Corrigendum

Local stability for a general wetting functional

R Rosso and E G Virga 2004 *J. Phys. A: Math. Gen.* **37** 3989–4015

In our recent paper an innocent looking typo could obscure our development in one of its central turns. On page 4002, the equation

$$F[u_v] = \mu$$

should be replaced by

$$\frac{1}{\gamma} \delta^2 \mathcal{F} = \mu.$$

Accordingly, in the paragraph following this equation and in the one following equation (4.4), μ should be identified with the minimum of $\frac{1}{\gamma} \delta^2 \mathcal{F}$ subject to the constraints (2.29) and (4.1).

The conclusions of the paper are by no means altered by the mistake corrected here.
