## Subject Index of Volume 138

- Absorption**  
Mixtures of synthetic organic dyes in a photoelectrochemical cell, 7
- 2-Acetylselenophene**  
Photocycloaddition of acetylselenophene to double bond containing substrates, 1
- Acridinedione dyes**  
Excited state reactions of acridinedione dyes with onium salts: mechanistic details, 213
- O-Acyloxooximes**  
Photofragmentation and photoisomerization of *O*-acyl- $\alpha$ -oxooximes. Quantum yields and mechanism, 193
- Amphiphilic polymer**  
Fluorescence properties of carbazolyl-containing amphiphilic copolymers, 245
- Artemisinin**  
Kinetics of the photoinduced dissociative electron transfer reduction of the antimalarial endoperoxide, Artemisinin, 29
- Benzo(a)pyrene**  
Fluorescence quenching of benzo(a)pyrene by oxygen and carbon tetrabromide in *n*-hexane under high pressure: estimation of the diffusion coefficient of quencher, 87
- Bichromophoric compounds**  
Irradiation-wavelength dependent photochemistry of the bichromophoric sulfonylurea chlorsulfuron, 129
- Biphotochromes**  
Photokinetic behaviour of biphotochromic supramolecular systems. Part 1. A bis-spirooxazine with a (*Z*)ethenic bridge between each moiety, 123
- Bipyridyl-diol derivatives**  
Strongly modified [2,2'-bipyridyl]-3,3'-diol (BP(OH)<sub>2</sub>): a system undergoing excited state intramolecular proton transfer as a photostabilizer of polymers and as a solar energy collector, 159
- Carbazole**  
Fluorescence properties of carbazolyl-containing amphiphilic copolymers, 245
- Catalyst deactivation**  
Photocatalytic deactivation of commercial TiO<sub>2</sub> samples during simultaneous photoreduction of Cr(VI) and photooxidation of salicylic acid, 79
- Characterization**  
The use of fluorescent probes in the characterization of lignin: the distribution, by energy, of fluorophores in *Eucalyptus grandis* lignin, 253
- Charge transfer contribution**  
Efficient photocycloaddition of phenanthroquinones with simple olefins, 111
- Chemiluminescence**  
Photodecarboxylation of chromone-2-carboxylic acid in aerated and deaerated ethanol solution, 281
- Chlorin**  
Singlet oxygen quantum yields from halogenated chlorins: potential new photodynamic therapy agents, 147
- Chlorinated ethylenes**  
New route for degradation of chlorinated ethylenes in exhaust gases from ground water remediation, 177
- Chlorsulfuron**  
Irradiation-wavelength dependent photochemistry of the bichromophoric sulfonylurea chlorsulfuron, 129
- Chromone-2-carboxylic acid**  
Photodecarboxylation of chromone-2-carboxylic acid in aerated and deaerated ethanol solution, 281
- CIDEP**  
Photodecarboxylation of chromone-2-carboxylic acid in aerated and deaerated ethanol solution, 281
- Cobalt(II)**  
Photochemistry of *N,N'*-bis(3,5-di-*tert*-butylsalicylidene)-1,2-diaminocyclohexane and its Co(II) complex in chloroform, 51
- Complex**  
A time resolved and steady-state fluorescence quenching study on naproxen and its cyclodextrin complexes in water, 35
- Complexation**  
Influence of photochemical reactions on the complexation of humic acid with europium(III), 55
- Conducting polymers**  
Corona inhibition by photochemical dissolution of Al films by polymeric composition, 23
- Copolymers**  
Dual photochromism of copolymers containing two different types of photoisomerizable side groups, 261
- Cr(phen)<sub>3</sub><sup>3+</sup>**  
Mechanism of oxidation of phenol and 2,6-dimethylphenol in the presence of Cr(phen)<sub>3</sub><sup>3+</sup> excited state: the role of O<sub>2</sub>, 207
- Cr(VI)**  
Photocatalytic deactivation of commercial TiO<sub>2</sub> samples during simultaneous photoreduction of Cr(VI) and photooxidation of salicylic acid, 79
- Current–voltage characteristics**  
Mixtures of synthetic organic dyes in a photoelectrochemical cell, 7
- $\beta$ -cyclodextrin**  
A time resolved and steady-state fluorescence quenching study on naproxen and its cyclodextrin complexes in water, 35
- $\beta$ -Cyclodextrin**  
Complexation and proton dissociation behavior of 7-hydroxy-4-methylcoumarin and related compounds in the presence of  $\beta$ -cyclodextrin, 227
- Dark discharge**  
Corona inhibition by photochemical dissolution of Al films by polymeric composition, 23
- DBS anionic surfactant**  
Comparative assessment of the efficiency of TiO<sub>2</sub>/OTE thin film electrodes fabricated by three deposition methods. Photoelectrochemical degradation of the DBS anionic surfactant, 185

