**Yun-Hong Zhang, Man Yee Choi, and Chak K. Chan\*:**  
Relating Hygroscopic Properties of Magnesium Nitrate to the  
Formation of Contact Ion Pairs

Page 1712. We wish to correct our mistakes in the calculations of the WSR (water-to-solute ratio) of  $\text{Mg}(\text{NO}_3)_2$  droplets in the paper. All WSR values shown in the paper should be multiplied by a factor of 148/86. We are very grateful to a personal communication that draws our attention to the errors.<sup>1</sup> We apologize to the readers for these mistakes.
