Corrigenda

A note on energy extremal properties for rotating stars in general relativity
Katz J 1972 *J. Phys.* A: *Gen. Phys.* **5** 781–5
In the second of formulae (1), δ_1^k should be replaced by η^k; the correct formula reads

$$\hat{g}^{0k} = +\eta^k J(\rho/4\pi r^3) + O(r^{-3}).$$

Trends in the energy dependence of strong interaction characteristics at ultra-high energies
Vatcha R H and Sreekantan B V 1973 *J. Phys.* A: *Math., Nucl. Gen.* **6** 1078–89
A full square (■) should replace the open square (□) in figure 2. In the caption to figure 3 '(○, without $N\bar{N}$,...' should read '(●, without $N\bar{N}$,...'. In figure 6 values marked on the horizontal axis should read: 10^{-2}, 10^{-1}, 1, 10, 10^{+2}, 10^{+3}.
