Some generalisations of the Poisson summation formula

Crowley B J B 1979 *J. Phys. A: Math. Gen.* **12** 1951-5

(i) The following errors regrettably appeared in the *note added in proof* on page 1955:

On line 2, 'as $m \rightarrow \infty$ ' should read 'as $m \rightarrow \pm\infty$ ';

Equation (N2) should read:

$$\sum_{m=-\infty}^{\infty} \exp(2m\pi iz) = \lim_{\gamma \rightarrow 0^+} \frac{1}{2i} \left(\frac{\exp[-i\pi(z-i\gamma)]}{\sin[\pi(z-i\gamma)]} - \frac{\exp[-i\pi(z+i\gamma)]}{\sin[\pi(z+i\gamma)]} \right)$$

(ii) The references cited as Crowley 1978b and Crowley 1979 have now been published as follows:
