosus* sulfhydrogenase and TiO₂, 107
- Microviscosity
The dependence of photoinduced adiabatic transformations and fluorescence in 2,4,6-triarylsubstituted pyridinium cations on environment, 21
- Nanoscale
Nanojoules, nanoliters and nanosecond calorimetry, 13
- Optical polymers
Gain studies of Rhodamine 6G dye doped polymer laser, 93

- 3D optical storage
Solvent and ring substitution effect on the photochromic behavior of fluorescent 2-indolylfulgide derivatives, 79
- P. furiosus* sulfhydrogenase
In vitro hydrogen photoproduction using *Pyrococcus furiosus* sulfhydrogenase and TiO₂, 107
- Persistent radical effect
Effect of concentrations of radical-ion intermediates in the photochemical redox reaction of the diphenylmethyl radical, 39
- Photoacoustic
Nanojoules, nanoliters and nanosecond calorimetry, 13
- Photocatalysis
Photoelectrochemical studies of H₂ evolution in aqueous methanol solution photocatalysed by Q-ZnS particles, 135
- Photocatalytic oxidation
Influence of the form of photodeposited platinum on titania upon its photocatalytic activity in CO and acetone oxidation, 113
- Photochemical decomposition
Photochemical and thermal decomposition of diphenylamine diazonium salts, 73
- Photochemical properties
Control of the size and photochemical properties of Q-CdS particles attached to the inner and/or outer surface of the lecithin vesicle bilayer membrane by the nature of its precursors, 127
- Photochemical
Photochemical cyanation of aromatic compounds, 63
- Photochromism
Effect of transition metals on photoinduced proton transfer from anthrone to 9-anthrol in glasses prepared by the sol-gel method, 85
Solvent and ring substitution effect on the photochromic behavior of fluorescent 2-indolylfulgide derivatives, 79
- Photodegradation
Enhanced photodecomposition of 4-chlorophenol in aqueous solution by deposition of CdS on TiO₂, 119
The role of singlet molecular oxygen in the photodegradation of 1-arylozo-2-naphthols in methanol and on cotton, 99
- Photodeposition
Influence of the form of photodeposited platinum on titania upon its photocatalytic activity in CO and acetone oxidation, 113
- Photoionization
Photoionization of anthracene and anthracene derivatives, 47
- Platinized titanium dioxide
Influence of the form of photodeposited platinum on titania upon its photocatalytic activity in CO and acetone oxidation, 113
- Polymethine
Photochemical switching through protonation in merocyanines, 57
- Proton transfer
Effect of transition metals on photoinduced proton transfer from anthrone to 9-anthrol in glasses prepared by the sol-gel method, 85
- Pulsed irradiation
Effect of concentrations of radical-ion intermediates in the photochemical redox reaction of the diphenylmethyl radical, 39
- Radical ion
Effect of concentrations of radical-ion intermediates in the photochemical redox reaction of the diphenylmethyl radical, 39
- Review
Photochemical cyanation of aromatic compounds, 63
- S₁-S₀ conical intersections
Photochemical switching through protonation in merocyanines, 57
- Semempirical calculations
Fluorescence properties of 1-heptanoylpyrene: a probe for hydrogen bonding in microaggregates and biological membranes, 29
- Singlet oxygen
The role of singlet molecular oxygen in the photodegradation of 1-arylozo-2-naphthols in methanol and on cotton, 99
- Sol-gel reaction
Effect of transition metals on photoinduced proton transfer from anthrone to 9-anthrol in glasses prepared by the sol-gel method, 85
- Solid dye lasers
Gain studies of Rhodamine 6G dye doped polymer laser, 93
- Solvent effect
Solvent and ring substitution effect on the photochromic behavior of fluorescent 2-indolylfulgide derivatives, 79
- Steady state photocurrent
Photoelectrochemical studies of H₂ evolution in aqueous methanol solution photocatalysed by Q-ZnS particles, 135
- Substituted diphenylamine diazonium salt
Photochemical and thermal decomposition of diphenylamine diazonium salts, 73
- The Rehm-Weller relationship
Effect of concentrations of radical-ion intermediates in the photochemical redox reaction of the diphenylmethyl radical, 39
- Thermal decomposition
Photochemical and thermal decomposition of diphenylamine diazonium salts, 73
- Time-resolved
Nanojoules, nanoliters and nanosecond calorimetry, 13
- TiO₂
Enhanced photodecomposition of 4-chlorophenol in aqueous solution by deposition of CdS on TiO₂, 119
- Titanium dioxide
In vitro hydrogen photoproduction using *Pyrococcus furiosus* sulfhydrogenase and TiO₂, 107
- Transient photocurrent
Photoelectrochemical studies of H₂ evolution in aqueous methanol solution photocatalysed by Q-ZnS particles, 135
- Transition metal
Effect of transition metals on photoinduced proton transfer from anthrone to 9-anthrol in glasses prepared by the sol-gel method, 85
- Viscosity effect
The dependence of photoinduced adiabatic transformations and fluorescence in 2,4,6-triarylsubstituted pyridinium cations on environment, 21