- Deactivation processes  
Mixtures of synthetic organic dyes in a photoelectrochemical cell, 7
- Decarboxylation  
Photodecarboxylation of chromone-2-carboxylic acid in aerated and deaerated ethanol solution, 281
- 4,4'-Diaminostilbene-2,2'-disulfonate  
4,4'-Diaminostilbene-2,2'-disulfonate (DSD) behaviour under: irradiation in water.. Decrease of its activity as a fluorescent whitening agent, 275
- Diaryliodonium salts  
Excited state reactions of acridinedione dyes with onium salts: mechanistic details, 213
- Dibucaine  
Dibucaine-ion-channel interactions in model systems: A study using fluorescence resonance energy transfer, 41
- Diffusion coefficient  
Fluorescence quenching of benzo(a)pyrene by oxygen and carbon tetrabromide in *n*-hexane under high pressure: estimation of the diffusion coefficient of quencher, 87
- Di- $\pi$ -methane rearrangement  
Novel regioselective photochemical transformation of 4-methyl-2,4,6-triphenyl-4*H*-thiopyran-1,1-dioxide, 203
- p*-Dimethylaminosalicylic acid  
Excited-state intramolecular proton transfer coupled-charge transfer of *p*-*N,N*-dimethylaminosalicylic acid in aqueous  $\beta$ -cyclodextrin solutions, 167
- 2,3-Dimethyl-2-butene  
Photocycloaddition of acetylselenophene to double bond containing substrates, 1
- 2,3-Dimethylmaleic anhydride  
Photocycloaddition of acetylselenophene to double bond containing substrates, 1
- Dissociative electron transfer  
Kinetics of the photoinduced dissociative electron transfer reduction of the antimalarial endoperoxide, Artemisinin, 29
- Dual photochromism  
Dual photochromism of copolymers containing two different types of photoisomerizable side groups, 261
- Endoperoxides  
Kinetics of the photoinduced dissociative electron transfer reduction of the antimalarial endoperoxide, Artemisinin, 29
- Eucalyptus grandis* lignin  
The use of fluorescent probes in the characterization of lignin: the distribution, by energy, of fluorophores in *Eucalyptus grandis* lignin, 253
- Europium  
Influence of photochemical reactions on the complexation of humic acid with europium(III), 55
- Excimer lamp  
New route for degradation of chlorinated ethylenes in exhaust gases from ground water remediation, 177
- Excited state cycloaddition  
Efficient photocycloaddition of phenanthroquinones with simple olefins, 111
- Excited-state intramolecular charge transfer  
Excited-state intramolecular proton transfer coupled-charge transfer of *p*-*N,N*-dimethylaminosalicylic acid in aqueous  $\beta$ -cyclodextrin solutions, 167
- Excited-state intramolecular proton transfer  
Excited-state intramolecular proton transfer coupled-charge transfer of *p*-*N,N*-dimethylaminosalicylic acid in aqueous  $\beta$ -cyclodextrin solutions, 167
- Exhaust air  
New route for degradation of chlorinated ethylenes in exhaust gases from ground water remediation, 177
- Finite-elements simulation  
New route for degradation of chlorinated ethylenes in exhaust gases from ground water remediation, 177
- Fluorescence  
A time resolved and steady-state fluorescence quenching study on naproxen and its cyclodextrin complexes in water, 35  
Spectral properties of stilbazolium merocyanines oriented in stretched polymer films and Langmuir-Blodgett monolayers, 235
- Fluorescence lifetime  
The use of fluorescent probes in the characterization of lignin: the distribution, by energy, of fluorophores in *Eucalyptus grandis* lignin, 253
- Fluorescence quenching  
Fluorescence quenching of benzo(a)pyrene by oxygen and carbon tetrabromide in *n*-hexane under high pressure: estimation of the diffusion coefficient of quencher, 87  
Fluorescence properties of carbazoyl-containing amphiphilic copolymers, 245
- FRET  
Dibucaine-ion-channel interactions in model systems: A study using fluorescence resonance energy transfer, 41
- FWA (fluorescent whitening agent)  
4,4'-Diaminostilbene-2,2'-disulfonate (DSD) behaviour under: irradiation in water.. Decrease of its activity as a fluorescent whitening agent, 275
- Gramicidin  
Dibucaine-ion-channel interactions in model systems: A study using fluorescence resonance energy transfer, 41
- Ground water remediation  
New route for degradation of chlorinated ethylenes in exhaust gases from ground water remediation, 177
- Heterophase  
On the efficiency of the photosensitized production of singlet oxygen in water suspensions of a tris(bipyridyl)ruthenium(II) complex covalently bound to an insoluble hydrophilic polymer, 65
- Humic acid  
Influence of photochemical reactions on the complexation of humic acid with europium(III), 55
- Hydrophilic polymer  
On the efficiency of the photosensitized production of singlet oxygen in water suspensions of a tris(bipyridyl)ruthenium(II) complex covalently bound to an insoluble hydrophilic polymer, 65
- 7-Hydroxycoumarin derivatives  
Complexation and proton dissociation behavior of 7-hydroxy-4-methylcoumarin and related compounds in the presence of  $\beta$ -cyclodextrin, 227
- Ketyl radical  
Photodecarboxylation of chromone-2-carboxylic acid in aerated and deaerated ethanol solution, 281
- Langmuir-Blodgett films  
Spectral properties of stilbazolium merocyanines oriented in stretched polymer films and Langmuir-Blodgett monolayers, 235
- Laser spectroscopy  
Influence of photochemical reactions on the complexation of humic acid with europium(III), 55
- Light energy conversion  
Mixtures of synthetic organic dyes in a photoelectrochemical cell, 7
- Liposome  
Dibucaine-ion-channel interactions in model systems: A study using fluorescence resonance energy transfer, 41
- Local anesthesia  
Dibucaine-ion-channel interactions in model systems: A study using fluorescence resonance energy transfer, 41

