## Corrigendum

The structure of the anomalies of gauge theories in the causal approach D R Grigore 2002 J. Phys. A: Math. Gen. **35** 1665–1689

(1) Formula (4.53) on page 1684 should read as follows:

$$d_Q W_1 = -i\partial_\mu W_2^\mu \qquad d_Q W_2^\mu = 0. \tag{4.53}$$

(2) Formula (4.55) on page 1684 should read as follows:

$$c_{abcd} = -(c \leftrightarrow d) = -(a \leftrightarrow b)$$

$$c_{ab;AB} = -(a \leftrightarrow b) \qquad c'_{ab;AB} = -(a \leftrightarrow b)$$

$$c_{abcd} = 0 \qquad m_c + m_d > 0$$

$$c_{abc} = 0 \qquad m_a + m_b + m_c > 0$$

$$c_{abc} = -(a \leftrightarrow b).$$
(4.55)

(3) Formula (4.57) on page 1685 should read as follows:

$$g_{abc} = 0 m_a + m_b + m_c > 0$$
  

$$g_{abcd} = 0 m_a + m_b + m_c + m_d > 0$$
  

$$d_{a;AB} = 0 d'_{a;AB} = 0 m_a > 0.$$
(4.57)

(4) The sentence on lines 12 and 13 of the Introduction on page 1665 is correct in the online version but, due to an unforeseen software conversion error, the word 'translate' was rendered incorrectly in the printed edition. It should read as:

If one considers the *S*-matrix as a perturbative expansion in the coupling constant of the theory, one can translate these axioms on the chronological products.
