

Subject Index of Volume 150

Absorption

Comparison of the processes induced by nitrogen dilution on the photodissociation of silane and disilane at 193 nm, 257

Acridine

Quenching of the excited singlet state of acridine and 10-methyl-acridinium cation by thio-organic compounds in aqueous solution, 21

Acrolein

Chemical reactivity of two-photon excited trimethylsilylacetylene in aerosol particle formation with acrolein, 7

N-Acylation of dibenz[b,f]azepine

Conformational isomers in the photocyclodimerization of *N*-acylated dibenz[b,f]azepine derivatives, 85

Adducts of 2,2,6,6-tetramethylpiperidine and 2-hydroxyphenylbenzotriazole

Synthesis and properties of new adducts of 2,2,6,6-tetramethylpiperidine and 2-hydroxyphenylbenzotriazole as polymer photostabilizers, 223

Aerosol particle formation

Chemical reactivity of two-photon excited trimethylsilylacetylene in aerosol particle formation with acrolein, 7

Alloxan

Photochemistry of cyclic vicinal tricarbonyl compounds. Photolysis of alloxan in the presence of olefins containing allylic hydrogen, 31

Antenna ligands

Energy transfer in solution of lanthanide complexes, 233

Anthocyanin

Why do flavylum salts show so various colors in solution? Effect of concentration and water on the flavylum's color changes, 153

ArF laser

Comparison of the processes induced by nitrogen dilution on the photodissociation of silane and disilane at 193 nm, 257

Azacrown ether

Synthesis and fluorescence behaviour of crown and azacrown ethers carrying the dansyl fluorophore as a pendant in acetonitrile solution, 249

Bichromophoric cluster

Supersonic jet spectroscopy of naphthalene–fluorene bichromophoric cluster, 159

Bovine serum albumin

Photoinduced electron transfer in crystal violet (CV⁺)–bovine serum albumin (BSA) system: evaluation of reaction paths and radical intermediates, 59

Carbazole–pyrene–viologen

Long-lived photoinduced charge separation in carbazole–pyrene–viologen system incorporated in Langmuir–Blodgett films of substituted diazacrown ethers, 101

Carbonyl complexes

Photodecomposition of molybdenum(II) and tungsten(II) carbonyl complexes with triazole, benzimidazole, and oxadiazole acetylenic derivatives, 41

Cerium oxide

EPR study of the radicals formed upon UV irradiation of ceria-based photocatalysts, 213

2-Chlorobenzaldehyde

Photoinduced rotational isomerization mechanism of 2-chlorobenzaldehyde in low-temperature rare-gas matrices by vibrational and electronic spectroscopies, 93

2'-Chloro-4-R-benzanilides

Photoreaction of 2'-chloro-4-R-benzanilide: synthesis of 2-(4-R-phenyl)-1,3-benzoxazole and 9-R-phenanthridin-6(5H)-one (R=H, CH₃, CH₃O), 115

Chromene

Two-photon photochromism of two simple chromene derivatives, 131

Cisplatin

Photoactivation of dichloro(ethylenediamine)platinum(II), 37

Color change of solution

Why do flavylum salts show so various colors in solution? Effect of concentration and water on the flavylum's color changes, 153

Conformational isomers

Conformational isomers in the photocyclodimerization of *N*-acylated dibenz[b,f]azepine derivatives, 85

Crystal violet

Photoinduced electron transfer in crystal violet (CV⁺)–bovine serum albumin (BSA) system: evaluation of reaction paths and radical intermediates, 59

4,5-Cycloalkanopyrazoles

Reducing the complexity of photoreaction pathway of pyrazoles: photochemistry of 4,5-cycloalkanopyrazoles, 109

Dansyl

Synthesis and fluorescence behaviour of crown and azacrown ethers carrying the dansyl fluorophore as a pendant in acetonitrile solution, 249

Density functional theory

Two-photon photochromism of two simple chromene derivatives, 131

(Di)silane

Comparison of the processes induced by nitrogen dilution on the photodissociation of silane and disilane at 193 nm, 257

Diazacrown ether

Long-lived photoinduced charge separation in carbazole–pyrene–viologen system incorporated in Langmuir–Blodgett films of substituted diazacrown ethers, 101

Synthesis and fluorescence behaviour of crown and azacrown ethers carrying the dansyl fluorophore as a pendant in acetonitrile solution, 249

Dilution

Comparison of the processes induced by nitrogen dilution on the photodissociation of silane and disilane at 193 nm, 257

Dimerization and aggregation

Why do flavylum salts show so various colors in solution? Effect of concentration and water on the flavylum's color changes, 153