- Luminescence photochromism  
Photochemistry of *N,N'*-bis(3,5-di-*tert*-butylsalicylidene)-1,2-diaminocyclohexane and its Co(II) complex in chloroform, 51
- Merocyanine  
Mixtures of synthetic organic dyes in a photoelectrochemical cell, 7
- Metal etching  
Corona inhibition by photochemical dissolution of Al films by polymeric composition, 23
- Methyl- $\beta$ -cyclodextrin  
A time resolved and steady-state fluorescence quenching study on naproxen and its cyclodextrin complexes in water, 35
- Multilayers  
Spectral properties of stilbazolium merocyanines oriented in stretched polymer films and Langmuir–Blodgett monolayers, 235
- Naproxen  
A time resolved and steady-state fluorescence quenching study on naproxen and its cyclodextrin complexes in water, 35
- Organometallic complex  
Corona inhibition by photochemical dissolution of Al films by polymeric composition, 23
- Oxetane  
Photocycloaddition of acetylselenophene to double bond containing substrates, 1
- Oxidation  
Mechanism of oxidation of phenol and 2,6-dimethylphenol in the presence of Cr(phen)<sub>3</sub><sup>3+</sup> excited state: the role of O<sub>2</sub>, 207
- N*-oxyl  
Transient absorption spectra of bifunctional probes of a chromophore-sterically hindered amine type in solution; study of the triplet route to deactivation, 95
- pH  
4,4'-Diaminostilbene-2,2'-disulfonate (DSD) behaviour under: irradiation in water.. Decrease of its activity as a fluorescent whitening agent, 275
- pH effects  
Complexation and proton dissociation behavior of 7-hydroxy-4-methylcoumarin and related compounds in the presence of  $\beta$ -cyclodextrin, 227
- Phenol  
Mechanism of oxidation of phenol and 2,6-dimethylphenol in the presence of Cr(phen)<sub>3</sub><sup>3+</sup> excited state: the role of O<sub>2</sub>, 207
- Photoacid generation  
Excited state reactions of acridinedione dyes with onium salts: mechanistic details, 213
- Photoacoustic calorimetry  
Singlet oxygen quantum yields from halogenated chlorins: potential new photodynamic therapy agents, 147
- Photocatalysis  
Photocatalyzed degradation of polymers in aqueous semiconductor suspensions. V. Photomineralization of lactam ring-pendant polyvinylpyrrolidone at titania/water interfaces, 69  
Photocatalytic deactivation of commercial TiO<sub>2</sub> samples during simultaneous photoreduction of Cr(VI) and photooxidation of salicylic acid, 79
- Photochemical oxidation  
Photochemical reactions of *trans*-stilbene and 1,1-diphenylethylene on silica gel: mechanisms of oxidation and dimerization, 269
- Photochemical reactions  
Corona inhibition by photochemical dissolution of Al films by polymeric composition, 23
- Photochromism  
Photochemistry of *N,N'*-bis(3,5-di-*tert*-butylsalicylidene)-1,2-diaminocyclohexane and its Co(II) complex in chloroform, 51
- Photocycloaddition  
Photocycloaddition of acetylselenophene to double bond containing substrates, 1
