

Erratum

J. E. Strong, H. F. Prest and R. L. Strong, *Journal of Photochemistry*, 10 (1979) 413 - 424.

On page 420, Fig. 5 was incorrectly printed. The correct figure is shown below.

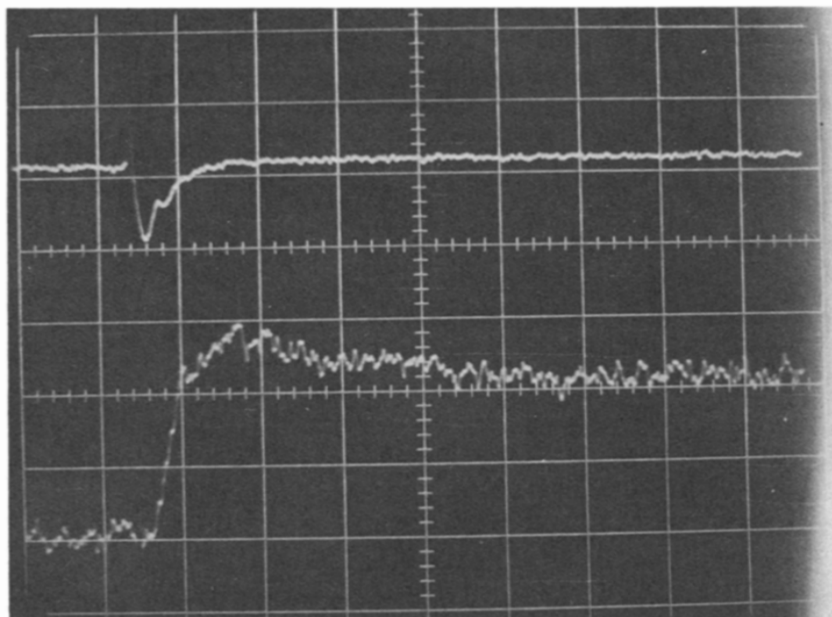

Fig. 5. I_2 formation following flash photodissociation of CF_3I in CO_2 with O_2 quencher: upper trace, scattered light at 360 nm; lower trace, absorption at 498 nm. Sweep time, 50 μs per major division; vertical sensitivity, 4.9×10^{14} I_2 molecules cm^{-3} per major division; $P(CF_3I) = 16$ Torr; $P(CO_2) = 400$ Torr; $P(O_2) = 2$ Torr.
