PUBLISHER'S ANNOUNCEMENT**Important changes for 2008**

As a result of reviewing several aspects of our content, both in print and online, we have made some changes for 2008. These changes are described below.

Article numbering

Journal of Physics A: Mathematical and Theoretical has moved from sequential page numbering to an article numbering system, offering advantages and flexibility for the publication process. For example, papers in special issues or sections can be published online as soon as they are ready, without having to wait for a whole issue or section to be allocated page numbers.

The bibliographic citation will change slightly. Articles should be referenced using the six-digit article number in place of a page number, and this number must include any leading zeros. For instance:

Surname X and Surname Y 2008 *J. Phys. A: Math. Theor.* **41** 015001

Articles will continue to be published on the web in advance of the print edition.

A new look and feel

We have taken the opportunity to refresh the design of the journal cover to create a consistent look and feel across IOP Publishing's range of publications. We hope you like the new cover.

If you have any questions or comments about any of these changes, please contact us at jphysa@iop.org
