## Corrigendum

### Examples of Heun and Mathieu functions as solutions of wave equations in curved spaces

T Birkandan and M Hortaçsu 2007 *J. Phys. A: Math. Theor.* **40** 1105–1116

The authors regret that some of the equations in their paper were printed incorrectly.

Equations (47)–(51),  $2a^2k_i^2$  should be replaced by  $\frac{a^2k_i^2}{2}$ .

Equation (58) should be replaced by

$$\sqrt{\frac{A'}{C}}u = z. \quad (58)$$

Equation (61) should read

$$R(w) = Se \left( -B, E, \arccos \sqrt{\frac{w+1}{2}} \right) + So \left( -B, E, \arccos \sqrt{\frac{w+1}{2}} \right). \quad (61)$$