- Photodegradation  
Influence of photochemical reactions on the complexation of humic acid with europium(III), 55  
Photocatalyzed degradation of polymers in aqueous semiconductor suspensions. V. Photomineralization of lactam ring-pendant polyvinylpyrrolidone at titania/water interfaces, 69  
4,4'-Diaminostilbene-2,2'-disulfonate (DSD) behaviour under: irradiation in water.. Decrease of its activity as a fluorescent whitening agent, 275
- Photodynamic therapy  
Singlet oxygen quantum yields from halogenated chlorins: potential new photodynamic therapy agents, 147
- Photoelectrochemical cell  
Mixtures of synthetic organic dyes in a photoelectrochemical cell, 7
- Photoelectrochemical degradation  
Comparative assessment of the efficiency of TiO<sub>2</sub>/OTE thin film electrodes fabricated by three deposition methods. Photoelectrochemical degradation of the DBS anionic surfactant, 185
- Photo-Fenton reaction  
Photo-Fenton degradation of dye in methanolic solution under both UV and visible irradiation, 139
- Photofragmentation  
Photofragmentation and photoisomerization of *O*-acyl- $\alpha$ -oxoimines. Quantum yields and mechanism, 193
- Photoinduced electron transfer  
Kinetics of the photoinduced dissociative electron transfer reduction of the antimalarial endoperoxide, Artemisinin, 29
- Photoisomerisation  
4,4'-Diaminostilbene-2,2'-disulfonate (DSD) behaviour under: irradiation in water.. Decrease of its activity as a fluorescent whitening agent, 275
- Photoisomerizable side groups  
Dual photochromism of copolymers containing two different types of photoisomerizable side groups, 261
- Photoisomerization  
Photofragmentation and photoisomerization of *O*-acyl- $\alpha$ -oxoimines. Quantum yields and mechanism, 193  
Novel regioselective photochemical transformation of 4-methyl-2,4,6-triphenyl-4*H*-thiopyran-1,1-dioxide, 203
- Photokinetics  
Photokinetic behaviour of biphotochromic supramolecular systems. Part 1. A bis-spirooxazine with a (*Z*)ethenic bridge between each moiety, 123
- Photolysis  
Irradiation-wavelength dependent photochemistry of the bichromophoric sulfonylurea chlorosulfuron, 129
- Photooxidation  
Photochemistry of *N,N'*-bis(3,5-di-*tert*-butylsalicylidene)-1,2-diaminocyclohexane and its Co(II) complex in chloroform, 51
- Photo-oxidation  
Photocatalyzed degradation of polymers in aqueous semiconductor suspensions. V. Photomineralization of lactam ring-pendant polyvinylpyrrolidone at titania/water interfaces, 69
- Photooxidation  
Photocatalytic deactivation of commercial TiO<sub>2</sub> samples during simultaneous photoreduction of Cr(VI) and photooxidation of salicylic acid, 79  
New route for degradation of chlorinated ethylenes in exhaust gases from ground water remediation, 177
- Photooxygenation  
Photodecarboxylation of chromone-2-carboxylic acid in aerated and deaerated ethanol solution, 281