- Dye sensitization
Syntheses of mixed ligands complexes of Ru(II) with 4,4'-dicarboxy-2,2'-bipyridine and substituted pteridinedione and the use of these complexes in electrochemical photovoltaic cells, 167
- Electron transfer
Quenching of the excited singlet state of acridine and 10-methylacridinium cation by thio-organic compounds in aqueous solution, 21
- Electronic absorption and emission spectra
Photoinduced rotational isomerization mechanism of 2-chlorobenzaldehyde in low-temperature rare-gas matrices by vibrational and electronic spectroscopies, 93
- Energy transfer
Energy transfer in solution of lanthanide complexes, 233
- EPR
EPR study of the radicals formed upon UV irradiation of ceria-based photocatalysts, 213
- Excimer
Are excimers formed along with hydrated electrons in the UV excitation of cyanocuprate(I) ions in aqueous solution?, 49
- Excited-state
Are excimers formed along with hydrated electrons in the UV excitation of cyanocuprate(I) ions in aqueous solution?, 49
- Fluorescence
Quenching of the excited singlet state of acridine and 10-methylacridinium cation by thio-organic compounds in aqueous solution, 21
Study of the influence of substituents on spectroscopic and photoelectric properties of zinc phthalocyanines, 67
- Fluorescence microscopy
A photochromic acceptor as a reversible light-driven switch in fluorescence resonance energy transfer (FRET), 177
- Fluorescence probes
Synthesis and fluorescence behaviour of crown and azacrown ethers carrying the dansyl fluorophore as a pendant in acetonitrile solution, 249
- Fullerene photophysics
Synthesis and optical properties of metal-centered dimeric fullerene macromolecules, 143
- Green fluorescent protein
Two-photon excitation of a phytofluor protein, 13
- Hydrated electron
Are excimers formed along with hydrated electrons in the UV excitation of cyanocuprate(I) ions in aqueous solution?, 49
- Immobilized TiO₂ mediated processes
Silylation and sulfonation of structured supported catalysts active in the decoloration of azo-dyes under visible light, 195
- Infrared spectra
Photoinduced rotational isomerization mechanism of 2-chlorobenzaldehyde in low-temperature rare-gas matrices by vibrational and electronic spectroscopies, 93
- Intra-EET
Supersonic jet spectroscopy of naphthalene-fluorene bichromophoric cluster, 159
- Intramolecular photocyclization
Photoreaction of 2'-chloro-4-R-benzanilide: synthesis of 2-(4-R-phenyl)-1,3-benzoxazole and 9-R-phenanthridin-6(5H)-one (R=H, CH₃, CH₃O), 115
- Intramolecular photoreaction
Photoreactions of 1-*o*-substituted-aminophenyl-2-(pentamethyl-disilyl)ethynes, 125
- Intramolecular photosubstitution
Photoreaction of 2'-chloro-4-R-benzanilide: synthesis of 2-(4-R-phenyl)-1,3-benzoxazole and 9-R-phenanthridin-6(5H)-one (R=H, CH₃, CH₃O), 115
- Isoalloxazine
Syntheses of mixed ligands complexes of Ru(II) with 4,4'-dicarboxy-2,2'-bipyridine and substituted pteridinedione and the use of these complexes in electrochemical photovoltaic cells, 167
- Kinetics
Photoactivation of dichloro(ethylenediamine)platinum(II), 37
- Langmuir-Blodgett films
Long-lived photoinduced charge separation in carbazole-pyrene-viologen system incorporated in Langmuir-Blodgett films of substituted diazacrown ethers, 101
- Langmuir-Hinshelwood
Photocatalytic degradation of toluene in the gas phase: comparative study of some TiO₂ supports, 207
- Lanthanide(III) complexes
Energy transfer in solution of lanthanide complexes, 233
- Luminescence
Energy transfer in solution of lanthanide complexes, 233
- Maleimido-polyethers
Comparison of photomacrocyclization reactions of trimethylsilyl- and tributylstannyl-terminated phthalimido- and maleimido-polyethers, 77
- Matrix isolation
Photoinduced rotational isomerization mechanism of 2-chlorobenzaldehyde in low-temperature rare-gas matrices by vibrational and electronic spectroscopies, 93
- Merocyanine
A photochromic acceptor as a reversible light-driven switch in fluorescence resonance energy transfer (FRET), 177
- Metal-ligand complex
Synthesis and optical properties of metal-centered dimeric fullerene macromolecules, 143
- Molecular orbital calculations
Photoinduced rotational isomerization mechanism of 2-chlorobenzaldehyde in low-temperature rare-gas matrices by vibrational and electronic spectroscopies, 93
- Molybdenum
Photodecomposition of molybdenum(II) and tungsten(II) carbonyl complexes with triazole, benzimidazole, and oxadiazole acetylinic derivatives, 41
- Nitrogen
Comparison of the processes induced by nitrogen dilution on the photodissociation of silane and disilane at 193 nm, 257
- One-photon excitation
Two-photon excitation of a phytofluor protein, 13
- Optical limiting
Synthesis and optical properties of metal-centered dimeric fullerene macromolecules, 143
- Orange II azo-dye
Silylation and sulfonation of structured supported catalysts active in the decoloration of azo-dyes under visible light, 195
- Oxygen radicals
EPR study of the radicals formed upon UV irradiation of ceria-based photocatalysts, 213
- pcFRET
A photochromic acceptor as a reversible light-driven switch in fluorescence resonance energy transfer (FRET), 177

