The structures and interactions of solitary waves in a (2+1)-dimensional coupled nonlinear extension of the reaction-diffusion equation

Corrigendum

The structures and interactions of solitary waves in a (2+1)-dimensional coupled nonlinear extension of the reaction-diffusion equation

Bouetou B T, Kuetche K V and Kofane T C 2008 *J. Phys. A: Math. Theor.* **41** 135208

We provide corrections for some misprints that occurred in our paper.

- On page 5, equation (23) should read:

$$\hat{Q}_4 = \hat{\gamma}_3 \hat{\phi}_1 + \hat{\gamma}_2 \hat{\phi}_2 + \hat{\gamma}_1 \hat{\phi}_3 - \hat{\phi}_{2,xy} + \hat{\phi}_{2,t} - 2\left(-\hat{\phi}_3 g_t + \hat{\phi}_{3,x} g_y + \hat{\phi}_{3,y} g_x + \hat{\phi}_3 g_{xy}\right)$$

- On page 12, the functions p_{1x}, p_{2x} and q_y appearing in the caption of figure 4 should read: $p_{1x} = 1/\sinh(1 + |x - t|)$, $p_{2x} = 1/\sinh(1 + |x + 3t|)$ and $q_y = 1/\sinh(1 + |y|)$.
- On page 17, [56] should read: Hirota R 1971 *Phys. Rev. Lett.* **27** 1192

These corrections do not have any effect on the results presented in the paper. However, they are useful for the reader.
