Catherine D. Clark and Morton Z. Hoffman*: Solvent Reorganization Energy in Excited-State Electron-Transfer Reactions. Quenching and Geminate-Pair Back Electron Transfer

Page 14692. The symbols in the caption to Figure 5 were reversed. The caption should read as follows: Plot of $\log(\eta_{ce}^{-1} - 1)$ vs ΔG_{bt}° at 20 °C for quenchers with $\lambda = 1.1 \pm 0.08$ eV (●) and $\lambda = 0.82 \pm 0.04$ eV (○).