- Perfluoroacyl halide
 Photochemistry of perfluoroacyl halides in the presence of O₂ and CO, 1
- Phase transfer catalysis
 Synthesis and properties of new adducts of 2,2,6,6-tetramethylpiperidine and 2-hydroxyphenylbenzotriazole as polymer photostabilizers, 223
- Photoacoustic spectra
 Study of the influence of substituents on spectroscopic and photoelectric properties of zinc phthalocyanines, 67
- Photo-assisted immobilized Fenton processes
 Silylation and sulfonation of structured supported catalysts active in the decoloration of azo-dyes under visible light, 195
- Photocatalysis
 Photocatalytic degradation of toluene in the gas phase: comparative study of some TiO₂ supports, 207
 EPR study of the radicals formed upon UV irradiation of ceria-based photocatalysts, 213
- Photochemical synthesis
 Photochemical formation of nonlinear optical and photorefractive image in polymer layer, 187
- Photochemistry
 Photochemistry of perfluoroacyl halides in the presence of O₂ and CO, 1
 Photochemistry of cyclic vicinal tricarbonyl compounds. Photolysis of alloxan in the presence of olefins containing allylic hydrogen, 31
 Reducing the complexity of photoreaction pathway of pyrazoles: photochemistry of 4,5-cycloalkanopyrazoles, 109
- Photochromism
 Two-photon photochromism of two simple chromene derivatives, 131
 A photochromic acceptor as a reversible light-driven switch in fluorescence resonance energy transfer (FRET), 177
- Photocurrent kinetics
 Study of the influence of substituents on spectroscopic and photoelectric properties of zinc phthalocyanines, 67
- Photo-CVD
 Comparison of the processes induced by nitrogen dilution on the photodissociation of silane and disilane at 193 nm, 257
- Photodecomposition
 Photodecomposition of molybdenum(II) and tungsten(II) carbonyl complexes with triazole, benzimidazole, and oxadiazole acetylinic derivatives, 41
- Photodegradation
 Synthesis and properties of new adducts of 2,2,6,6-tetramethylpiperidine and 2-hydroxyphenylbenzotriazole as polymer photostabilizers, 223
- Photodimerizations
 Conformational isomers in the photocyclodimerization of *N*-acylated dibenz[*b,f*]azepine derivatives, 85
- Photodissociation
 Photoactivation of dichloro(ethylenediamine)platinum(II), 37
- Photoelectric and nonlinear optical properties
 Photochemical formation of nonlinear optical and photorefractive image in polymer layer, 187
- Photoinduced charge separation
 Long-lived photoinduced charge separation in carbazole-pyrene-viologen system incorporated in Langmuir-Blodgett films of substituted diazacrown ethers, 101
- Photoinduced electron transfer
 Photoinduced electron transfer in crystal violet (CV⁺)-bovine serum albumin (BSA) system: evaluation of reaction paths and radical intermediates, 59
 Synthesis and optical properties of metal-centered dimeric fullerene macromolecules, 143
- Photolysis
 Photochemistry of perfluoroacyl halides in the presence of O₂ and CO, 1
- Photomacrocyclizations
 Comparison of photomacrocyclization reactions of trimethylsilyl- and tributylstannyl-terminated phthalimido- and maleimido-polyethers, 77
- Photorefractive image
 Photochemical formation of nonlinear optical and photorefractive image in polymer layer, 187
- Photostability
 Synthesis and properties of new adducts of 2,2,6,6-tetramethylpiperidine and 2-hydroxyphenylbenzotriazole as polymer photostabilizers, 223
- Photovoltaic properties
 Study of the influence of substituents on spectroscopic and photoelectric properties of zinc phthalocyanines, 67
- Phthalimido-polyethers
 Comparison of photomacrocyclization reactions of trimethylsilyl- and tributylstannyl-terminated phthalimido- and maleimido-polyethers, 77
- Phthalocyanine
 Study of the influence of substituents on spectroscopic and photoelectric properties of zinc phthalocyanines, 67
- Platinum
 Photoactivation of dichloro(ethylenediamine)platinum(II), 37
- Polycarbonyl compound
 Photochemistry of cyclic vicinal tricarbonyl compounds. Photolysis of alloxan in the presence of olefins containing allylic hydrogen, 31
- Polymer light-sensitive donor-acceptor layers
 Photochemical formation of nonlinear optical and photorefractive image in polymer layer, 187
- Polymerizable photostabilizers
 Synthesis and properties of new adducts of 2,2,6,6-tetramethylpiperidine and 2-hydroxyphenylbenzotriazole as polymer photostabilizers, 223
- Pteridinedione
 Syntheses of mixed ligands complexes of Ru(II) with 4,4'-dicarboxy-2,2'-bipyridine and substituted pteridinedione and the use of these complexes in electrochemical photovoltaic cells, 167
- Quenching
 Quenching of the excited singlet state of acridine and 10-methylacridinium cation by thio-organic compounds in aqueous solution, 21
- Rate coverage
 Photocatalytic degradation of toluene in the gas phase: comparative study of some TiO₂ supports, 207
- Relative energy
 Two-photon photochromism of two simple chromene derivatives, 131
- Sensitized luminescence
 Energy transfer in solution of lanthanide complexes, 233
- 1-Sila-1,2-propadiene
 Photoreactions of 1-*o*-substituted-aminophenyl-2-(pentamethyldisilanyl)ethynes, 125
- 1-Silacyclopentene
 Photoreactions of 1-*o*-substituted-aminophenyl-2-(pentamethyldisilanyl)ethynes, 125
- Silylation and Sulfonation of structured surfaces
 Silylation and sulfonation of structured supported catalysts active in the decoloration of azo-dyes under visible light, 195
- Single electron transfer
 Comparison of photomacrocyclization reactions of trimethylsilyl- and tributylstannyl-terminated phthalimido- and maleimido-polyethers, 77

