

Subject Index

- Absorption threshold**
the photochemistry of alkenes at high pressures V: irradiation of cyclopentene and cyclohexene close to their absorption threshold and in the presence of oxygen, 1
- Acetone**
study of the photoreduction of uranyl ions by triphenylphosphine, triphenylarsine, tri-*p*-tolylphosphine and tri-*p*-tolylarsine in acetone, 229
- Alkenes**
the photochemistry of alkenes at high pressures V: irradiation of cyclopentene and cyclohexene close to their absorption threshold and in the presence of oxygen, 1
- 7-Amino-4-methylcoumarin**
separation and identification of the products of the photodegradation of 7-amino-4-methylcoumarin and the mechanism of its photodegradation, 135
- cis*-1-(9-Anthryl)-2-phenylethylenes**
adiabatic photochemical isomerization of *cis*-1-(9-anthryl)-2-phenylethylenes, 301
- Autoionization**
a theoretical study of two-color photoionization and autoionization of molecules, 173
- 7-Azaindole derivatives**
photophysics of pseudoazulenes: 7-azaindole derivatives, 49
- Benzylidene fluorene**
benzylidene fluorene ozonolysis under chemiluminescence mimetic conditions in homogeneous and micellar media: I, 73; II, 85; III, 97
- Carboxylic acids**
homogeneous and heterogeneous photochemical reactions of decomposition and oxidation of carboxylic acids, 107
- Chemiluminescence mimetic conditions**
benzylidene fluorene ozonolysis under chemiluminescence mimetic conditions in homogeneous and micellar media: I, 73; II, 85; III, 97
- 4-Chlorobiphenyl**
the effect of added salts on electron transfer reactions involving exciplexes: the *N,N*-dimethylaniline-photosensitized dechlorination of 4-chlorobiphenyl, 251
- Chlorotoluene**
formation of methylanisole in the photolysis of chlorotoluene in methanol, 129
- Conformational changes**
photoresponsive peptide and polypeptide systems IV: light-induced conformational changes in ϵ -poly-(L-lysine) with photochromatic side chains, 343
- Cross-sections**
measurements of the UV absorption cross-sections for HO₂ and CH₃O₂ in the gas phase, 201
- Cyclohexene**
the photochemistry of alkenes at high pressures V: irradiation of cyclopentene and cyclohexene close to their absorption threshold and in the presence of oxygen, 1
- Cyclopentene**
the photochemistry of alkenes at high pressures V: irradiation of cyclopentene and cyclohexene close to their absorption threshold and in the presence of oxygen, 1
- Dechlorination**
the effect of added salts on electron transfer reactions involving exciplexes: the *N,N*-dimethylaniline-photosensitized dechlorination of 4-chlorobiphenyl, 251
- Decomposition**
homogeneous and heterogeneous photochemical reactions of decomposition and oxidation of carboxylic acids, 107
- Diaminopyridines**
flash photolysis study of diaminopyridines, 41

***N,N*-Dimethylaniline**

the effect of added salts on electron transfer reactions involving exciplexes: the *N,N*-dimethylaniline-photosensitized dechlorination of 4-chlorobiphenyl, 251

DNA

laser-induced photoionization and single-strand break formation of polynucleotides and single-stranded DNA in aqueous solution: model studies for the direct effect of high energy radiation on DNA, 145

Electron transfer

the effect of added salts on electron transfer reactions involving exciplexes: the *N,N*-dimethylaniline-photosensitized dechlorination of 4-chlorobiphenyl, 251

Electrostatic recording devices

photoconductivity measurements using a simulated electrostatic recording device, 165

Ethyl bromide

primary processes in the 121.6 nm photolysis of gas phase ethyl bromide, 217

Ethylene oxide

aging of micellar solutions of ethylene oxide surfactants, 351

Exciplexes

the effect of added salts on electron transfer reactions involving exciplexes: the *N,N*-dimethylaniline-photosensitized dechlorination of 4-chlorobiphenyl, 251

Ferric chloride

methylene-blue-sensitized photochemical hydroxylation of 2-hydroxybenzoic acid by hydrogen peroxide: photocatalytic effect of ferric chloride, 239

Flash photolysis

flash photolysis study of diamino-pyridines, 41

Fluorenone

benzylidene fluorene ozonolysis under chemiluminescence mimetic conditions in homogeneous and micellar media II: rate constants of fluorenone quenching by the leaving moiety, 85

