

## ADDITIONS AND CORRECTIONS

---

2008, Volume 112A

**Marco Milanese,\* Gianluca Croce, Davide Viterbo, Heloise O. Pastore,\* Artur J. dos Santos Mascarenhas, Erica C. de Oliveira Munsignatti, and Laura Meda:** A Combined High-Resolution X-ray Powder Diffraction, Computational, and XPS Study of the Local Structure of Extra-Framework Copper Ions in Over-Exchanged Cu-MCM22 Zeolite

Page 8403. The atomic coordinates of the Supporting Information were not included with the published article. The coordinates are given with this correction and have been added to the original publication's Supporting Information.

**Supporting Information Available:** Atomic coordinates of the Cu-containing MCM-22 crystal structure. Atomic coordinates of the 11 molecular clusters after DFT geometry optimization (Moldraw format). This material is available free of charge via the Internet at <http://pubs.acs.org>.