- Photoproducts  
Photofragmentation and photoisomerization of *O*-acyl- $\alpha$ -oxoimines. Quantum yields and mechanism, 193
- Photoreactor  
New route for degradation of chlorinated ethylenes in exhaust gases from ground water remediation, 177
- Photoreduction  
Photocatalytic deactivation of commercial TiO<sub>2</sub> samples during simultaneous photoreduction of Cr(VI) and photooxidation of salicylic acid, 79
- Photosensitization  
Excited state reactions of acridinedione dyes with onium salts: mechanistic details, 213
- Photostabilizers  
Strongly modified [2,2'-bipyridyl]-3,3'-diol (BP(OH)<sub>2</sub>): a system undergoing excited state intramolecular proton transfer as a photostabilizer of polymers and as a solar energy collector, 159
- Phthalocyanine  
Mixtures of synthetic organic dyes in a photoelectrochemical cell, 7
- Polymers  
Spectral properties of stilbazolium merocyanines oriented in stretched polymer films and Langmuir–Blodgett monolayers, 235
- Polyvinylpyrrolidone  
Photocatalyzed degradation of polymers in aqueous semiconductor suspensions. V. Photomineralization of lactam ring-pendant polyvinylpyrrolidone at titania/water interfaces, 69
- Porphyrin  
Mixtures of synthetic organic dyes in a photoelectrochemical cell, 7
- Proton dissociation  
Complexation and proton dissociation behavior of 7-hydroxy-4-methylcoumarin and related compounds in the presence of  $\beta$ -cyclodextrin, 227
- 2-Pyrrolidone  
Photocatalyzed degradation of polymers in aqueous semiconductor suspensions. V. Photomineralization of lactam ring-pendant polyvinylpyrrolidone at titania/water interfaces, 69
- Quantum yields  
Photofragmentation and photoisomerization of *O*-acyl- $\alpha$ -oxoimines. Quantum yields and mechanism, 193
- o*-Quinone triplet state reaction  
Efficient photocycloaddition of phenanthroquinones with simple olefins, 111
- Radical anion  
Kinetics of the photoinduced dissociative electron transfer reduction of the antimalarial endoperoxide, Artemisinin, 29
- Reaction mechanism  
Photokinetic behaviour of biphotochromic supramolecular systems. Part 1. A bis-spirooxazine with a (*Z*)ethenic bridge between each moiety, 123
- Regioselectivity  
Novel regioselective photochemical transformation of 4-methyl-2,4,6-triphenyl-4*H*-thiopyran-1,1-dioxide, 203
- Salen-type Schiff base  
Photochemistry of *N,N'*-bis(3,5-di-*tert*-butylsalicylidene)-1,2-diaminocyclohexane and its Co(II) complex in chloroform, 51
- Salicylic acid  
Photocatalytic deactivation of commercial TiO<sub>2</sub> samples during simultaneous photoreduction of Cr(VI) and photooxidation of salicylic acid, 79
- Sensitisers  
Singlet oxygen quantum yields from halogenated chlorins: potential new photodynamic therapy agents, 147
- Sensors  
Spectral properties of stilbazolium merocyanines oriented in stretched polymer films and Langmuir–Blodgett monolayers, 235
- Silica gel  
Photochemical reactions of *trans*-stilbene and 1,1-diphenylethylene on silica gel: mechanisms of oxidation and dimerization, 269
- Singlet oxygen  
Singlet oxygen quantum yields from halogenated chlorins: potential new photodynamic therapy agents, 147