Hammett's σ constants

benzylidene fluorene ozonolysis under chemiluminescence mimetic conditions in homogeneous and micellar media I: kinetic law as a function of Hammett's σ constants and quenching by the leaving moiety, 73

Harmalol

fluorescence and phosphorescence of harmol and harmalol at 77 K, 273

Harmane

phosphorescence emission and polarization of harmane, 263

Harmol

fluorescence and phosphorescence of harmol and harmalol at 77 K, 273

Hydrogen peroxide

methylene-blue-sensitized photochemical hydroxylation of 2-hydroxybenzoic acid by hydrogen peroxide: photocatalytic effect of ferric chloride, 239

Hydroperoxy radicals

measurements of the UV absorption cross-sections for HO₂ and CH₃O₂ in the gas phase, 201

2-Hydroxybenzoic acid

methylene-blue-sensitized photochemical hydroxylation of 2-hydroxybenzoic acid by hydrogen peroxide: photocatalytic effect of ferric chloride, 239

Hydroxylation

methylene-blue-sensitized photochemical hydroxylation of 2-hydroxybenzoic acid by hydrogen peroxide: photocatalytic effect of ferric chloride, 239

Identification

separation and identification of the products of the photodegradation of 7-amino-4-methylcoumarin and the mechanism of its photodegradation, 135

Isotope effect

isotope effect on the photophysical properties of phenol, 33

Ketones

photocycloaddition of ketones to olefins as radiationless transitions, 13

Leaving moiety

benzylidene fluorene ozonolysis under chemiluminescence mimetic conditions in homogeneous and micellar media I: kinetic law as a function of Hammett's σ constants and quenching by the leaving moiety, 73

benzylidene fluorene ozonolysis under chemiluminescence mimetic conditions in homogeneous and micellar media II: rate constants of fluorenone quenching by the leaving moiety, 85

Methanol

formation of methylanisole in the photolysis of chlorotoluene in methanol, 129

Methylanisole

formation of methylanisole in the photolysis of chlorotoluene in methanol, 129

Methyl 2-chloro-3-oxobutanoate

photolysis of methyl 2-chloro-3-oxobutanoate, 333

Methylene blue

methylene-blue-sensitized photochemical hydroxylation of 2-hydroxybenzoic acid by hydrogen peroxide: photocatalytic effect of ferric chloride, 239

Methylperoxy radicals

measurements of the UV absorption cross-sections for HO_2 and CH_3O_2 in the gas phase, 201

Micelles

aging of micellar solutions of ethylene oxide surfactants, 351

benzylidene fluorene ozonolysis under chemiluminescence mimetic conditions in homogeneous and micellar media I: kinetic law as a function of Hammett's σ constants and quenching by the leaving moiety, 73

benzylidene fluorene ozonolysis under chemiluminescence mimetic conditions in homogeneous and micellar media III: substituent effect in the micellar pseudophase, 97
the photorearrangement of *o*-nitrobenzyl esters, 317

Nitronic acid

formation and decay of nitronic acid in the photorearrangement of *o*-nitrobenzyl esters, 317

***o*-Nitrobenzyl esters**

formation and decay of nitronic acid in

Olefins

photocycloaddition of ketones to olefins as radiationless transitions, 13

Oxidation

homogeneous and heterogeneous photoreactions of decomposition and oxidation of carboxylic acids, 107

Oxygen

the photochemistry of alkenes at high pressures V: irradiation of cyclopentene and cyclohexene close to their absorption threshold and in the presence of oxygen, 1

Ozonolysis

benzylidene fluorene ozonolysis under chemiluminescence mimetic conditions in homogeneous and micellar media: I, 73; II, 85; III, 97

Peptides

photoresponsive peptide and polypeptide systems IV: light-induced conformational changes in ϵ -poly(L-lysine) with photochromic side chains, 343

Phenol

isotope effect on the photophysical properties of phenol, 33

3-Phenyl-1,2-benzisothiazole

excited state properties of 2-phenylbenzthiazole and 3-phenyl-1,2-benzisothiazole, 59

2-Phenylbenzthiazole

excited state properties of 2-phenylbenzthiazole and 3-phenyl-1,2-benzisothiazole, 59

Photocatalysis

methylene-blue-sensitized photochemical hydroxylation of 2-hydroxybenzoic acid by hydrogen peroxide: photocatalytic effect of ferric chloride, 239

Photochromism

photoresponsive peptide and polypeptide systems IV: light-induced conformational changes in ϵ -poly(L-lysine) with photochromic side chains, 343

Photoconductivity

photoconductivity measurements using a simulated electrostatic recording device, 165