- Solar cells
Syntheses of mixed ligands complexes of Ru(II) with 4,4'-dicarboxy-2,2'-bipyridine and substituted pteridinedione and the use of these complexes in electrochemical photovoltaic cells, 167
- Solvent and substituent effect
Photoreaction of 2'-chloro-4-R-benzanilide: synthesis of 2-(4-R-phenyl)-1,3-benzoxazole and 9-R-phenanthridin-6(5H)-one (R=H, CH₃, CH₃O), 115
- Spiropyran
A photochromic acceptor as a reversible light-driven switch in fluorescence resonance energy transfer (FRET), 177
- 1-*o*-Substituted-aminophenyl-2-(pentamethyldisilanyl)ethyne
Photoreactions of 1-*o*-substituted-aminophenyl-2-(pentamethyldisilanyl)ethynes, 125
- Sulfur-containing amino acids
Quenching of the excited singlet state of acridine and 10-methylacridinium cation by thio-organic compounds in aqueous solution, 21
- Supersonic jet spectroscopy
Supersonic jet spectroscopy of naphthalene-fluorene bichromophoric cluster, 159
- Terpyridine
Synthesis and optical properties of metal-centered dimeric fullerene macromolecules, 143
- Thermal deactivation
Study of the influence of substituents on spectroscopic and photoelectric properties of zinc phthalocyanines, 67
- Thermalization
Comparison of the processes induced by nitrogen dilution on the photodissociation of silane and disilane at 193 nm, 257
- Three types of flavylum salts
Why do flavylum salts show so various colors in solution? Effect of concentration and water on the flavylum's color changes, 153
- TiO₂
Syntheses of mixed ligands complexes of Ru(II) with 4,4'-dicarboxy-2,2'-bipyridine and substituted pteridinedione and the use of these complexes in electrochemical photovoltaic cells, 167
- Titanium dioxide
Photocatalytic degradation of toluene in the gas phase: comparative study of some TiO₂ supports, 207
- Titanium oxide
EPR study of the radicals formed upon UV irradiation of ceria-based photocatalysts, 213
- Toluene
Photocatalytic degradation of toluene in the gas phase: comparative study of some TiO₂ supports, 207
- Transient absorption
Two-photon photochromism of two simple chromene derivatives, 131
- Tributylstannyl-terminated
Comparison of photomacrocyclization reactions of trimethylsilyl- and tributylstannyl-terminated phthalimido- and maleimido-polyethers, 77
- Trimethylsilylacetylene
Chemical reactivity of two-photon excited trimethylsilylacetylene in aerosol particle formation with acrolein, 7
- Trimethylsilyl-terminated
Comparison of photomacrocyclization reactions of trimethylsilyl- and tributylstannyl-terminated phthalimido- and maleimido-polyethers, 77
- Tungsten
Photodecomposition of molybdenum(II) and tungsten(II) carbonyl complexes with triazole, benz-imidazole, and oxadiazole acetylinic derivatives, 41
- Two-photon excitation
Chemical reactivity of two-photon excited trimethylsilylacetylene in aerosol particle formation with acrolein, 7
Two-photon excitation of a phytofluor protein, 13