- Singlet oxygen sensitization  
On the efficiency of the photosensitized production of singlet oxygen in water suspensions of a tris(bipyridyl)ruthenium(II) complex covalently bound to an insoluble hydrophilic polymer, 65
- Solar concentrators  
Strongly modified [2,2'-bipyridyl]-3,3'-diol (BP(OH)<sub>2</sub>): a system undergoing excited state intramolecular proton transfer as a photostabilizer of polymers and as a solar energy collector, 159
- Spin-trapping EPR technique  
Photo-Fenton degradation of dye in methanolic solution under both UV and visible irradiation, 139
- Spirooxazines  
Photokinetic behaviour of biphotochromic supramolecular systems. Part 1. A bis-spirooxazine with a (*Z*)ethenic bridge between each moiety, 123
- Stepwise radical reaction  
Efficient photocycloaddition of phenanthroquinones with simple olefins, 111
- Stereo- and regio-specificity  
Efficient photocycloaddition of phenanthroquinones with simple olefins, 111
- Sterically hindered amine (HAS)  
Transient absorption spectra of bifunctional probes of a chromophore-sterically hindered amine type in solution; study of the triplet route to deactivation, 95
- Stilbene  
Photochemical reactions of *trans*-stilbene and 1,1-diphenylethylene on silica gel: mechanisms of oxidation and dimerization, 269
- Substituent effects  
Complexation and proton dissociation behavior of 7-hydroxy-4-methylcoumarin and related compounds in the presence of  $\beta$ -cyclodextrin, 227
- Sulfonylureas  
Irradiation-wavelength dependent photochemistry of the bichromophoric sulfonylurea chloresulfuron, 129
- 4*H*-thiopyran-1,1-dioxide  
Novel regioselective photochemical transformation of 4-methyl-2,4,6-triphenyl-4*H*-thiopyran-1,1-dioxide, 203
- Time resolved fluorescence quenching  
A time resolved and steady-state fluorescence quenching study on naproxen and its cyclodextrin complexes in water, 35
- TiO<sub>2</sub>  
Photocatalytic deactivation of commercial TiO<sub>2</sub> samples during simultaneous photoreduction of Cr(VI) and photooxidation of salicylic acid, 79
- TiO<sub>2</sub>/OTE thin film  
Comparative assessment of the efficiency of TiO<sub>2</sub>/OTE thin film electrodes fabricated by three deposition methods. Photoelectrochemical degradation of the DBS anionic surfactant, 185
- Titanium dioxide  
Photocatalyzed degradation of polymers in aqueous semiconductor suspensions. V. Photomineralization of lactam ring-pendant polyvinylpyrrolidone at titania/water interfaces, 69
- Triphenylsulphonium salts  
Excited state reactions of acridinedione dyes with onium salts: mechanistic details, 213

Triplet route

Transient absorption spectra of bifunctional probes of a chromophore-sterically hindered amine type in solution; study of the triplet route to deactivation, 95

Tris(bipyridyl)ruthenium(II) complex

On the efficiency of the photosensitized production of singlet oxygen in

water suspensions of a tris(bipyridyl)ruthenium(II) complex covalently bound to an insoluble hydrophilic polymer, 65

UV–VIS spectra

Photo-Fenton degradation of dye in methanolic solution under both UV and visible irradiation, 139