Photocycloaddition

photocycloaddition of ketones to olefins as radiationless transitions, 13

Photodegradation

separation and identification of the products of the photodegradation of 7-amino-4-methylcoumarin and the mechanism of its photodegradation, 135

Photoionization

a theoretical study of two-color photoionization and autoionization of molecules, 173

laser-induced photoionization and single-strand break formation of polynucleotides and single-stranded DNA in aqueous solution: model studies for the direct effect of high energy radiation on DNA, 145

Photoisomerization

adiabatic photochemical isomerization of *cis*-1-(9-anthryl)-2-phenylethylenes, 301

the photophysics and photochemistry of 2-styrylanthracene and related compounds: extreme variations in triplet-triplet absorption spectra with the temperature, decay anomalies and *trans*-*cis* photoisomerization, 285

Photolysis

formation of methylanisole in the photolysis of chlorotoluene in methanol, 129

photolysis of methyl 2-chloro-3-oxobutanoate, 333

primary processes in the 121.6 nm photolysis of gas phase ethyl bromide, 217

Photorearrangement

formation and decay of nitronic acid in the photorearrangement of *o*-nitrobenzyl esters, 317

Photoreduction

study of the photoreduction of uranyl ions by triphenylphosphine, triphenylarsine, tri-*p*-tolylphosphine and tri-*p*-tolylarsine in acetone, 229

Polarization

phosphorescence emission and polarization of harmene, 263

 ϵ -Poly(L-lysine)

photoresponsive peptide and polypeptide systems IV: light-induced conformational changes in ϵ -poly(L-lysine) with photochromic side chains, 343

Polynucleotides

laser-induced photoionization and single-strand break formation of polynucleotides and single-stranded DNA in aqueous solution: model studies for the direct effect of high energy radiation on DNA, 145

Polypeptides

photoresponsive peptide and polypeptide systems IV: light-induced conformational changes in ϵ -poly(L-lysine) with photochromic side chains, 343

Pseudoazulenes

photophysics of pseudoazulenes: 7-azaindole derivatives, 49

Radiationless transitions

photocycloaddition of ketones to olefins as radiationless transitions, 13

Radicals

measurements of the UV absorption cross-sections for HO₂ and CH₃O₂ in the gas phase, 201

Separation

separation and identification of the products of the photodegradation of 7-amino-4-methylcoumarin and the mechanism of its photodegradation, 135

Single-strand break formation

laser-induced photoionization and single-strand break formation of polynucleotides and single-stranded DNA in aqueous solution: model studies for the direct effect of high energy radiation on DNA, 145

2-Styrylanthracene

the photophysics and photochemistry of 2-styrylanthracene and related compounds: extreme variations in triplet-triplet absorption spectra with the temperature, decay anomalies and *trans*-*cis* photoisomerization, 285

Substituent effects

benzylidene fluorene ozonolysis under chemiluminescence mimetic conditions in homogeneous and micellar media III: substituent effect in the micellar pseudophase, 97

Surfactants

aging of micellar solutions of ethylene oxide surfactants, 351

Temperature dependence

the photophysics and photochemistry of 2-styrylanthracene and related compounds: extreme variations in triplet-triplet absorption spectra with the temperature, decay anomalies and trans-cis photoisomerization, 285

Triphenylarsine

study of the photoreduction of uranyl ions by triphenylphosphine, triphenylarsine, tri-*p*-tolylphosphine and tri-*p*-tolylarsine in acetone, 229

triphenylphosphine

study of the photoreduction of uranyl ions by triphenylphosphine, tri-

phenylarsine, tri-*p*-tolylphosphine and tri-*p*-tolylarsine in acetone, 229

Triplet-triplet absorption

the photophysics and photochemistry of 2-styrylanthracene and related compounds: extreme variations in triplet-triplet absorption spectra with the temperature, decay anomalies and trans-cis photoisomerization, 285

Tri-*p*-tolylarsine

study of the photoreduction of uranyl ions by triphenylphosphine, triphenylarsine, tri-*p*-tolylphosphine and tri-*p*-tolylarsine in acetone, 229

Tri-*p*-tolylphosphine

study of the photoreduction of uranyl ions by triphenylphosphine, triphenylarsine, tri-*p*-tolylphosphine and tri-*p*-tolylarsine in acetone, 229

Uranyl ions

study of the photoreduction of uranyl ions by triphenylphosphine, triphenylarsine, tri-*p*-tolylphosphine and tri-*p*-tolylarsine in acetone, 229
